**To:**

**Subject:** CAR survey input, IP #21, and H&I Basics deadlines

Hello,

Input deadlines are closing on a number of projects this month.

There are just a few days left to offer input to the revised draft of [IP #21](#) and the first part of a three-part revision of [H&I Basics](#)—15 May is the closing date for both. You will find the drafts and more information posted on the respective project pages.

The CAR Survey Input Form will be taken down from [na.org](#) just a few days later. The deadline to have ideas included in the 2026 *Conference Agenda Report* survey is 20 May 2025. Before that date, you may use the form at [na.org/surveys](#) to submit your ideas for new literature, revisions to existing literature, Issue Discussion Topics, and new or revised service material. (You can submit as many ideas as you like, but please include only one idea per submission.) This is an old process but a new form that we hope makes it easier to participate.

The World Board and other conference participants will work together to build the list that will appear in the *Conference Agenda Report*. We are excited to engage in this new collaboration; together we will consider, condense, and collate the ideas into a manageable survey for the Fellowship as a whole. In past cycles, the board did this work on behalf of the conference. Bringing all conference participants into the process represents a new level of co-creation as we build our future together.

To all whose creative action is represented in these submissions: Thank you for your time, effort, and commitment. We look forward to seeing your ideas—by 20 May 2025.

After you've offered input on so many projects, it's time to celebrate! Find an NA event to attend on our [local events webpage](#)—now sorted by month! Don't forget to send yours in, as well!

With gratitude,

World Board

All NAWS subscriptions are free. We are able to provide this service due, in part, to the generous contributions of our members. If you are a member, you can make a contribution here:
