

Agenda Poll

Items to Address - 2025 Interim WSC
10 December 2024

Below are the results from the agenda poll for the 2025 Interim WSC. For each motion, conference participants were asked “I want to decide on this item during the 2025 Interim WSC meeting.”

These results only indicate that the motion will be addressed at the interim meeting. They are not to be viewed as indicating a level of support for the motions themselves. Two-thirds (2/3) majority of those present and voting is the level of support necessary for any decision of the WSC (excluding WSC elections and appealing the decision of a co-facilitator). This is the level of support necessary for a motion to be considered at the Interim WSC. Based on these results, all motions from the 2025 Interim WSC Report will be addressed at the interim meeting.

129 (of a potential 145) conference participants (CPs) answered the e-poll. (Note: there are 149 voting CPs; however, 4 seats are currently vacant.)
