

Financial Reports

This section of the annual report is broken into four parts: unit distribution trends, consolidated statement of financial position and consolidated statement of activities, independent auditors' report, and donations report.

The unit distribution trends report is a report on the numbers of inventory items distributed throughout the year. These numbers are presented in the form of charts and graphs that illustrate the number of books, booklets, IPs, keytags, chips, and medallions that were distributed by NA World Services during the fiscal year.

The consolidated statement of financial position (SoFP) and consolidated statement of activities (SoA), also known as the "balance sheet" and "income statement," respectively, provide a report on the financial activity of NA World Services during the fiscal year. The SoFP, or balance sheet, gives a simple breakdown of the current assets and liabilities of NAWS in financial terms. The SoA, or income statement, provides a breakdown of the total income and expense for all branches of NAWS compared to the revised budget approved by the World Board in January 2009 and is broken down into the following categories:

Percentage of Expense for 2009–2010 (excluding specifics for WCNA 33)

Under each set of expenses, we include costs for accounting, personnel, overhead, and technology. These are expenses that cannot be attributed directly to any of the specific areas of activity. They are budgeted and allocated (distributed) according to a calculated fixed percentage across the four activity areas listed above. The allocated percentage is based on three factors: the number of

personnel devoted to the activity, the approximate number of labor hours, and the amount of physical office space required by the activity and estimated for the two-year budget cycle.

The independent auditors' report is provided by an outside firm that conducts a professional audit of NAWS' financial reports and practices. NAWS contracts with an independent auditor to conduct this annual review of all of our financial activity for each fiscal year as well as to perform random forensic (spot) checks. These forensic checks review and verify our internal controls and internal financial practices. In order to comply with legal requirements, we have an Audit Committee composed of some members of the Business Plan Group. Consistent with normal accounting practice, this workgroup is independent of specific NAWS management control and operates on behalf of the World Board.

The references to specific line items and expenses are shown differently in the NAWS income statement and the independent auditor's report. But they do show, within a few dollars, the same income and expense, serving as the outside or impartial verification of our financial reporting for this fiscal year. We continue to work with the auditor to minimize the differences between our reporting and theirs.

Finally, the fellowship contributions report is a report on the contributions received by NA World Services throughout the fiscal year from the NA Fellowship, broken down by region and/or country.

Invest in Our Vision

For the last few years, our annual report has included a discussion about the fact that we in NA are well accustomed to working with limited resources, but that we continue to face financial challenges above and beyond the usual "trying to do more with less." The global economic downturn continues to put an incredible strain on our ability to serve the fellowship, but we want to emphasize our goal of continuing to do all that we can in support of the vision for all NA services, as inspired by the primary purpose of the NA groups. We strive to always think of contributions received by NAWS as investments in our collective vision, rather than simply the donation of members' leftover funds.

Several significant achievements were made at the 2010 World Service Conference. As part of the work of the Service System project, A Vision for NA Service was adopted, signifying all that we strive to accomplish in our combined efforts to serve NA at all levels. Another accomplishment was the approval of two new self-support pamphlets, which discuss the importance both of individual financial contributions to NA and of the flow of funds to all levels of service in NA. The approval of these pamphlets is especially important in light of the adoption of A Vision for NA Service, as adequate funding will be critical if we are to achieve any of the goals stated in that vision. In recent years, our ability at NAWS to accomplish work toward that vision has been sharply affected, not just by our need to drastically reduce our expenses in the face of rising costs, but also by continued declines both in contributions from the fellowship and in literature sales. We have also continued to receive questions from local communities about how to improve funding for services, which is a clear indicator that diminishing financial resources are reaching every level of NA service. More than other twelve-step fellowships, many times in NA we have relied on events and fund-raisers rather than a sense of responsibility to fund services through contributions. In order for our service system to function well and bring us closer to achieving our vision, it is critical that NA members and groups contribute enough money to adequately fund our services.

Here at NAWS, we have already passed the critical point at which the levels of services we are able to provide have been drastically reduced. We have now operated at a loss for the last three fiscal years, meaning that we have been depleting the reserves we had established, and they are now nearly nonexistent. We have cut expenses in every area available, with the final area for cutting being workforce reductions. Through the 2009-2010 fiscal year, we have chosen to leave some positions open when staff members have left, and we have not yet had to lay anyone off due to financial constraints. However, without some serious change in our financial situation during this fiscal year, that may no longer be the case.

One change, which was decided on at the conference and went into effect following the close of the 2009–2010 fiscal year, had to do with *The NA Way Magazine*. Until now, every NA group that registered with NAWS has automatically been provided with a free paper subscription to *The NA Way*. Additionally, all members were welcome to sign up for free subscriptions to the paper version of *The NA Way*.

We are not planning to charge for *The* NA Way, but as part of a discussion at the 2010 WSC, we have decided to purge our mailing database for the magazine. Any member who wants to continue to receive a paper copy of *The NA Way* will need to re-subscribe, and NA groups and service committees will also need to re-subscribe to receive paper copies. This will mark a significant reduction in costs for the magazine. Enhanced features have been added to the electronic version in recent issues. Our hope is that, in addition to cutting costs, the electronic version of this publication will be increasingly useful for members.

In keeping with our mission to support and further the fellowship's primary purpose, we have continued to provide free and subsidized literature. We believe that by providing developing NA communities with literature, we are able to inspire more hope for recovery and the ability to better carry the NA message. NA World Services provided over \$630,000 in free or reduced-price literature in the 2009–2010 fiscal year.

While our financial picture has been rather bleak, we are very blessed in that hope is something we always have plenty of in NA. Together, we can make it through any difficulties—as a fellowship of drug addicts, we have proven that time and again. Though our resources may be limited in the short term, when we combine what we have in a spirit of unity, we can carry our message of freedom from active addiction to every corner of the globe, so that one day, in our future, every addict in the world has the chance to experience our message in his or her own language and culture and find the opportunity for a new way of life.

Unit Distribution Trends

Books

In every annual report, we provide a series of charts to illustrate the distribution levels for various literature items, usually as compared to the previous year's figures. One of the more noticeable trends this year—not just for books, but for all of our literature items—has been the continuing decline in our distribution numbers. In the 2008–2009 fiscal year, we distributed well over one million books total, but over the course of this fiscal year that number fell by almost 4 percent. As the chart for this year's book distribution indicates, we saw a decline in distribution for three of our books, a slight increase for two others, and finally a dramatic increase in the distribution of one book, Miracles Happen, due to publication in Farsi this year for the first time. Just for Today and The NA Step Working Guides were the only two books showing slight increases this year, and as a result their respective portions of the all-time book distribution chart have grown ever so slightly. We distributed roughly 1,400 copies of the Swedish Just for Today this year, its first year in publication.

2009 – 2010 Books Distribution

The single largest decrease this year was in the number of Basic Texts distributed, as we distributed over 50,000 fewer copies this year than last. While the large shipment of Fifth Edition Basic Texts to South Africa last year may have inflated that number some, there are some factors that figure into this year's number that are also worth mentioning. First, we have added both Hindi and Arabic to our Basic Text inventory this year, meaning that the numbers have decreased in spite of the

addition of two new translated versions. Second, this year's number takes into account a quantity of books that were distributed in Brazil during the previous fiscal year. This is due to the fact that during the 2008–2009 fiscal year, we experienced difficulties getting distribution counts before closing our financials for that fiscal year.

2009 & 2010 Translated Basic Texts Distribution

1983 - 2010 Books Distribution

Booklets

As the booklet distribution chart illustrates, our distribution counts for all booklets other than the White Booklet have shown a decrease in the past fiscal year, some more than others. Distribution for the White Booklet showed a modest 1 percent increase, while all of the other booklets dropped by at least 5 percent. The most dramatic decrease was in NA: A Resource in Your Community, whose numbers were unusually high in the previous year due to a 20,000-unit order by the United Kingdom Service Office for distribution among government officials. In Times of Illness distribution decreased by nearly 20 percent, perhaps in part due to anticipation of the WSC 2010 decision about the proposed revisions to that piece. The newly revised In Times of Illness was approved at the conference and went into distribution after the close of the 2009–2010 fiscal year.

2009 & 2010 Booklets Distribution

Informational Pamphlets

The story with IP distribution this year is much like that of all our other products, as there have been decreases across the board, with just a couple exceptions. The two IPs that showed an increase in distribution this year were IP #19, Self-Acceptance, and IP #9, Living the Program, which showed 2 percent and 5 percent increases, respectively. As far as other decreases are concerned, the two youth IPs that were newly introduced in the previous fiscal year showed an expected leveling off of distribution, and the two existing self-support pamphlets both showed declines in their already low numbers. The two new self-support pamphlets, Money Matters: Self-Support in NA and Funding NA Services, were approved at the conference, and they were made available for distribution at the beginning of the 2010-2011 fiscal year.

2009 – 2010 Information Pamphlets Distribution

Chips and Keytags

For this fiscal year, there were decreases in the distribution numbers of all of our chips, with the exception of the multiple-year chip, which surprisingly came in at exactly the same count as last year's distribution numbers. As for keytags, we saw small increases in the distribution of both welcome and multiple-year keytags and declines in all other denominations.

2009 & 2010 Keytags Distribution

2009 & 2010 Chips Distribution

Medallions

Overall, medallion distribution has had a slight decline this fiscal year, but the changes in the numbers for the various denominations have been mixed. Of the 50-plus denominations we distributed this year, 20 medallions showed minor increases in distribution. The largest increases, by percentage, were all in the years 20 and up. As the chart indicates, we also distributed a single 57-year medallion.

Independent Auditors' Report

To the World Board of Narcotics Anonymous World Services, Inc.

We have audited the accompanying consolidated statements of financial position of Narcotics Anonymous World Services, Inc. (the "Organization") as of June 30, 2010, 2009 and 2008, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Narcotics Anonymous World Services, Inc. as of June 30, 2010, 2009 and 2008 and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Supplemental disclosures of cash flow information:

Interest paid during the years ended June 30, 2010, 2009 and 2008 amounted to \$75,997, 162,065, and \$181,087, respectively.

In the year ended June 30, 2010, leased equipment with a net book value of \$399,066 was replaced and the related lease obligations, totaling \$544,084, were terminated.

Notes to Consolidated Financial Statement

Independent Auditors' Report Years Ended June 2010, 2009, and 2008

NOTE I – ORGANIZATION AND NATURE OF ACTIVITIES

Narcotics Anonymous World Services, Inc. (NAWS) was incorporated on January 25, 1977 and is headquartered in C hatsworth, California. In addition, NAWS operates a literature distribution facility in Toronto, Canada and offices in Brussels, Belgium, and Iran. NAWS is a not-for-profit organization that provides communications and information for the Fellowship of Narcotics Anonymous (NA). NAWS achieves its purpose by maintaining correspondence with NA groups and service committees, by printing and distributing World Services Conference (WSC) approved literature, and by maintaining the archives and files of NA.

In 1993, NA established the Fellowship Intellectual Property Trust (the Trust). The Trust was established for the purpose of holding and administering all recovery material and other intellectual properties of NA. The Trust is included in the consolidated financial statements of NAWS as a result of common control.

NAWS is exempt under Section 501(c)(3) of the Internal Revenue Code and comparable California Revenue and Taxation Code. The Trust is also exempt under the applicable Internal Revenue Code and comparable California Revenue and Taxation Code. In addition, the Internal Revenue Service has determined that NAWS and the Trust are not private foundations within the meaning of Section 509(a) of the Internal Revenue Code. Therefore, no provision for Federal and state income taxes was made for either NAWS or the Trust.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Consolidation Policy and Basis of Accounting

The accompanying consolidated financial statements include the accounts of NAWS and the Trust. Significant intercompany balances and transactions are eliminated in consolidation. The consolidated financial statements are prepared on the accrual basis of accounting.

B. Financial Statement Presentation

Under U.S. generally accepted accounting principles (GAAP) not-for-profit organizations are required to report information regarding financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. As of June 30, 2010, 2009 and 2008, NAWS held no temporarily or permanently restricted net assets.

C. Cash and Cash Equivalents

NAWS considers all funds held in checking and savings accounts to be cash and cash equivalents.

D. Investments

NAWS investments are reported at fair value. Investments include certificates of deposit, money market funds and government securities. See Note 5.

E. Publication Inventory

Publications and other items held for resale are included in inventory and are carried at the lower of cost or market, with cost determined by the first-in, first-out method.

F. Property and Equipment

Leasehold improvements and furniture and equipment are stated at cost. Major additions are capitalized while replacements, maintenance and repairs that do not improve or extend the useful life of the asset are

expensed. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which are as follows:

Leasehold improvements

5 years

Furniture and equipment

5 - 10 years

Depreciation expense for the years ended June 30, 2010, 2009, and 2008 amounted to \$72,391, \$408,680 and \$276,493, respectively.

G. Trademarks and Copyrights

The cost of acquiring and defending copyrights and trademarks is capitalized and is being amortized over the approximate economic life of the copyright or trademark, which is estimated to be ten years. The cost of computer software is also capitalized and amortized over a period of seven years. Amortization expense for the years ended June 30, 2010, 2009 and 2008 amounted to \$101,606, \$118,235 and \$78,656, respectively.

H. Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are reported net of an allowance for doubtful accounts. The allowance is based on management's estimate of the amount of receivables that will actually be collected. Management estimates uncollectible accounts based on the age of the receivable and other factors.

I. Translation of Foreign Financial Statements

Financial operations in Canada, Europe and the Middle East are translated throughout the year to United States dollars. Gains or losses resulting from translating foreign currency financial statements are recorded in the consolidated statements of activities.

J. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

K. Functional Allocation of Expenses

Based on estimates developed by management, 2010, 2009, and 2008 program service costs totaled \$7,325,806, \$6,505,777 and \$9,235,329, management and general costs totaled \$813,978, \$722,864, and \$1,026,148, respectively.

NOTE 3 – RETIREMENT PLAN

NAWS maintains a qualified defined contribution retirement plan, which covers all employees. Under the terms of the plan, employees may elect to contribute pre-tax earnings up to the maximum allowable amount. NAWS matches deferrals of up to 5% of compensation based on the employee's number of years of service. NAWS contributions totaled \$69,941, \$73,503 and, \$63,072 for the years ended June 30, 2010, 2009 and 2008, respectively.

NOTE 4 – OPERATING AND CAPITAL LEASES

NAWS has entered into capital lease agreements for the use of office equipment. These agreements were terminated and the equipment retired during 2010. The total value of the equipment under capital leases as of June 30, 2009 and 2008 was \$776,560 and \$776,560, respectively. Replacement equipment was obtained under a new agreement, which is treated as an operating lease in the accounting records. NAWS leases additional equipment and facilities under various operating leases.

The following is a schedule of future minimum rental payments required under operating leases that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2010:

Year ending 30 June

\$ 617,181	2011
618,550	2012
601,997	2013
592,137	2014
601,415	2015
<u>514,1803</u>	Thereafter
\$3,546,083	Total minimum payment required

Total payments made under the leases during the years ended June 30, 2010, 2009 and 2008 were \$746,935, \$700,956 and \$737,135 respectively.

NOTE 5 – INVESTMENTS

GAAP establishes a fair value hierarchy that prioritizes valuation inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market:

- Level 1 Inputs are quoted prices in an active market.
- Level 2 Inputs are based on quoted prices for similar instruments and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data.
- Level 3 Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

The following tables summarize investments based on the inputs used to value them, as required by GAAP for periods ending after November 15, 2008:

June 30, 2010					
Money market funds Certificates of Deposit US Government and Government	Level 1 \$ 109,014 -	Level 2 \$ - -	Level 3 \$ - 455,791	Total \$ 109,014 455,791	
Agency obligations Equities	1,569 \$ 110,583	13,222 - \$ 13,222	- - \$ 455,791	13,222 1,569 \$ 579,596	
	June 3	0, 2009			
Money market funds Certificates of Deposit US Government and Government	Level 1 \$ 364,105 -	Level 2 \$ - -	Level 3 \$ - 415,336	Total \$ 364,105 415,336	
Agency obligations Equities	701 \$ 364,806	16,228 - \$ 16,228	- \$ 415,336	16,228 701 \$ 796,370	

The following table reconciles the beginning and ending fair value of the Plan's Level 3 investments:

	Year Ended			
	June 30, 2010	June 30, 2009		
Balance, 1 July	\$ 415,336	712,775		
Purchases/Accrued Interest	12,178	12,325		
Sales/Maturities	28,277	(309,764)		
Balance, 30 June	\$ 455,791	415,336		

Level 1 investments comprise equities and money market funds traded daily on an active exchange. Level 2 investments consist of government obligations valued based on trade prices for similar securities. Level 3 investments are certificates of deposit reported at cost, which approximates fair value.

NOTE 6 – CONCENTRATIONS OF CREDIT RISK

NAWS places its cash and cash equivalents with high quality financial institutions. Cash in U.S. banks was fully covered by the Federal Deposit Insurance Corporation (FDIC). Cash in Canadian accounts is insured up to \$100,000 (Canadian) per bank by CDIC. Cash in other foreign accounts is not insured by the FDIC and totaled approximately \$591,316 as of June 30, 2010.

At June 30, 2010, deposits at banks in Iran and Malaysia were approximately \$268,000 and \$50,000, respectively. The Malaysian account is in the name of a NAWS employee, who resides in Iran. At certain times during the year ended June 30, 2010, Iranian funds were transferred to this particular employee's personal account.

Assets reported in the statement of financial position include cash of approximately \$311,000 and publication inventory of approximately \$400,000 at the Iranian office. Due to current relations between Iran and the United States, it is unlikely that NAWS could transfer such assets out of Iran; accordingly their use is limited to Iranian operations.

NOTE 7 – EMPLOYMENT CONTRACT

NAWS has entered into an employment agreement with its Executive Director. The agreement provides for compensation and benefits and expires on December 31, 2013. Should the agreement be terminated by NAWS, certain amounts would be payable to the Executive Director as defined in the agreement.

NOTE 8 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through December 8, 2010, the date these financial statements were available to be issued. There were no other material subsequent events that require recognition or additional disclosure in these financial statements.

Fellowship Contributions

Every year when we publish the annual report, we include an accounting of contributions we have received from members, groups, and service committees, organized by region. These numbers enable us to provide a comparison of how much of our work is paid for by fellowship contributions and how much is funded by revenue from literature sales.

The ongoing difficulties posed by the global economic climate offer some additional challenges. The work of NA World Services is inspired and governed by the set of spiritual principles outlined in our recovery program. Unlike many other businesses outside of NA, we are far more limited in our options to generate revenue and reduce expenses. To accomplish the business goals that support our spiritual aims, we rely heavily on the contributions of NA members who have found freedom from active addiction and are now living productive, responsible lives. One of our most important tasks at NA World Services is to reach addicts in places where NA does not yet exist. However, the more successful we are in this effort, the more demand we create for additional services and support in places that are difficult and costly to reach. Our greatest successes have brought us our biggest challenges, but the principles of our program remind us that those of us who can give more must do so, in order that addicts in other parts of the world might have the chance to hear our message of recovery.

Cost of Funding Services through Contributions per Worldwide Meeting Actual vs. Require

Annual WSC & Fellowship Development Expenses and Total Weekly Meetings Worldwide

Year	2007–2008	2008–2009	2009–2010
Number of meetings worldwide (approx.)	53,038	53,038	58,039
Total contributions received from meetings worldwide	\$978,673	\$807,711	\$643,745
Contributions received per meeting worldwide	\$18.45	\$15.23	\$11.09
Cost to fund fellowship services (WSC support and fellowship development)	\$4,470,902	\$4,773,473	\$4,777,373
Dollars needed per meeting worldwide to cover fellowship services	\$84.29	\$90.00	\$82.31
Percentage of expenses currently covered by fellowship contributions	21.9%	16.9%	13.5%

By comparing the total contributions we receive per group each year to the cost per group of services we provide to the fellowship (i.e., WSC support and fellowship development expenses), we are able to get a look at what it would take to have our services fully funded by group contributions. In recent years, the gap has been growing between the amount we receive and the amount it would cost for groups to fund these services.

Although we receive contributions from all over the world, the largest portion of those contributions comes from within the United States and Canada. Many of the oldest and most well-established NA communities exist in the US and Canada. However, a substantial number of communities outside of North America are still developing or exist in places where the economic reality is such that they will probably not be able to contribute financially in the foreseeable future. That being the case, we also generated the same data looking only at how much each individual group or meeting in the US and Canada would need to contribute in order to fully fund the services provided directly to the fellowship by NAWS each year.

Other service bodies can do the same: figure out the cost of delivering effective services in your area or region. We encourage you to break down those figures into meaningful numbers, such as the amount of contributions needed per group, per month, and make this information available to your local groups. If we let our members know what we need to be successful in our work, we provide them with an opportunity to see how their contributions come to life.

As the previous tables both illustrate, the decline in contributions has meant that we are even further from the goal of paying for these services entirely through fellowship contributions. It is also worth noting, however, that while fellowship contributions overall have declined over the last year, the amount coming from groups has actually increased.

Annual WSC & Fellowship Development Expenses and Total US/Canada Meetings

Year	2007–2008	2008–2009	2009–2010
Number of meetings in US and Canada (approx.)	26,779	26,779	27,883
Contributions received from US and Canada	\$857,866	\$724,200	\$537,819
Contributions received per US and Canada meeting	\$32.04	\$27.04	\$19.32
Cost to fund fellowship services (WSC support and fellowship development)	\$4,470,902	\$4,773,473	\$4,777,373
Dollars needed per US/Canada meeting to cover fellowship services	\$166.96	\$178.25	\$171.64
Percentage of expenses currently covered by US/Canada contributions	19.2%	15.2%	11.3%
