

Brainstorming Guidelines

One good idea leads to another...
good idea.

"No" and "can't" do not exist.

Creativity has no limits.

Be part of—participate.

Think fast, analyze later...

Judging, evaluating, and criticizing
are not brainstorming.

And above all...

Have fun!

Suggested Ground Rules

Stay open-minded.

Listen and share the time.

Remember to play well with others.

Don't forget why we're here!

Stay focused on the subject at hand.

Lively conversation is productive.

To agree and to disagree...
that is the process!

One more time—Avoid repetition.

It's important to start and stop on time.

and

"Let us deal with things
in a moderate way".
