* Unseated Regions

Facts about: ABCD

Name of Regional Delegate **Sandy Mc.**
 Have you attended an in-person WSC before? How many? **Yes, 3**
 Did you attend the 2023 WSC? **Yes** Interim 2025 WSC? **Yes**
 Name of Alternate Delegate **TBD**
 Have you attended an in-person WSC before? How many?
 Did you attend the virtual 2023 or interim 2025 WSC?
 How many areas are in the region? **7**
 Are any of these areas composed entirely of virtual groups? **No** How many?
 How many meetings take place each week in the region? **207**
 How many are in person? **191** How many are virtual? **16** How many are hybrid? **15**
 How many H&I panels each week in the region:
 How many are in person? **30** How many are virtual? **0** How many are hybrid? **0**
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same
 since WSC 2020? **Staying the same**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **12**
 Are any of these meetings hybrid? **yes** How many? **12**
 How many times a year does your RSC meet virtually? **12**
 What committees or workgroups do you have at your RSC?
Phoneline Project Based Workgroups Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Change is slow. It works best in the Areas who always did it but didn't call it that.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, By the NEZF
 Describe what kind of planning your region and/or its areas utilize.
We try to do one planning meeting annually.
 If you have had any particular successes with utilizing technology in new ways within your region
 and/or areas, please share them. **Doing many service meetings remotely is very helpful.**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.
Very few but we work with the Zone when requested.
 Please provide the URLs for the social media that your region is responsible for:
 How many professional conferences per year do the PR/PI committees in your region and areas
 participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We do one Regional Assembly and we would like one Assembly in each of the 7 Areas. There are usually 4-20 members at each Assembly. We take one 'group tally' at each Assembly and we will take a 'group tally' from any homegroup as well to come up with our group conscience. We will also do one survey at each Assembly and encourage members to submit their own surveys and spread the word.**

Which method does your community use to reach a conscience on the CAR?

Other tally - We take one group tally at each Assembly-one Regional Assembly and one Assembly in each of the 7 Areas. Also, any home group can submit a group tally.

Does your region discuss the parts of the CAR not related to motions? **Yes, We will go over the surveys.**

Does your region engage in gathering a conscience for CAT material?**Yes, The CAT will be made part of the Assemblies.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

DRT/MAT and Gender Inclusive Language.

Please describe the most significant challenge your region has faced since WSC 2023.

Probably H&I. In New York State, regulations now tell rehabs they cannot promote 12 Step Fellowships so attendance at H&I in rehabs is light or, sometimes, not at all since the residents cannot be encouraged to attend by staff.

What additional information would you like to share with other conference participants?

Facts about: Adriatic Region*

Name of Regional Delegate **Urska**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the 2023 WSC? Interim 2025 WSC? **No**
 Name of Alternate Delegate **Mirko**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the virtual 2023 or interim 2025 WSC? **No**
 How many areas are in the region? **4**
 Are any of these areas composed entirely of virtual groups? **No** How many?
 How many meetings take place each week in the region? **23**
 How many are in person? **21** How many are virtual? **2** How many are hybrid? **0**
 How many H&I panels each week in the region:
 How many are in person? **2** How many are virtual? **0** How many are hybrid? **0**
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Growing**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **2**
 Are any of these meetings hybrid? **yes** How many? **2**
 How many times a year does your RSC meet virtually? **10**
 What committees or workgroups do you have at your RSC?
Conventions/Events FD/Outreach H&I Literature Distribution Phoneline PR/PI
Translations Website
 Which of these workgroups/committees are new since WSC 2023?
H&I
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **good**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No
 Describe what kind of planning your region and/or its areas utilize.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them.
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.
presentations for professionals in institutions, distributing flyers
 Please provide the URLs for the social media that your region is responsible for:
 How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **No**
Which method does your community use to reach a conscience on the CAR?
Discussion and vote by GSRs at regional workshop/assembly
Does your region discuss the parts of the CAR not related to motions? **No**
Does your region engage in gathering a conscience for CAT material?**No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?
Please describe the most significant challenge your region has faced since WSC 2023.
opening meetings in prison
What additional information would you like to share with other conference participants?

Facts about: Alabama Northwest Florida Region

Name of Regional Delegate **JOHN RICHARDSON**
 Have you attended an in-person WSC before? How many? **Yes, 2**
 Did you attend the 2023 WSC? **Yes** Interim 2025 WSC? **Yes**
 Name of Alternate Delegate **Chris Montanari**
 Have you attended an in-person WSC before? How many? **Yes, 1**
 Did you attend the virtual 2023 or interim 2025 WSC? **No Yes**
 How many areas are in the region? **12**
 Are any of these areas composed entirely of virtual groups? **Yes** How many? **0**
 How many meetings take place each week in the region? **334**
 How many are in person? **311** How many are virtual? **23** How many are hybrid? **6**
 How many H&I panels each week in the region:
 How many are in person? **40** How many are virtual? **0** How many are hybrid? **0**
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Shrinking**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **4**
 Are any of these meetings hybrid? **yes** How many? **4**
 How many times a year does your RSC meet virtually? **0**
 What committees or workgroups do you have at your RSC?
Conventions/Events H&I Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **CBDM can be confusing while doing bussiness at the RSC due to lack of traing for new Rcm's coming to regional service as most of the groups still use Robert's rule of order , or somthing simlar based on theri understand of how that process works. It comes from older members not sticking aroud in the service structure.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No We are just now starting to utlize the help of the SEZF to elp with FD/Outreach
 Describe what kind of planning your region and/or its areas utilize.
We use Sub-commities that are directly resposible to the region for planning, and doing service on behalf of the region
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **we have a paid webservant**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.
Our Regional PR/PI efforts are almost nil

Please provide the URLs for the social media that your region is responsible for:

ALNWFL.ORG

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, As of today we have conducted 7 Car workshops 3 virtual.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by GSRs at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, just giving information about world service**

Does your region engage in gathering a conscience for CAT material? **Yes, a jumbled mess**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

IDT concerning MAT/DRT

Please describe the most significant challenge your region has faced since WSC 2023.

Retaining trusted servants and filling vacant regional positions

What additional information would you like to share with other conference participants?

Facts about: Alaska

Name of Regional Delegate **Frank Zellers**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the 2023 WSC? Interim 2025 WSC? **No**
 Name of Alternate Delegate **Tony Curtis**
 Have you attended an in-person WSC before? How many? **Yes, 5**
 Did you attend the virtual 2023 or interim 2025 WSC? **No No**
 How many areas are in the region? **4**
 Are any of these areas composed entirely of virtual groups? **No** How many?
 How many meetings take place each week in the region? **77**
 How many are in person? **77** How many are virtual? **0** How many are hybrid? **1**
 How many H&I panels each week in the region:
 How many are in person? **15** How many are virtual? **0** How many are hybrid? **0**
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Shrinking**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **2**
 Are any of these meetings hybrid? **yes** How many? **2**
 How many times a year does your RSC meet virtually? **6**
 What committees or workgroups do you have at your RSC?
Conventions/Events H&I Literature Distribution Phoneline PR/PI Website
 Which of these workgroups/committees are new since WSC 2023?
H&I PR/PI Website
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **We are currently in the process of moving from Roberts rules of order and votes to consensus based decision-making**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We do workshops and have learning days several times a year throughout a region
 Describe what kind of planning your region and/or its areas utilize.
We are planning a regional inventory we encourage and teach AREA inventories and Group inventories.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **The main technology we use is Zoom and the website.**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.
We are currently reaching remote communities and have travel groups to go to these areas to do workshops and meetings to encourage growth in rural areas.

Please provide the URLs for the social media that your region is responsible for:
How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, This year we've held 4CAR workshops and that is pretty typical for our region.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per Area

Does your region discuss the parts of the CAR not related to motions? **Yes, We spend a good deal of time outlining and explaining the car to our members**

Does your region engage in gathering a conscience for CAT material? **Yes, Being there by visiting various groups and talking to members, we get a conscience for the region**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

MAT and gender, neutral language.

Please describe the most significant challenge your region has faced since WSC 2023.

Not sure.

What additional information would you like to share with other conference participants?

Facts about: AL-SASK Region

Name of Regional Delegate **Rhonda Robinson**
 Have you attended an in-person WSC before? How many? **Yes, 1**
 Did you attend the 2023 WSC? **Yes** Interim 2025 WSC? **Yes**
 Name of Alternate Delegate **Joanne Alexander**

FD/Outreach Phoneline PR/PI Project Based Workgroups Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **They did not provide us with enough information to comment**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, There have been from areas but none have happened, We do not have an FD position
 Describe what kind of planning your region and/or its areas utilize.
we began this year to use Strat planning for the first time
 If you have had any particular successes with utilizing technology in new ways within your region
 and/or areas, please share them. **we have none except we have been doing hybrid meetings with mid level equipment and it seems to work**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.
Recovery Capital events x2 - Literature and poster drives, phone line and PR committee
 Please provide the URLs for the social media that your region is responsible for:

<https://alsaskrsc-na.org/>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, It is happening in 3 weeks so I cant comment yet - the virtual one we did no one showed up**

One of the 7 areas hosted a Car and submitted their conscience electronically.

Which method does your community use to reach a conscience on the CAR?

Other - We have not done it yet so I am not sure how it will go or what the conscience will be for how we approach it.

Does your region discuss the parts of the CAR not related to motions? **Yes, We will be discussing the discussion topics in addition to the motions of the CAR - we will see how far we can get in the allotted 4 hours at our next RSC**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Pred and disruptive behavior since there was an incident of abuse that occurred at an RSC - we are developing best practices for dealing with it.

Please describe the most significant challenge your region has faced since WSC 2023.

**Apathy - information not flowing to the areas and back to us from the areas
Lack of active participation
Mentorship**

What additional information would you like to share with other conference participants?

We do not do our CAR until March 21, 2026 so there may be details to share after this form is due to be submitted.

Facts about: Aotearoa New Zealand

 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works:

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No, We are just forming a FD Subcommittee at the RSC
 Describe what kind of planning your region and/or its areas utilize.
We have a business plan that includes high level goals with steps to achieve them.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Moving our Literature management and distribution to a third party logistics company. It has been very successful, without increase costs and with much fast turn around and literature delivery!**
We have also just voted to trial a RSC managed payment portal so that groups can set up digital payments through stripe and eventually accept payments from a phone connected to a group bank account - once the tech becomes available.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We had a very successful billboard campaign focused on parts of the country where NA is lesser known. We also created a PSA in collab with the APF and our Regional PR committee specifically for incarcerated populations which is now playing on prison TV to both the incarcerated populations but also their families in the corrections waiting areas.

Please provide the URLs for the social media that your region is responsible for:

N/A

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **1** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We did 4 workshops, 1 of which was hybrid and the other three were online. These workshops were open to any member, but targeted at GSRs. All of the workshops together saw about 50 attendees.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by GSRs at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, We go through the literature survey and the discussion questions. We also highlight any other themes that are present in the CAR or discussions at CP web meetings.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

We have a lot of discussion about fund flow and 7th tradition as well as general interest in our fellowships needs moving into an increasingly technological world. How does this affect our literature? How does it affect NAs current reliance on literature sales?

Please describe the most significant challenge your region has faced since WSC 2023.

Fund flow - contributions are declining

What additional information would you like to share with other conference participants?

Facts about: Argentina

Name of Regional Delegate **Leandro Gil**
 Have you attended an in-person WSC before? How many? **Yes, 1**
 Did you attend the 2023 WSC? **Yes** Interim 2025 WSC? **Yes**
 Name of Alternate Delegate **Jose Aguirre**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the virtual 2023 or interim 2025 WSC? **Yes**
 How many areas are in the region? **26**
 Are any of these areas composed entirely of virtual groups? **Yes** How many? **1**
 How many meetings take place each week in the region? **270**
 How many are in person? **200** How many are virtual? **70** How many are hybrid? **30**
 How many H&I panels each week in the region:
 How many are in person? How many are virtual? How many are hybrid?
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Growing**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **4**
 Are any of these meetings hybrid? **No** How many?
 How many times a year does your RSC meet virtually? **0**
 What committees or workgroups do you have at your RSC?
Conventions/Events FD/Outreach H&I Literature distribution Phoneline PR/IP
Regional Service Office Website
 Which of these workgroups/committees are new since WSC 2023?
Project Based Workgroups
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Implementing this methodology for decision-making has greatly helped us to be unified; it's no longer about those who are for or against, it's about consensus, and that helps.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We have established a plan to hold two to three service forums per year, consisting of two-day workshops based on the needs of the requesting departments. We also conduct half-day virtual service forums, also offering workshops tailored to departmental needs. In the 2025/2026 cycle, we are implementing a project based on a mapping exercise we conducted across the Argentine region. This mapping exercise

identified areas where our meetings are not reaching, and this project aims to determine how to reach those areas. This project is currently underway.

Describe what kind of planning your region and/or its areas utilize.

We have just presented this two-year project, which begins at our next assembly in March 2026: 1. RATIONALE The Argentine Region of Narcotics Anonymous recognizes the need to strengthen its unity, improve clarity in structural communication, and consolidate the effectiveness of its service, in accordance with its primary purpose: to carry the message to the addict who still suffers. In the practice of regional service, challenges arise that require an organized, participatory, and spiritually aligned response. This project is born as a tool to listen to our conscience, identify real priorities, and guide regional efforts responsibly. It is not about modifying the structure, but about strengthening it through informed collective awareness. 2. SPIRITUAL AND CONCEPTUAL FRAMEWORK

This project is based on:

- Unity as the foundation of all service.**
- Group consciousness as the final authority.**
- Participation as an expression of responsibility.**
- Principles before personalities.**
- Service as an expression of gratitude and recovery.**

The process should be developed with open-mindedness, respect, and goodwill.

3. PROJECT PURPOSE

To generate a participatory regional process that allows:

- Detecting real needs.**
- Identifying priority problems.**
- Recognizing structural challenges.**
- Strengthening regional unity.**
- Developing a strategic and operational plan for 2026-2028.**

4. SCOPE

- Applicable to the entire Argentine Region.**
- Voluntary and anonymous participation.**
- Involves interested Areas, Groups, and members.**
- Development period: March 2026 - March 2028.**

5. GUIDING PRINCIPLES

- Unity before opinion.**
- Transparency in criteria and results.**
- Broad participation.**
- Respect for the autonomy of Areas.**
- Permanent focus on the primary purpose.**

6. IMPLEMENTATION MANUAL

6.1 Approval - March 2026

- Formal presentation of the project at the Regional Assembly.
- Responsible debate.
- Institutional approval.
- Formation of a temporary Coordinating Team.

6.2 Survey Design - April to June 2026

- Development of a digital form.
- Printable version.
- Definition of anonymity criteria.
- Pilot test.
- Final adjustments.

6.3 Data Collection - July to August 2026

- Dissemination in Areas and Groups.
- Estimated timeframe: 30-45 days.
- Anonymous registration of responses.

6.4 Analysis - September to November 2026

- Thematic classification.
- Identification of trends.
- Application of prioritization criteria.

6.5 Assembly Preparation - December 2026 to February 2027

- Drafting of executive report.
- Selection of 3 priority axes.
- Design of participatory workshops.

7. COMPLETE REGIONAL SURVEY MODEL

The survey will be voluntary, anonymous and participatory.

SECTION A - GENERAL DATA (optional)

1. SECTION B - REGIONAL DIAGNOSIS 1. What area do you belong to?

2. What is your approximate clean time?

3. Do you currently provide any service?

SECTION B - REGIONAL DIAGNOSIS

4. What do you consider to be the three main current problems?

5. What challenges do we face today as a Region?

6. What is working properly?

7. What situations could affect the unit?

SECTION C - SERVICE AND STRUCTURE

8. Is regional communication clear and timely?

9. What could be improved in the structure?

10. Do you feel represented?

11. What obstacles exist to assuming service?

SECTION D - FUTURE AND DEVELOPMENT

12. What projects are priorities?

13. What should we strengthen as a Region?

14. Where is more training needed?

15. Would you participate in new projects?

SECTION E - PRINCIPLES AND UNITY

16. What principles should we practice more?

17. What actions would strengthen unity?

18. Additional comments.

8. PRIORITIZATION CRITERIA

- Frequency.

- Impact on the purpose.

- Regional scope.

- Urgency.

- Structural feasibility.

9. ASSEMBLY MARCH 2027

- Official presentation of results.

- Identification of 3 priority areas.

- Participatory workshops.

- Preparation of a Base Document for implementation.

10. STRATEGIC PLAN 2026-2028

PHASE 1 - LISTEN (2026-2027)

PHASE 2 - GO DEEPER (March 2027)

PHASE 3 - DESIGN AND IMPLEMENT (March 2027-March 2028)

ASSEMBLY MARCH 2028: Formal approval of the Implementation Plan.

11. IMPLEMENTATION PLAN 2027-2028

- Specific Diagnosis.

- General Objective.

- Specific Objectives.

- Concrete Actions.

- Responsible Parties.

- Defined Deadlines.

- Measurable Indicators.

- Quarterly Monitoring.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Yes, the first success was having virtual meetings 24/7, and these meetings came together to form an area that is now part of the Argentine region; this area is virtual. It's worth noting that by creating this structure, many virtual groups that were previously unaffiliated were able to join.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Book fairs.

Participation in soccer fields with posters.

Extensive promotion through social media: Facebook, Instagram, YouTube channel.
IP panels throughout the territory.
Large-scale events: Carnivals, cultural events, etc.
Music and theater festivals.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **36** How many were virtual events? **10**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Regional Pre-Assembly: We held this event where we invited all interested members to participate. The idea was for everyone to answer the CAR surveys at this event, and then, at the assembly held 15 days later, we discussed the motions.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

We worked extensively on the four debate topics that emerged from the 2023 WSC, and it was truly enriching for us, leading us to conduct many workshops, and all service bodies aligned themselves with these themes.

Please describe the most significant challenge your region has faced since WSC 2023.

To develop a joint project plan, we were very attentive throughout the cycle to the plan we have been putting together with the global services with the idea of replicating the same in our region, obviously taking into account the awareness that arises at the time of execution.

What additional information would you like to share with other conference participants?

Conventions/Events Phoneline Project Based Workgroups Website
Other Communications (includes social media)
 Which of these workgroups/committees are new since WSC 2023?
Other
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **The Arkansas Regional Service Committee uses Consensus-Based Decision Making (CBDM) as its primary decision-making process. Discussion is facilitated to allow all voices to be heard before testing for consensus. If consensus cannot be reached, the body may use a secondary decision-making method as outlined in our guidelines. During this conference cycle, we reviewed and clarified our guidelines to reduce conflicting references to Robert's Rules and better align our written procedures with CBDM practice.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The Region supports FD by providing Starter Kits (assembled with different items that are sold by NAWS) upon request. The Region has also taken up a project named

"Basic Text for Jails" that is tasked with getting a Basic Text in every jail in Arkansas. New emerging groups are added to our website's meeting list as Loner Groups that are not affiliated with any Area Service. Some Areas organize informal outreach efforts to support other groups who might be new, rural, or in existence for a long time but needing support.

Describe what kind of planning your region and/or its areas utilize.

The Arkansas Region utilized a regional survey during this conference cycle to gather input on priorities and service effectiveness. Response rates were limited; however, the feedback initiated a larger strategic planning discussion at the RSC meetings. Planning at the RSC level continues to be discussion-based and responsive to emerging needs rather than driven by a formal long-term strategic plan.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **N/A**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Public relations efforts in the Arkansas Region have included maintaining IP racks, posting flyers, hosting PR booths at events, and providing orientation presentations to drug court participants. Treatment centers have engaged with NA at regional events, and requests for literature distribution to facilities have increased. The Region also implemented a standardized process to respond to all jail correspondence to ensure consistent, timely communication with incarcerated individuals seeking literature or information about NA.

Please provide the URLs for the social media that your region is responsible for:

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, The Region conducted two hybrid CAR workshops with low attendance, primarily attended by members from one Area. In addition, one in-person CAR workshop was held at the request of an Area, with strong participation from most groups within that Area.**

Which method does your community use to reach a conscience on the CAR?

Other - The primary method used to reach a conscience on CAR material is discussion and vote by Regional Committee Members (RCMs) at the RSC meeting. However, if consensus cannot be reached during the RSC meeting, RCMs may submit votes and additional input by email to the RD. This allows Areas to provide clarification or perspective that may inform amendments or motions that cannot return to groups for further discussion within the timeline.

Does your region discuss the parts of the CAR not related to motions? **Yes, The Region discusses the informational sections of the CAR in addition to motions. We review the main points outlined in the delegate PowerPoint and facilitate workshops around the discussion topics to encourage broader understanding and input.**

Does your region engage in gathering a conscience for CAT material? ... **Yes, The Region follows the same discussion and voting process used for CAR material. CAT items are discussed at the RSC meeting, and input is gathered from Areas through their RCMs. Final decisions are made in alignment with the delegate's responsibility and discretion at the World Service Conference.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

The subject that generated the most sustained discussion during this conference cycle was service structure alignment and how the Region makes decisions. This included how the Regional Service Committee applies Consensus-Based Decision Making (CBDM), and how written guidelines either support or hinder that practice. A full review of regional guidelines was initiated to streamline language, remove conflicting references to Robert's Rules, and shift from restrictive procedures toward clearer guidance. Many detailed procedures are being moved into working procedure guides to better reflect how the body functions in practice.

Additional areas of significant discussion included predatory behavior in meetings, maintaining clarity of the NA message amid the growth of recovery-related professions such as peer support, and ongoing service participation challenges. Conversations also addressed public relations structure, particularly concerns about H&I-style efforts being initiated without committee oversight, and how to ensure consistency and accountability.

Technology and communication practices also generated discussion, including challenges integrating YAP for text-based meeting search due to outdated documentation, and the transition to a virtual mailbox system to improve efficiency and oversight.

Please describe the most significant challenge your region has faced since WSC 2023.

The most significant challenge during this cycle has been how to effectively serve a geographically large and partially rural state with uneven Area coverage.

The Region created a visual service coverage map to better understand which counties were supported by an Area and which remained uncovered. This clarified gaps in fellowship development, public relations, and H&I support across rural portions of the state. The challenge has been determining how best to support emerging meetings and new groups forming in areas with little or no established NA presence, while maintaining connection to the broader service structure.

Arkansas Region

WSC 2026 Regional Reports

Service participation has also presented challenges. Sustaining engagement beyond a small number of trusted servants continues to require attention. During this cycle, the Region experienced a mid-cycle delegate team transition, which highlighted the need for clearer onboarding processes and mentorship continuity.

Administrative challenges were addressed through a completed treasurer audit and procedural revision, as well as restructuring efforts to clarify roles, simplify communication functions, and align practice with CBDM.

What additional information would you like to share with other conference participants?

During this conference cycle, the Arkansas Region implemented several structural and outreach improvements.

A standardized process was established to respond to all inmate correspondence, ensuring consistent and timely communication with incarcerated individuals seeking information about NA. The Region secured liability insurance to better protect groups and service activities.

The "Basic Text for Jails" project has gained momentum, with ongoing efforts to place a Basic Text in every jail in Arkansas. Emerging groups continue to be supported through locally assembled starter kits and are listed on the regional website as Loner Groups when not yet affiliated with an Area.

The Region completed a major guidelines overhaul to simplify language, reduce procedural rigidity, and better align written guidance with how the RSC functions and makes decisions. Financial practices were strengthened through a completed audit and updated procedures.

The Arkansas Regional Convention held during this cycle was successful and had measurable community impact. Treatment centers attended, requests for literature increased, and the hosting Area has submitted a bid to host again, reflecting strengthened local engagement.

Facts about: AUSTRALIA

Name of Regional Delegate **Joanna Wild**
 Have you attended an in-person WSC before? How many? **No**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **No**

Which method does your community use to reach a conscience on the CAR?

Other - Tallied - One vote per area

Delegate team have discretion to change vote.

Does your region discuss the parts of the CAR not related to motions? **Yes, Car is presented to the body of the Region; we discuss and workshop the surveys and invite all members to read the car, they may have discussions or questions that will be allowed on the agenda to explore world services conference material.**

Does your region engage in gathering a conscience for CAT material? ... **Yes, CAT is presented to the body, Cat and car motions together are emailed out to the regional committee members in advance of the next meeting for their information. A session is dedicated to getting the body's conscience on the motions and a tally is taken for the delegates to participate with at the WSC.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Cashless collection of 7th tradition funds at group level, no one uses cash anymore.

Artificial intelligence and the ways it may help us in our service efforts

Predatory behavior

Strategic Planning and what we aim to achieve, mentoring trusted servants.

Archiving our historical memorabilia in one place that is safe, fireproof, and can be used to display at events.

Creating a H and i position at region to help get information out to all panels and help coordinate services.

Public relations committee presented the 2024/25 survey of our members.

Policy and having a functioning committee to update our guidelines to reflect our practices and procedures.

AUSTRALIA

WSC 2026 Regional Reports

Please describe the most significant challenge your region has faced since WSC 2023.

A member harassed the chairs about money and how it is spent, they threatened legal action, trusted servants met to make sure our legal documents were in order and that our fund flow to NAWS was covered. they invited the member to observe and the member put in a resume for treasurer, they were asked the difficult questions and not voted in. We think/feel they left respecting the region and we haven't heard from them since getting trusted servants willing to commit and work together harmoniously.

7th tradition funding collection as no one carries cash

What additional information would you like to share with other conference participants?

Australia has only just got a PR committee this cycle, who are exploring a digital presence on the internet. this will greatly increase our availability to reach addicts, and our fellowship should grow as a result.

Australia has not changed the full region to the three-year cycle; they still operate on the 2-year model. The changes at the WSC have affected the Delegate team only and they are in line with the trial 3-years. As far as we can tell the dissemination of the NAWS information is affected in person, but we think that with NAWS eblasts and emails, webinars and workgroups and the new website, information is freely available today for our members.

Phoneline PR/PI Project Based Workgroups Website Other "My Home Pharmacy" (NA
business cards are distributed in pharmacies),
"Broadcast" (Assistance with hybrid meetings),
Our regional newspaper "Just for Today",
"Phoenix" (assistance in attending in-person meetings for our members with disabilities)
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **This doesn't always work and doesn't apply to all decisions, but we always strive for it. However, if we don't find consensus, we make a decision by a 2/3 vote.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Our FD committee report for 2024/2025:
We created an expanded FD chat with subsections to simplify communication between FD servants in different areas. We participated in creating a memo for adding new

meetings to the website. We conducted inventory at the request of several areas committees. We helped groups to access the website, and receive a starter kit of literature and conclude lease agreements. We participated in the preparation and holding of "Sponsor Day." We integrated the NA-Moto Project into the FD (New project to support remote groups and areas through motorcycle rides of our fellowship members). We hold panel discussion to share experiences between areas. Regularly training of servants, review of seminars and other materials related to service. We plan to continue supporting area FD subcommittees, create our own seminars on relevant topics, and edit existing ones.

Describe what kind of planning your region and/or its areas utilize.

We usually plan the regional budget once a year, which includes budgeting for all regional subcommittees.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We have an IT committee operating at the Zone level.**

Employees from our region actively participate in it. <https://na-russia.org/moskva>

We have managed to place our meetings on Yandex maps (similar to Google Maps).

We maintain our social media accounts and regularly post content for potential newcomers.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

In general, we strive to cooperate, but not join, with professionals and government authorities where possible. The most successful examples are the Federal Penitentiary Service and the Moscow Scientific and Practical Center for Drug addiction treatment.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We are gathering online. Regional delegate and all of RCMs. Together, we discuss motions from the CAR and try to reach a consensus based decision.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by RCMs at RSC meeting

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **Yes, Same as CAR**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Dealing with Disruptive and Predatory Behavior

Please describe the most significant challenge your region has faced since WSC 2023.

The region is in stagnation. No new projects are being initiated. There is very little interest among fellowship members at local services. There is a lot of criticism from the oldtimers who are no longer involved in service at committees.

What additional information would you like to share with other conference participants?

Thank you for your service)))

 Comments about how that works: **Taking decisions through consensus is a relatively new approach for a region, it demands investment of time, patience, empathy and care with new servers, we are working to improve.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The region has a Public Relations Subcommittee, and within this subcommittee, there are Service Groups (GS) and Working Groups (GT); one of these is the Long Reach (LA) group, which fosters communication between the areas and seeks to reduce barriers.
 Describe what kind of planning your region and/or its areas utilize.

We sought input from the various departments and conducted joint strategic planning to foster community development and bring them closer together; we also carried out a regional sectorization.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We use zoom to broadcast our meetings, all of them are hybrids, and there are also four other ordinary meetings to decrease the distance and improve communication. Also, as PR meetings, both GSs and GTs occurred virtually.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

working group has been approved to better administer the actions of the PR World Week, two regional service forums will be organized that will deal only with H&I services and another from PR, with the North Development project, we will do the last stage in September in the South of Amazonia and the Municipality of Humaitá, through the requests of the ASC. Through the efforts of the GT, mapping data was gathered as information about the quantity of institutions and prisons and the geography of the region exist, 153 prisons in our geography and we are developing a project to enter into contact with the major number presented in the project cards and H&I regional possess two operating offices attending 11 institutions and two prisons.

 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works:

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Região Brasil Sul has a leadership of FD, which coordinates actions for the development of NA and the region. The metropolitan committees also realize FD services, focusing on the opening of new groups in distant regions, as well as maintaining long-range services. Thanks to these services, there has been a relevant increase in the number of groups and meetings in our region in recent years. Together with these actions, we organize local action forums, with public relations services and cities in which the learning day takes place.

Describe what kind of planning your region and/or its areas utilize.

Our departments carry out their planning by analyzing financial resources, that is, building and approving an annual budget forecast. During the preparation of the budget forecast, the prioritization of services to be carried out is discussed and selected, without prejudice to the inclusion of new, unforeseen services, depending on demand and cash availability.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **There are areas that realize meetings of committees and subcommittees in hybrid form, allowing those with some difficulty in locomotion to participate. Inclusive, we have a totally virtual group based in this area.**

Uma another area shares the experience of involvement of members to participate in CAR issues through surveys (survey form).

One area relates the face of data base in real time (planilha) for the sale of literature for their groups. The groups make orders for literature directly based on this data base, and the information on the availability of stock in real time.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

The region, through its metropolitan committees, carries out public relations efforts in the following areas. TV's.

Identifying members in isolated cities and assisting them in establishing a group within their city.

Organizing periodic meetings between different areas to discuss matters related to hospitals and institutions.

Please provide the URLs for the social media that your region is responsible for:

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, One in each metropolitan committee—one in-person and one online.**

One at the in-person regional assembly.

In select ASCs that requested a presentation of the workshop.

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per member

Does your region discuss the parts of the CAR not related to motions? **Yes, Through workshops and sessions with regional meetings.**

Does your region engage in gathering a conscience for CAT material? **Yes, Through debates in rapport sessions of the delegates.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Dealing with disruptive and predatory behavior.

Please describe the most significant challenge your region has faced since WSC 2023.

The most significant challenge that our region has faced since WSC 2023 is maintaining the stability and continuity of regional services amid structural changes and participation. This scenario requires additional efforts to keep the subcommittee functioning, preserve unity and guarantee that decisions are made based on collective conscience.

What additional information would you like to share with other conference participants?

We would like to share that the South Brazil region is undergoing a natural process of multiplication. The groups in the state of Paraná approved a motion for the creation of a new region. This process is in progress and we are happy for everything to be running in the spirit of unity.

In the year 2024, the region of Brasil Sul held its "5th Regional Convention Brasil Sul" from 11 to 14 April 2024. The event included thematic sharing, artistic presentations, sports activities and entertainment on an island situated off the coast of the state of Paraná. And on occasion, the region realized numerous public information panels with the community of the island, in addition to public relations actions in coastal cities.

Facts about: British Columbia

Conventions/Events FD/Outreach H&I Literature Distribution Phoneline PR/PI Project Based Workgroups Website
 Which of these workgroups/committees are new since WSC 2023?
FD/Outreach
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **All Areas use CBDM. our Region Service Committee has been using CBDM for approx. 20 years now. at times this process can take longer however it fosters better collaboration, produces higher-quality NA services, makes for durable decisions that are re-visited less, and ensures strong buy-in from all of our members.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Currently FD is part of our PR efforts. FD is currently in a planning process gathering information from our member areas to explore what their specific needs are. once this information is compiled a detailed plan will be formulated on how to best Mentor and Train members or provide the support needed.
 Describe what kind of planning your region and/or its areas utilize.

Our region conducted its first Planning Process in 1999 with the assistance of the WB. since that time we have been scanning areas (external) and identifying their needs through the 4 step planning process. we will be conducting an internal scan of our RSC this fall.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **our region lacks members with the Tech experience to allow us to really embrace technology.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

BC PR is broken into four categories. Public Information, Hospitals & Institutions,, or (jails), Fellowship Development and Phoneline. the past year the PR Committee focused on Training and Mentoring members across the region while and implementing a National Roundtable on Narcotics Anonymous with local Provincial and National Stake holders including Municipal, Provincial and Federal Governments. Law Enforcement, Corrections, First Responders, Healthcare, Religious Leaders, Educators both Public, Private and Universities. we also include NGOs that work in the field of addictions.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, we have conducted 2 virtual workshops that were poorly attended, and 6 in-person area workshops with average attendance. Of up to 30 GSRs in attendance**

group votes are collected and tallied by area to obtain an overall consensus by percentage. our region allows the RD the ability to change a vote based on discussions and work done at the WSC that may not have been available at the time in our region.

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, open discussions on issue discussion topics and surveys gives the RD team direction on decision making for the region**

Does your region engage in gathering a conscience for CAT material? **Yes, this is done at our RSC with input for the area RCMs**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

**MAT/DRT helping members take root
reimagining and revitalizing service committees**

Please describe the most significant challenge your region has faced since WSC 2023.

Mentorship & Training

What additional information would you like to share with other conference participants?

our Public Relations efforts are on fire, we have been engaged with government officials interested in our approach to addiction. our regional PR budget this past year is \$30,000.00. We also contributed \$3000 to NA World Services.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We have FD/Outreach Committee.
We visit emerging groups or prospective groups, provide them with literature and other
NA items, provide them with information about our and other conventions and about
NA. Also, we would just visit them to do fellowshiping together and stay close. The
last but not least we make sure that they are really NA and if any doubts or problems
arise we would talk with them. Eventually we wouldn't list a not really NA meeting on
our Website

Describe what kind of planning your region and/or its areas utilize.

Project based planning, quarterly and yearly

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We use only traditional technology such as Internet, Websites, Viber Groups , WhatsApp groups, telephone.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We have 1 or 2 yearly PR events where we invite various target audience - hospitals, rehabs, police, lawyers, emergency medical units;

We have established contact with the National level Police - we have presented them NA and now we are in a process of identifying cooperation models - such as posters in Police units and maybe other type of cooperation not yet identified. We will maybe ask for NA support.

 Does your RSC meeting use CBDM to reach decisions? **No**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **CSSNA uses CBDM. They love it. With education, perhaps all our ASC's could use CBDM. Roberts is hard for people to understand.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No We currently have an ad-hoc guidelines committee discussing adding fellowship development to our guidelines. The admin body and RCM's are now starting to understand the critical need for outreach and fellowship development.
 Describe what kind of planning your region and/or its areas utilize.
Right now our Region is struggling with new RCM's that have not been mentored, read the traditions and concepts, are new to the program (a year of clean time for one). They do not understand regional service structure and fight amongst the traditional region decorum and parliamentary procedures. Some are only beginning to understand they represent their ASCs and not themselves - not understanding concept 3. Prior to one of

our very prominent members death we did planning and organizational development but with his death, the lack of maturity and service structure education has caused many problems and our planning stopped.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We have Alan from our WSZF and he has helped our ASC's get the BMLT and YAP. He has been amazing in bringing information to the delegate team to bring to our ASCs and members so they have the choice to utilize these fine products. We have one ASC that voted to keep an individuals personal phone for their hot line number, this has been going on for 15 years, and he refuses to allow anyone else to hold that position. Their area chair is very happy to announce they have freedom to do whatever they want regardless of service structure, traditions, concepts, the outdated guide to local service, and group booklet.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We only have four ASCs that actively have a PR subcommittee. The delegate team has provided workshops on PR and reports about the importance of PR so one of our ASCs is actively reading the PR handbook, reaching out to some facilities, and are excited to bring the value of NA to organizations that can help people.

Please provide the URLs for the social media that your region is responsible for:

We have no regional social media accounts.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We host the CAR and the CAT. Many regions don't provide the CAT, which is unfortunate. Our Regions ASC's insist on the CAR and the CAT. We normally have six out of the eight ASCs requesting CAR Workshops. Ours start tomorrow and end in March with six ASCs. The average attendance is about 20 people. Our mountain ASCs have lower attendance because they are isolated areas with 60 members or less for two of the ASCs.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by individual members at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, We explain the financials, fellowship development, and planning. We go through the CAR and CAT via projector PPT view, with snip handouts of the motions since they don't come to us like they used to. But, we go through the CAR & CAT. Our workshops take ap**

Does your region engage in gathering a conscience for CAT material? **.Yes, We present the CAR and the CAT at the CAR workshops each year. The CAT is extremely important to our members because our Region has always presented both and the members expect it. They also know what it's called without the acronym.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

MAT/DRT and Disruptive and predatory behavior. The delegate team has done these workshops many times. The disruptive/predatory behavior workshop has been done at the meeting level due to an extreme inappropriate event at their fellowship. Additionally, Sierra Sage Region and CMSRNA had a joint workshop on this topic and it was well attended. Members are sometimes surprised at the various acts presented in the PPT. A lot of education has been helpful to our members in our region.

Please describe the most significant challenge your region has faced since WSC 2023.

Our convention committee is rogue. They do not care to follow their own guidelines or roberts rules of order. They have a bully who has threatened people, misuses NA funds, degrades and demeans people, and the committee is afraid of him or agrees with him. Some of the administrative body took their positions for selfish service instead of selfless service, they lied from the gate when receiving the bid, and some of our members in various areas refuse to attend this year. The delegate team and RSC chair went to a few meetings with negative results. The committee was angry and defensive. They do not agree that they are a subcommittee of the RSC and the bully has even stated they will keep their overflow funds after the convention is over. That won't happen, but the immaturity, the lack of selfless service, and firing their subcommittee chairs a few times has hurt them. Currently they are track to lose money. Unfortunately, our RSCs revenue stream depends on the convention profits to sustain the activities of the RSC. It's a mess. I'm grateful to roll off this May before the convention and stay away from the mess. There is no spiritual principles or concepts of service they want to hear, discuss, or acknowledge.

What additional information would you like to share with other conference participants?

It has been an amazing time to be with all of the members for all these years. I am so very grateful to have learned so much about service structure and to help so many people in our area and attend our zone presentations to the USA and the world. What an amazing journey. Additionally, the love of NA from our world board regardless of our differences, is amazing.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We look for opportunities to attend conferences and try to collaborate with local entities in various provinces when possible.
 Describe what kind of planning your region and/or its areas utilize.
Our region uses a 2 year cycle at this time which includes budgets and events for projecting available resources
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Since Covid we have used Zoom a great deal for service related meetings and some recovery meetings. We also use our website to share and collect information such as voting by groups for WSC motions.**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.

The most recent event was in Halifax Nova Scotia where we collaborated with CANA attending the Canadian Conference on Substance Abuse Nov 17-19 2025

We also hold training sessions on Zoom as required, The most recent one was held on Feb 7 during our regional assembly gathering.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We are holding our first workshop this coming Saturday. The event will run about 7 hours and include the CAR & Cat business including the Surveys. More workshops are planned by areas with assistance when requested and required.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, We will hold discussion sessions on each of the survey issues as well**

Does your region engage in gathering a conscience for CAT material? **.. Yes, This process is the same as for the CAR. Sharing of the data, pros and cons and general input/discussion**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

MAT/DRT

Please describe the most significant challenge your region has faced since WSC 2023.

Regaining interest/addict power in the service structure continues to be slow since covid which impacts most of the services we can provide.

Also, required insurance at meeting venues is a fairly new thing that has impacted available finances by groups and areas. It is a bit complicated and challenging for some.

What additional information would you like to share with other conference participants?

With the shift in the use of cash, setting up methods of collecting the 7th at group meetings and encouraging members to participate continues to be a learning curve. It would be pretty amazing if there was access to a standard process that we could use

 Comments about how that works: **The Region is new, it was formed as a result of a working group of the Argentine Region, in which, due to the size and distances, for 2 years an "InterArea" working group functioned to develop and coordinate the resources of 4 areas at that time to form this Region that began to operate on August 23, 2023 with 7 areas and today it is made up of 8 areas, 4 subcommittees and different working groups (WG directory and WG multimedia) and service (literature)**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The Region has a Fellowship Development Subcommittee that conducts in-person Service Forums (two days), Service Days (one day), and virtual Service Days (two hours). These are usually requested by and for the areas and/or their groups. This year, following the regional growth project of holding a regional event in areas where NA

needs development, the Region will hold two Service Forums in locations where these events have already taken place. On average, the region holds two Forums and one Service Day per year.

Describe what kind of planning your region and/or its areas utilize.

Our planning as a Region is annual, with the Development subcommittee planning the Forums, the Events subcommittee planning the Regional Convention (usually in May), and the Delegates planning the assemblies (once a year). The Public Relations and Information Line subcommittees plan more in the short term according to the needs of the areas and the Region.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Our areas and subcommittees rely on technology for their operations, as without virtual platforms, our subcommittees wouldn't be able to meet as frequently as they do. Our monthly virtual meetings (and those of many other areas) are essential for the continuity and progress of our annual project plans. One tool that is currently proving successful in developing workshops is Artificial Intelligence, which we are using to generate materials from official NA literature.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

The Region usually plans a panel-style PR event held at the venues where we hold our regional convention and at mental health conferences in our region. We encourage participation, if possible, on a panel or with a booth to distribute brochures. We also conduct social media campaigns regularly to raise awareness.

Please provide the URLs for the social media that your region is responsible for:

Currently, in a spirit of cooperation at the national level, we use the same social networks that the Argentine Region has developed, since we understand that in our efforts to serve and maintain a consistent presentation to society, we unify our activities on the networks that are already functioning (Instagram and Facebook). We have developed a website that we use in PR activities to inform the public about Narcotics Anonymous: <https://sites.google.com/na.org.ar/rrpp-na>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, At the regional level, we have held a pre-assembly with the RCMs of the areas and we will hold our Regional Assembly with the CAR themes at the end of March (March 29) so that through our zonal delegates, we can bring the awareness of our region to the CSM**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by GSRs at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, We generally dedicate time during the pre-assembly and the assembly itself to discuss the remaining CAR topics that require raising awareness not only for the WSC but for our region itself.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

The topics that generated the most debate and that were also discussed during the year in Forums and activities at conventions, have been: - Neutral language - Problematic behaviors - Re-inventing and re-imagining service committees

Please describe the most significant challenge your region has faced since WSC 2023.

Distance and the inability to develop NA where we are not yet present is a current challenge (our region encompasses 10 provinces and over 1,000,000 km²). In many cities, there is only one group, and it is far from cities with servers that can support growth. When the Region was formed, there were no groups in two provinces, and today, groups have been established and meetings held in one of them. In the province that still lacks groups, the capital (and most populated) is over 450 km (a 6-hour drive) from the nearest cities with groups and members who can provide support. Coordinating and planning in-person activities is a challenge, and we are planning virtual activities to raise awareness of Narcotics Anonymous through online platforms (providing information about virtual/hybrid groups).

What additional information would you like to share with other conference participants?

We are a new Region formed as a result of the growth of the Argentina Region. The servers currently serving in this new region gained experience serving for several years in the Argentina Region. The main reason for forming this new region has been, and continues to be, to allow NA to grow geographically while carefully managing funds and using them wisely, as well as the time and effort of the servers. Beyond the debates and personalities that sometimes create differences (which we are not immune to), this objective continues to guide our operations month after month. This new Region allows servers to travel shorter distances and spend less time, resulting in a more efficient use of resources. We are also developing NA taking into account the idiosyncrasies and customs of the inhabitants of the different provinces, which allows for consistency in service efforts.

 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **We held workshops on consensus-based decision-making and rules of order.... We put to a regional vote which ones seemed most viable to use and the consensus approach was chosen.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Visits are planned to our most remote communities to bring days of learning and days of unity.
 Describe what kind of planning your region and/or its areas utilize.
The planning we carry out depends on the project that you want to carry out.

We have learned planning directly from our service texts and also from successful projects that we have observed working

In service forums or other service structures, conventions and different events.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Predominantly, applications that generate links to virtual meetings are the most used, with Zoom topping the list, through which links are generated for:**

Service meetings

Server training

Recovery meetings

Miscellaneous.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Public Relations - Links with professionals for the opening of H&I services. Leafleting campaigns in public spaces. Development of IP educational materials. Creation of PI videos, reels, and spots.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **7** How many were virtual events? **4**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 2 server interventions and a specialized OSM worker with the assistance of the full service desk of the region.**

Which method does your community use to reach a conscience on the CAR?

Other tally - The votes of all areas of the region are taken into account; in case of a tie, the delegate has the deciding vote.

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **Yes, All projects and modifications under consideration are made public, and our members discuss those they find most attractive and useful for the fellowship. We then share these opinions in surveys.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Motivation for service and the use of medications, everything related to mental health.

Please describe the most significant challenge your region has faced since WSC 2023.

The same openness of the region and the criteria for acceptance in any service forum.

Otherwise we have grown one step at a time and steadily.

What additional information would you like to share with other conference participants?

We are doing our best to deliver the Narcotics Anonymous message clearly and efficiently to every corner of the communities where we live. We are happy and proud of the work of our H&I panels with fellow inmates in prisons and we are about to expand that service even further.

Facts about: Chesapeake & Potomac

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No
 Describe what kind of planning your region and/or its areas utilize.
None
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We provide each Area a webpage and space on our Regional Google Drive. We have a Regional Phoneline. Our Zoom account is made available for all Area and Regional subcommittees to hold business meetings online. We have Regional 5 Webservants that update the website and BMLT and give Areas the opportunity to have their own Webservant to do those updates as well**
We continue to host monthly "Tech Talks" to train C&P members on how to use the technologies we use to carry the message: Website, Google Drive, Zoom, BMLT,

Facebook page, and Phoneline. Additional trainings are provided to anyone who requests it.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

: Annually, we have one standing event Regional PR attends in Washington, DC called Shatterproof. In the past year, our Area PR subcommittees have hosted at least a dozen PR booths at various venues, including 2 county fairs and various high schools. We make ourselves available for public speaking engagements and have done 10 this year. We host an PR table at our Regional Convention (April 10-12, 2026) and have a PR Workshop on Saturday, 10:30 AM, Room 215 - be there! We participate in our Annual Service Jam and Regional Picnic, offering PR information and training. Our Phoneline training is held 2 or 3 times a year.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, #1 In person about 20 attended with good participation**

#2 Held virtually about 32 attended with excellent participation

#3 To be held hybrid on 28 February 2026

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, Having discussions on Gender Neutral Language and DRT/MAT**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Please describe the most significant challenge your region has faced since WSC 2023.

Lack of Spanish Speaking meeting (we have 3) Seems to be limited demand But very little membership

Some existing groups and some new groups trying to start are facing difficulty in securing (or maintaining) a facility due to lack of insurance coverage. Currently we have an ad hoc committee investigating Regional Insurance coverage.

 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **It works well for groups to participate through their RCMs and to listen to those who oppose them.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, If we have a resource assigned whose main function is to conduct workshops and visit areas depending on the requests, accompanied by the regional delegate, with the topics of discussion for the current cycle
 Describe what kind of planning your region and/or its areas utilize.
Our planning includes a plan that is created at the annual assembly, giving the region guidance on tasks and prioritizing issues that are on the agenda.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Technology such as virtual meetings and AI has brought**

ease to communication and the delivery of reports on fan pages, social media, and websites.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Today our biggest challenge is in public relations, since due to restructuring we haven't been able to form the public relations committee for the last two years, but this year the priority is in that direction: to promote the primary purpose through regional public relations

Please provide the URLs for the social media that your region is responsible for:

<https://nachile.cl/>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **10** How many were virtual events? **5**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 4 workshops by area of the region around 25 servers per workshop days with lunch and MCR participation**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, All information is shared, and time was set aside at the bimonthly meeting for groups to submit questions and contributions.**

Does your region engage in gathering a conscience for CAT material? **Yes**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?
predatory or disruptive behaviors.

Please describe the most significant challenge your region has faced since WSC 2023.

**Renewing trust and creating interest in the participation of groups at the zonal and global service levels
creating unity since we have had quite strong breakdowns in these last cycles**

What additional information would you like to share with other conference participants?

Chile is present again at the World Services Conference after a 4-cycle absence due to local problems and a pandemic that divided our region. We are happy to be back in unity (Primary Purpose).

Facts about: COLOMBIA REGION

Name of Regional Delegate **GIOVANNI ARANGO MORENO**

 Which of these workgroups/committees are new since WSC 2023?
FD/Outreach
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works: **We need to train new servers through more didactic workshops and materials that are easier for current and new servers to manage.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We have a working group, and it is the one that has been in charge of opening new groups. This year we worked very hard with members who are very far away and there is no presence of NA. We hold weekly virtual workshops on steps, traditions and concepts.
 Describe what kind of planning your region and/or its areas utilize.

The RSC maintains contact with the areas, and these meet monthly. The regional subcommittee coordinators meet with the area subcommittees, and all service activities are planned, including public relations, literature, events, and more.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **WE HAVE HAD GREAT SUCCESS, WITH VIRTUAL H&I PANELS AND OPENING OF GROUPS IN DISTANT AREAS, INTEGRATING NEW MEMBERS THROUGH WEEKLY MEETINGS WHERE WORKSHOPS ON SERVICE STRUCTURE AND THE PROGRAM ITSELF ARE TAUGHT.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

There are several efforts being made in our region:

When we are going to do H&I in remote prisons

The invitation of professionals to our PR panels

Approaches to national and regional health secretariats

Approaches to INPEC (Colombian Prison Institute)

Public information to community leaders, police, army, professionals such as psychologists, psychiatrists and social workers

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, SOCIALIZATION OF THE SLIDES RELATED TO THE CAR**

VIRTUAL SECTION WITH THE GSRs

FACE-TO-FACE WORKSHOP AT THE SERVICE CONFERENCE

AVERAGE NUMBER OF ATTENDEES 45

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by GSRs at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, The literature section is discussed, taking into account the topics of new and current literature and the topics of discussion.**

Does your region engage in gathering a conscience for CAT material? **Yes, We only share it using the slides sent by World Services. If possible, we will hold a workshop.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

PROBLEMATIC AND PREDATORY BEHAVIORS

REIMAGINE AND REVITALIZE SERVICE COMMITTEES

Please describe the most significant challenge your region has faced since WSC 2023.

The biggest challenge has been the shift to virtual meetings: ensuring that they maintain their traditions, have a service structure, and align with the region's guidelines and the current virtual GPI (Global Partnership Initiative).

What additional information would you like to share with other conference participants?

We, the other participants of the conference, would like to inform you that after more than thirty years, we have managed to host the Ordinary Meeting of the FZLA and the Clana in our region, which will take place in 2027 in the city of Bogota, Colombia.

Facts about: Colorado

 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Growing**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **6**
 Are any of these meetings hybrid? **yes** How many? **2**
 How many times a year does your RSC meet virtually? **4**
 What committees or workgroups do you have at your RSC?
Conventions/Events H&I PR/PI Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **It works well most of the time. There are times it's difficult to come to consensus. At those times we usually either withdraw the proposal or table it until we have more information. It's definitely information driven which is a good thing. Makes us pay more attention and have more pivotal details.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Our Regional and Area's outreach is primarily through their respective PR/PI/H&I Chairs and their committees. This has been a busy year. Here are a few outreach efforts they contact regularly to distribute literature, meet with admins, and carry the message of Narcotics Anonymous to suffering addicts:
 * **The Unhoused Community - the admin offices, the apartments, shelters, and clinics.**
 * **The Coalition for Substance Abuse - the mayor's office, the Governor's office, many treatment centers and recovery houses**

*** Rural Communities - Our Regional and Area PR/PI/H&I committees make monthly trips around the region to attend and support groups in the outline portion of the state. See below for a broader scope of some of the PR projects**

Describe what kind of planning your region and/or its areas utilize.

Our PR and H&I Regional committees meet regularly with the Area's PR/H&I chairs using the Strategic Plan to best map out how to reach addicts on the streets, in shelters, in isolation, and in correctional facilities. They reach out to community members on a regular basis.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We have had great success utilizing technology in our region. During the pandemic we held several virtual meetings and were able to bring speaker meetings into several correctional facilities simultaneously. Each facility only saw the speaker and the chairperson. They did not see each other. This was very beneficial when speaking with the administration about virtual meetings.**

We have a tech program called Tech Soup. Under this program we have 9 individual Zoom accounts and numerous regional emails. Each Area has their own Zoom account along with each regional subcommittees and events such as conventions, retreats, and campouts. This allows each entity to oversee their individual Zoom accounts without overlapping with other committee's virtual meetings.

Our region along with most of our areas and groups use Venmo and Zelle to transfer funds and accept donations.

We have several all virtual homegroups that meet weekly and daily. We have a homegroup that meets twice a day with multiple trusted servants allowing all members to be in the middle of the boat and tethered to the fellowship. These positions are key tag persons (7), greeters (14), chairs (14), cochairs (14), literature person, treasurer, secretary, attendance verification person, email person, speaker seeker, virtual field trip chair, activities chairs (2), tech support (3). The lit chair mails out Basic Texts to newcomer and key tags/medallions to recognize clean time. Each one of these positions have various suggested clean time which allows for all addicts to have a spot!

Our region, areas, and groups utilize Facebook, Instagram, and WhatsApp for communication and announcements.

****we do not endorse any of the company's names or entities listed above**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Following the WCNA "The Power of Love" and in collaboration with other regions, the Colorado Region Public Relations Committee expanded their efforts of taking virtual NA meetings into prisons around the World. The first of these meetings, The Freedom of Choice, was developed out of the Ohio Region and then Colorado's PR Committee created Miraculous Mondays. Both meetings occur twice a month on opposite weeks. Miraculous Monday included 120 incarcerated members from 12 correctional facilities with 46 yards in Arizona able to watch via CCTV. Members from Turkey, Portugal,

Angola, India, and Canada along with 7 Regions from the United States. This meeting is comprised of inmates, prison administrators, World NA PR members, and members of Narcotics Anonymous. These services are in collaboration with other regions such as Ohio and Arizona.

The PR Committee provides a "Professionals Day" during the annual convention, CRCNA, which includes administrators from the unhoused coalition, correctional facilities, the mayor of Denver, the Attorney General, and the Governor. This presentation is hybrid and invites everyone to join.

Please contact PRChair@nacolorado.org for more information

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: 3 How many were virtual events? 2

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Our delegate team streamlined the CAR workshops into a few separate meetings with our Areas. We started the year with attending all 5 Areas with an average attendance of about 35. Our AD, Mike H, created a 2 page worksheet on how to tackle the information in the CAR along with the motions, surveys, and discussion topics.**

We presented this to the Areas to get them started with the CAR. We then asked if any Areas would like a follow up workshop. We presented at 2 of the 5 Areas. We then did a regional CAR workshop with about 11 in attendance. Even though the attendance was minimal, there were group representatives from each area. We will close out this cycle with a Regional Assembly in April.

With that said, we've launched the tally sheet with the survey questions and discussion topics to coincide with the online survey on na.org/survey. We would like to have an idea of what our members are most interested in from the survey and how to carry their voice with the discussion questions. We've had some amazing discussions!

We've informed our members to go to na.org/survey to submit the tally sheet to the WSO and also to please complete our regional tally.

Once the amendments are in, we will launch the motions tally sheet.

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, We begin our presentations with the history of how the Strategic Plan was developed and how our region participated in it throughout the past several years.**

We discuss the surveys choices and how they are instrumental in streamlining the discussion topics

Does your region engage in gathering a conscience for CAT material? **Yes, There are many members in our region who are interested in the CAT and want to be part of this process. We absolutely encourage anyone to please let us know how we can best carry their voice. We have a tally sheet with the CAT motions.**

Along with that, our region usually gives us a vote of confidence to take to the WSC. We gather as much input from our members to make a logical decision.

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Gender Neutral Language. This is in the forefront of our members in Colorado. However, Disruptive and Predatory Behavior along with DRT/MAT follow very close. We've presented several workshops on the latter two topics and have had lengthy conversations with members about GNL.

Please describe the most significant challenge your region has faced since WSC 2023.

One of the most significant challenges our region has experienced as a whole is low attendance at local events and during area meetings. Our region remains strong and is able to fill positions. We are also financially stable, however not as we were prior to the pandemic.

Another challenge we have faced locally - meetings, groups, and even area - are members introducing themselves as 'and a' or using other fellowships' language. It seems more prevalent than in past years and we believe it have to do with coming out of the pandemic where meeting structure (for lack of a better word) might have been lacking. Some members seem to have several home groups and attend other fellowships. We are gradually guiding our newer members of the importance of carrying the message of Narcotics Anonymous and having a homegroup where members get to know us. Also, the importance of having a solid, fun, and encouraging support system.

What additional information would you like to share with other conference participants?

Our Region and Zone are open to collaborate with others on a regular basis to discuss best practice and the ability to reach addicts from around the world. We have a great team of folks doing tons of service in our region and would love to reach out to other regions for input and suggestions for the greater good on our Fellowship!

 Does your RSC meeting use CBDM to reach decisions? **No**
 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works:

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We currently have a Regional FD committee that is available to areas upon request.
They are working on a regional survey, regional learning days, service trainings.
 Describe what kind of planning your region and/or its areas utilize.
Financial budgets.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them.
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.
PR has run billboard advertisements throughout the state (region), posters, presentations, phonenumber, media projects.
 Please provide the URLs for the social media that your region is responsible for:
www.facebook.com/CTNAORG

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We have 5 scheduled CAR workshops. At the time of report only 2 have taken place, both had approximately 30 people.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per member

Does your region discuss the parts of the CAR not related to motions? **Yes, Some of the information in the CAR is wrapped in to the CAR Workshops.**

Does your region engage in gathering a conscience for CAT material?**No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

DRT/MAT IDT

Please describe the most significant challenge your region has faced since WSC 2023.

The most significant challenge has been mentorship. There is a lack of experienced members to mentor newer members on service, navigating issues, traditions, etc.

Does your RSC meeting use CBDM to reach decisions? **Yes**

Do any of your areas use CBDM to reach decisions? **Yes**

Comments about how that works: **IMPORTANT CBDM PROCESSES IN COSTA RICA**

1. Each participant shall have the right to one vote. No member may speak more than once on a motion unless the other members who wish to speak have already had the opportunity to do so.

2. CONFERENCE FACILITATOR:

The Facilitator has the task of helping the Conference to reach a consensus. To achieve this, we must know that: He ensures everyone understands the process and the topic to be discussed. He will encourage everyone's participation, even the quietest. He will listen to identify common ideas and may suggest them. He will repeat and categorize ideas to ensure understanding. He will suggest ways to combine ideas for consensus. He will manage time and focus the conversation towards decisions. He will keep the agenda in order. If someone is out of order, we must address the issue. The facilitator will ensure that everyone understands the decisions and actions. The facilitator may change the agenda according to

what needs to be prioritized. Members will have a maximum speaking time of two minutes each time the facilitator gives them the floor. The facilitator may extend this limit when they believe such a measure is justified. Any member may appeal a decision of the facilitator. If so, the discussion is interrupted: The appealing member has 2 minutes to present their argument. The facilitator has 2 minutes to present their argument. A simple majority vote (half + 1) is taken, and the conference continues.

5. For the Conference, a quorum (the number of voting members who must be present to discuss a matter) will be taken before each matter to be discussed.

6. Every motion must be seconded. Once seconded, a motion belongs to the Conference. If no one seconds a motion, it is not even discussed; the motion is withdrawn, and the meeting moves on to the next motion.

7. To pass a motion, a two-thirds majority of those present is required.

8. When there is consensus on a topic in an opinion poll, the Conference may decide whether to adopt it as a decision. Debate takes place only if necessary. The opinion poll could be conducted several times on the same issue.

9. Once a motion belongs to the Conference, debate proceeds only if necessary. If a member proposes blocking it, the Facilitator will give them two minutes to argue why the motion should be blocked. The Facilitator may ask the member to focus on why the motion should be blocked, and if they believe the conference needs further information, they may ask trusted staff to provide it so that the conference clearly understands the issue. A vote is then taken to block the motion by a simple majority (half + 1).

10. Once a motion belongs to the Conference, amendments to the main motion may be presented. Amendments must be accepted by the service body that presented the motion. Members may speak about a motion or amendment only if the facilitator gives them the floor. When a motion is presented, the facilitator may give the floor to any participant who proposes a modification, an amendment, or makes a suggestion to the Conference. Once the debate on a motion has concluded, the Conference decides the matter by vote. If the motion receives two-thirds support in the Conference, the following rules apply: • Once all responses have been tallied, the facilitator declares that the motion is approved by consensus. Participants may choose to be present but not participate in the vote. This means they will not be counted in the total votes for that motion. In other words, they leave the quorum. This differs from abstaining. An abstention counts as a vote in support of the majority.

13. Every motion passed will take effect at the close of the Conference, unless otherwise specified in the motion.

14. If at any time during the conference a participant has a personal emergency or a problem requiring the facilitator's attention, the participant may be attended to, and the facilitator will determine how to address the problem. **USEFUL CONCEPTS:** Poll: A poll is a tool for gauging the Conference's position on a particular issue. It is an informal survey. Often, motions or amendments are polled more than once during the debate.

Voting:

Voting takes place when the conference makes a decision on a topic.

Opinion polls can give an idea of the Conference's position on a specific topic and can be used in various ways, in addition to those described above.

Debate for the process of approving the previous minutes and approving or revising the work plans.

Approval of the minutes:

The Facilitator places the topic to be discussed on the conference floor. Regarding the approval of the previous minutes, the question is asked if anyone disagrees with their approval. If so, the request for a change is heard. If the facilitator believes the discussion needs further information, a discussion period is opened to reach an agreement. Once this period is over, consensus is sought through voting. The minutes are approved by 2/3.

Approval of plans, review of progress and accountability of a work plan:

1. The Facilitator places the plan to be discussed on the conference floor.

1. Regarding the review of plans:

a. The coordinator of each RSCSubcommittee and Delegates will present to the conference to expand on their work plan or progress report, not to read the report.

b. A space will be opened for participants to ask specific questions (not comments) seeking to clarify the information contained in their work plans.

c. Once the doubts have been clarified, a space will be opened for generating agreements, direction in the work plans, and budget changes. Any member may call me to account; the consensus-based decision-making process encourages us to reach an agreement on the purpose through respectful discussion.

d. Approval of a plan requires 2/3.

The debate for the motion decision process

1. The motion is presented

2. Facilitator asks: Who seconds the motion?

3. The person who presented the motion is given time to expand on the information for the Conference

4. If someone believes the motion should be blocked, the facilitator may give them 2 minutes to argue for the block. The server who proposed the motion may, if they wish, use 2 minutes to argue why it is important to approve the motion. The debate is stopped and the block is voted on.

5. If the conference decides to continue, the facilitator asks the conference if there are any amendments? Amendments must be accepted by the server who proposed the motion. The Facilitator may, during this process, encourage discussion so that the Conference can reach an agreement, refining the motion without losing its core message.

6. Once the main motion (amended or not) has been finalized and clarified, an opinion poll is conducted to ascertain the Conference's position. If the poll reaches a consensus, the Conference may consider the poll as a final decision without further debate.

7. If the poll does not reach a consensus, further discussion and information are required. Two servers opposing the motion and two supporting it are heard. Virtual sessions should be considered on equal footing with in-person sessions.
 8. After hearing the presented positions, the Conference will determine if there is consensus and if the discussion has changed support for the motion. The Facilitator may consider whether to conduct a second opinion poll or proceed to a vote.
 9. If consensus is reached, the Facilitator will announce it. If there is no consensus, the debate will continue until a decision is reached.
- The debate for the candidate selection process at a conference or extraordinary virtual meeting.
1. Quorum is raised. Participants must have their cameras on.
 2. The candidacy is read. That is; The complete statement of their candidacy is read, including their vision of service.
 3. The candidate is allowed to introduce themselves (2 minutes)
 4. Two participants with voice and vote who are in favor of the candidacy and two participants with voice and vote who disagree with the candidacy are given the floor (2 MINUTES per person so they can argue their position). Comments for or against a candidate should not be strictly about service.
 5. If questions were asked of the candidate, they are allowed to answer
 6. The election proceeds. ALL SERVERS WITH VIRTUAL VOTING MUST HAVE THEIR CAMERAS OPEN EACH TIME AN ELECTION OR COUNT IS HELD. FOR THE SAKE OF ORDER
 7. A question is asked of those who disagree with the candidacy. (In this case, those who disagree raise their virtual hand) the count is carried out
 8. If 2/3 are in favor, the candidate is elected. IF 2/3 IS NOT REACHED, AS A LAST RESORT, THE SERVER IS ELECTED BY SIMPLE MAJORITY (HALF + 1). Remember that in NA we are not against anyone, we simply agree or disagree. It is much more spiritual. Useful resources that we cannot forget. During the discussion of a motion or amendment, polls can be taken to gauge the opinion of the conference and see if the debate is progressing. Before voting on an item, participants will be asked if they are prepared to make a decision. Those who need more information about the decision or have doubts about the process will have this opportunity to ask those urgent questions. The facilitators may decide at any time to end the debate and proceed to the final vote on the issue under consideration. If any of the amendments are approved, the main motion will be changed accordingly, and once the amendments have been decided, the conference will use the same debate process to discuss and make a decision regarding the main motion. It will always remain possible to request that a motion that does not reach consensus be referred to the next conference for study, refinement, or to use an amendment to improve a motion.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?

Yes, Yes, in our region we carry out long-term fellowship development activities. These activities aim to support and accompany groups and members, providing them with tools and resources that foster their growth and development. Through planning, commitment, and the creation of strategies based on feedback from the needs of the groups, we seek to strengthen regional awareness of our primary purpose. Among the concrete actions we undertake are: Supporting groups or GSFs at different stages of development through specific tools and resources; organizing and supporting regional conferences; developing thematic workshops that attract members to service and contribute to the growth of the region; coordinating global celebrations such as World Unity Day, World Service Day, and World Sponsorship Day, with hybrid support alongside the Technology Committee; and developing integration and collaboration strategies with other regional service committees. In the Costa Rica Region, Specifically, strategies such as the following are implemented: Forming a work team committed to the mission and vision of the DC Committee; Delegating functions and organizing delivery times for workshops and activities; Managing resources to attract more volunteers; Maintaining effective communication with GSFs and other committees; Prioritizing the allocation of human resources according to geographical and group needs; Generating virtual workshops as a tool for regional growth; Thanks to these actions, the continuous development of fellowship and the strengthening of ties between members and groups in our region are ensured.

Describe what kind of planning your region and/or its areas utilize.

We have a structure based on strategic planning. Annually, through our GPI, we hold a planning week where all members of the region are invited to contribute ideas to be incorporated into the annual work plans. Measurable objectives are set based on needs. Since 2023, we have been trying to adopt strategic planning using the basic planning guide and all the information obtained from SMNA and the bimonthly meetings with the RDs.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them.

Incorporating virtual elements into our service conferences has increased group participation in regional decisions. The use of virtual surveys has been a very useful tool for decision-making and information gathering.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

My region hasn't had a public relations committee throughout 2025, and it was only activated two months ago. They are currently working on a work plan.

Please provide the URLs for the social media that your region is responsible for:

www.narcoticosanonimoscr.org

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, virtual workshops (10 groups of 65)**

1 face-to-face workshop (35 groups of 65)

Which method does your community use to reach a conscience on the CAR?

Other - One vote per group, one vote per GSF, and one RSC vote

Does your region discuss the parts of the CAR not related to motions? **Yes, All information related to the WSC is shared with the groups via service chats.**

Virtual and in-person workshops are held for GSRs.

Does your region engage in gathering a conscience for CAT material? ...**Yes, The CAT is shared with the region. A virtual workshop is held.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

The DT of disruptive and predatory behaviors, MAT and Neutral Language.

Please describe the most significant challenge your region has faced since WSC 2023.

Incomplete service meetings in the groups.

Lack of servers in the structure.

What additional information would you like to share with other conference participants?

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, For presentations and workshops, or when individual groups/committee e.g. H&I request help, guidance, or a presentation, we provide support whenever possible. If needed, we reach out to other regions within our zone or seek help from FD and EDM members.
 Describe what kind of planning your region and/or its areas utilize.
Each service committee organises and plans on their own, committees meet once a month on regional meeting where they cooperate their efforts if needed.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Using BMLT for meeting lists, utilizing AI in translation**

efforts, using WhatsApp communities to better manage WhatsApp groups, uploading local speaker podcasts online.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

In our region, PI/PR efforts are developing more slowly, but we are definitely growing. Prisons and other institutions have shown strong interest in NA presentations. However, we do not currently have enough trusted servants in our region.

In August, we provided online PR training for members in our region, and we regularly conduct H&I training sessions, where we also cover PR/PI topics to some extent. We have experience with PR activities at festivals and public events, and we regularly deliver PR presentations at our regional conventions in Prague and Bratislava.

Please provide the URLs for the social media that your region is responsible for:

 Which of these workgroups/committees are new since WSC 2023?
PR/PI
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **It works really well in those Areas which use CBDM. In the other Areas we have a lot of discussions - some of the GSR's want CBDM and some don't.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, It's not in the Region, but in one Area, and it started up quite recently
 Describe what kind of planning your region and/or its areas utilize.
Our experience with new initiatives and technology is that we have a fully functioning webshop connected to our website. The webshop is our own and was developed by the Internet Committee.
In 2025, the Internet Committee launched an app where all speaks, events, meetings, etc., are available.

Denmark

WSC 2026 Regional Reports

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Online/Hybrid meetings in Areas and our Region, it works very well**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We are working on establishing a Social Media Committee. At the time of writing, we are awaiting approval of our guidelines, etc.

We are working on obtaining permission to set up a PR booth at Folkemødet this summer on Bornholm. (A particular Island in Denmark)

Folkemødet 2026 on Bornholm will take place in Allinge in June. Denmark's democracy festival brings together politicians, organizations, and citizens for debates, speeches, and dialogue under the open sky.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **4** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 1 workshop approx 50 members**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by individual members at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, We will discuss it at the next RSC and on workshops**

Does your region engage in gathering a conscience for CAT material? **...Yes, We will discuss it at the next RSC and on workshops**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Literature printing and distribution, lack of service, SOME efforts, predatory behaviour awareness, large interest in feedback from RD/RDS regarding other regions experiences,

Please describe the most significant challenge your region has faced since WSC 2023.

We often need members to do service! We have challenges to establish FD in our Region, we just started FD Committee in one region. Online meeting attending the service structure, predatory behavior, equality in business meetings.

What additional information would you like to share with other conference participants?

We welcome a lot of New commers, many of them are facilitated by treatment centers and many of them are really young.

We have a big issue with the literature printing - the new "Guiding Principles we have received from NAWS is so bad that we have talked about that we can't accept that. And about our "Living clean" which start falling apart when used. And a big concern around when the Danish "A principle a day" shall be printed - the English version is not ok. We will have the discussion at our next RSC meeting and return.

Facts about: Eastern New York Region

Name of Regional Delegate **n/a**
 Have you attended an in-person WSC before? How many?
 Did you attend the 2023 WSC? Interim 2025 WSC?
 Name of Alternate Delegate **Olga Rivera**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the virtual 2023 or interim 2025 WSC? **No**
 How many areas are in the region? **6**
 Are any of these areas composed entirely of virtual groups? **No** How many?
 How many meetings take place each week in the region? **265**
 How many are in person? **180** How many are virtual? **85** How many are hybrid? **25**

 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works:

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We have an outreach committee that creates and conducts workshops to form areas and groups, and also helps to strengthen existing groups.
 Describe what kind of planning your region and/or its areas utilize.
Through group awareness, we rely on our GPI, and the structuring and planning is done by areas and regions. In this case, the region distributes resources so that the different subcommittees can carry out their services. Literature is sold, and regional conventions are the income we maintain.

Ecuador

WSC 2026 Regional Reports

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We're having Zoom meetings and it's also being used for some workshops.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Some outreach has been made to public entities, where literature has been sold and institutional groups open to all addicts have been formed. Various events have been held in some areas, and a magazine is being produced with information about the region and everything that is done each quarter.

 Does your RSC meeting use CBDM to reach decisions? **No**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Area use CBDM when they follow the GSF service structure, we have to reach at least 70% to consider a topic approved**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, FD committee organizes workshops and share in days and conventions and festivals making ws about business meetings, service structure, strong groups, ...
They also take part in the organizing of the planning day we have each year.
 Describe what kind of planning your region and/or its areas utilize.
Planning Steps
1. Environmental scanning and Data Analysis

A planning workgroup collected data from groups through tailored surveys made of 12 questions, and in an era of too much electronic communication we have adopted direct communication as a principle in our efforts. Directly reaching out to RCMs and GSR to create momentum and achieve the needed collective support for this survey.

Data was first analyzed manually, then harnessing the power of technology we have used AI to analyze data and identify key challenges, such as:

- Lack of sponsors (35.5%).
- Low meeting attendance (32.7%).
- Weak participation in service committees (25.3%).

2. Defining the Strategic Direction

Inspired by the World Board IDT methodology, the Egypt region has tailored 4 main topics to work as a general guidance on the dialogs we're aiming to spark in our local fellowship. This topics will then be used by regional subcommittees to guide their creativity in tackling these issues

Based on the findings, four main campaigns were selected:

"The Ties That Binds Us": Enhancing meeting participation quality by focusing on shared principles.

"The Distances Between Us": Addressing geographical challenges through direct communication, digital solutions and field initiatives.

"Mentorship in Our Service": Developing new leaders through dedicated mentorship programs.

"Sponsorship is the Cornerstone": Promoting sponsorship culture as a tool for recovery and service.

3. Annual Planning Meeting

Panel Meetings Model:

All subcommittee chairs (Public Relations, Support, Activities, Hospitals, Translation) gathered on one stage to discuss their plans collectively. This has proved to convey an image of unity and collaboration between different service entities.

Regional Service Committee members (including Area Service Committee reps and GSRs) discussed how to adopt the regional vision at the local level.

4. Structural changes

Region Service Committee:

- Annual Planning Service Board

Service Entity Type:

A service board derived from regional service committee administrators, represented regionally by the Vice Chair. Submits quarterly progress reports on the action plan and

bi-monthly reports during survey/planning phases. Each outgoing board hands over a ratified plan to the incoming board, which assumes responsibility for implementation and conducting new surveys.

Practices:

- ****Term:** 2 years**
- **Conducts needs assessments, data analysis, and identifies regional priorities**
- **Collaborates with committees to align their plans with regional direction**
- **Organizes and facilitates Planning Day**
- **Works with RSC members to develop group conscience on regional needs**
- **Produces quarterly implementation reports**
- **Decisions require unanimous consent**
- **Maintains the Regional Direction Document in the Data Center**

Roles:

- **Institutionalize planning practices**
- **Analysis and coordination**
- **Strengthen unity among groups/committees**
- **Progress monitoring**

Principles:

- **Accountability**
- **Neutrality**
- **Effective communication**
- **Unity**

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We re-innovated a new website that have all the literature or links to them from na.org, it also gives overview to public about the fellowship and the region, in addition, it provides meetings' schedule, locations and contact information to GSRs and committees.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

**PR handle the website content, the FB and TiKTOK profiles and pages,
PR attend our conventions and festives, and have booth to meet professional and families, also make WS and reports in the conventions,
PR communicate with professional and publics to inform them about the program, and maintain relations with them.**

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, RD and Alt RD held a WS about the CAR and explained the processes, the motions, and concept of the CAR and CAT, and prepared the region for voting on the motions**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per Area

Does your region discuss the parts of the CAR not related to motions? **Yes, We explained the surveys and their importance in the coming period discussions, and asked the members, areas, and service bodies to participate in the surveys.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

One of the challenges we faced recently was taking on the responsibility of chairing the Planning Committee. Honestly, many of the people we were working with were saying, "There's nothing new-what's really going to happen?" But in truth, as we met with the committee, we witnessed a spirit of service that we hadn't felt before. The group was very cooperative, committed to attending, and full of ideas.

We met more than 36 times, and everyone had a role and was responsible for something. We all shared one goal: to make this day successful and to come out with real results that would serve the groups. One of the challenges we faced was communication with the groups-how to learn about their needs and challenges. We found that direct communication was the solution.

We were able to connect with members of the Regional Service Committee, who in turn helped facilitate communication with the forums. We divided ourselves among the forums, explained what we were looking for, started attending group business meetings, and worked with them to complete the survey. Through this, we reached real challenges coming from the groups-challenges that the committees can actually work on.

We also met with the committees, who were very cooperative as well. We presented the challenges to them, and each committee began looking at how to address these issues and started putting plans in place. From this working group came the idea of the service councils (the Planning Council, the Information Center, and the Human Resources Council). The Planning Council has already begun its work after its guidelines were approved.

Please describe the most significant challenge your region has faced since WSC 2023.

The lack of members willing to be inservice since lock down during covid, but we started making speakers in vatiuous events about service, sponsors started talking and encouraging the sponsees to be in service, and FD and PR made WSs about service, so now we have complete structure in all service bodies.

What additional information would you like to share with other conference participants?

- **Regional Data Center**

Service Entity Type:

A service board derived from RSC administrators, represented regionally by the RSC Secretary. Submits quarterly reports and transfers the data center to succeeding boards.

Purpose:

The authoritative regional information repository, accessible via regional service emails.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 2 workshops**

in first there was 13 GSR's

in second there was approximately 30 GSR's

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by GSRs at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, The RD team reports to the RSC and the fellowship, highlighting the current status of affairs so that our members stay up to date with what is happening in our region and in NA as a whole. For example, when financial instability is pointed out in the CAR,**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

We think it was the European Convention ECCNA39 held in Helsinki 2024.

Please describe the most significant challenge your region has faced since WSC 2023.

Members identifying as NA-members in social media.

What additional information would you like to share with other conference participants?

We have made positive progress in decreasing our financial dependence on literature margins after adopting a recurring monthly donations campaign within our region.

- **Fully voluntary**
- **Open only to members, groups, and service committees**
- **A separate bank account was established to collect the donations**
- **The initiative was approved through GSR consensus at the Regional Service**

Conference

- **The RSC provides follow-up, reporting, and has committed to decreasing literature margins as the amount of monthly donations increases**
- **At the moment, we collect over €500 per month**
- **We reduced the margin on the Step Working Guides to zero, and we plan to decrease the margin on another book later this year**

Facts about: Florida

 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **The regional members continue to improve over time we learn. RCMs learn the purpose of CBDM and how to translate Area motions into proposals that are regional ready. Most proposals are introduced during the Human Resource Panel Guide meeting held on Saturday evenings where proposal/ motions are introduced and members help to make the proposals regional ready.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The Florida Region Fellowship Development Group encompasses Public Relations, Corrections, Hospitals and Institutions, and Information Technology resource coordinators. The FD group functions individually with chairpersons and leaders of our Areas addressing their needs and generally being a resource to them. When requested, the resources coordinators are funded to travel to events and the Areas to assist them in

any requested needs. Fellowship Development also chooses past/present members as mentors to assist nearby communities in their efforts. Also, FD meets on the Saturday of the RSC weekend and holds an Area Concerns session where all members of the region have a voice and bring up topics of concern from their Areas. The members share their experiences on the given topic, allowing the collective ESH to be shared.

Describe what kind of planning your region and/or its areas utilize.

The administrative body (admin) meets each month virtually to review any past or present concerns. We hold a yearly strategic planning session to assess and take an inventory of the administrative body's assets and liabilities.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We believe simplicity is key to communications and understanding. Our information is cloud-based through Google Drive and emails. We use WhatsApp to communicate with our island nations. We vote and tally our votes from Groups use Google Forms as we will for the upcoming WSC.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Our PR resource coordinators and the local Area PR subcommittees participate in annual professional events regularly and as requested by Areas

Please provide the URLs for the social media that your region is responsible for:

We only use a Facebook page at the regional level to communicate events and ideas; however, it's not a public page. We do have Areas doing PSAs on TikTok and Facebook.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **12** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, The RD/AD team held 6 live/ hybrid workshops and 2 completely virtual workshops. We presented 8 workshops total, with an average of 20 people in attendance.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Gender Neutral Language, Disruptive/ Predatory Behavior, Group Insurance, Non-Profit 501c3

Please describe the most significant challenge your region has faced since WSC 2023.

Regional Donations and trust of elected. Members wanting to micro-manage

What additional information would you like to share with other conference participants?

We have decided to let go of the Florida Service Symposium. Given that so many Zones are doing them, it's become a big expense for one region to take on. It was a great experience to have been part of the planning process for the last 3. Also, I would like to thank everyone for the opportunity to serve with you all. Ramon R, RD, Florida Region

 Comments about how that works: **The only area and the only committee using CBDM to reach decisions say that the discussions are much more serene and spiritual. But the others still are afraid of changing their way of reaching decisions.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No, We only have a "Helping isolated groups committee" wich is linking isolated meetings, providing literature and organizing carpooling to visit these groups.
 Describe what kind of planning your region and/or its areas utilize.
None

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **France is a very centralized region, lots of groups are in Paris, The hybridation of the regional service meetings and some area's meeting helps for decentralizing and involving trusted servants out of Paris. In the same way, this year, the Parisian areas service workshop was hybrid in order to open it to more members.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

More than twenty Public Information (PI) presentations delivered to health and social care professionals as well as training sessions for future professionals in the field of addiction.

Public Information interventions with the Ministry of Health, MILDECA (health government institution), senators.

Attendance at conferences organized by Fédération Addiction and Alcoholics Anonymous.

Several interviews given to journalists and on a YouTube channel.

Coordination with H&I and the Helpline to welcome professionals during our regional convention.

Facilitating connections between professionals and local NA groups with trained PI trusted servants.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 2 online workshops, more or less 10 persons at the ZD one for which we provide a translation channel. 20 members for the second one, organized by us and the Belgium delegate for the French speaking area. We'll propose and third one in March.**

It's quite a challenge to obtain interested on these issues in our region.

Which method does your community use to reach a conscience on the CAR?

Delegate decisions to the RD/AD

Does your region discuss the parts of the CAR not related to motions? **Yes, There is a great Interest in the issue discussion topics with simultaneous motions on the topics at the regional level.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

**Creation of both LGBTQIA+ Committee and Anti Predatory behavior committee
And Hybridity of Regional meeting, Safety in online meetings.**

Please describe the most significant challenge your region has faced since WSC 2023.

We've had heavy issues on Predatory behaviors; We first created a sub-committee for addressing predatory behavior in NA in march 22, which became a committee in march 25. The mains issues centered on how to deal with the victims reports, how to protect them. And the question of whether it's appropriate to breach the anonymity of members alleged to have engaged in predatory behavior, in order to ensure the safety of all members at meetings.

What additional information would you like to share with other conference participants?

Facts about: Freestate Region

Name of Regional Delegate **Randy Kirzner**
 Have you attended an in-person WSC before? How many? **Yes, 3**
 Did you attend the 2023 WSC? **No** Interim 2025 WSC? **Yes**

 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **No**
 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works: **We believe it is a very spiritual way of making decisions, but our region feels very comfortable making decisions in a parliamentary style because that is how we have always done it.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Our outreach subcommittee has organized caravans to the most remote groups in our region and invites the entire fellowship in the region. It has also fostered much unity among the various newly formed groups. It has held camps with several meetings on different topics. It conducts workshops on various topics before the regional meetings.
 Describe what kind of planning your region and/or its areas utilize.

Sometimes the servers present proposals and ask for brainstorming input. Other times the servers already have a plan and request approval to implement it.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We believe the virtual H&I panel we created helped the inmates who were receiving the service. This service is currently paused.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

For approximately 15 years we have received pre-released individuals from the state penitentiary, and they request an attendance stamp, which all our groups throughout the region possess. The Casa del Migrante also sends people to the groups, through this stamp; this is in Tijuana, BC. The Secretariat of Integral Family Development has been sending family members with addiction problems for a long time. We have a good relationship with these institutions.

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Please describe the most significant challenge your region has faced since WSC 2023.

All announcements regarding the decision on where the next World Convention will take place, as Germany was a possible destination

What additional information would you like to share with other conference participants?

"The train has left the station"

Thats what a friend who closely observed the decision to choose Dublin said to me

What had happened?

After Washington had incurred a loss of arund one million, our decision makers were schocked and completely disillusioned.

Many concluded that the WCNA should no longer take place, as the train had set off for Washington had derailed financially.

A terribel accident - seemingly inevitable

8.000 people to fiew !

Inevitable ? The derailment took place with the closing of WCNA.

But how about a call for help to the fellowship at the closing meeting before the baskets were passed around. Asking for help? Something like: "We missjudged this, this train will derailed with the closure of this meeting. Please,please help us avert this when the seventh basket is passed around for the last time"

...asking for help, a spiritual principle that requires courage but also a clear view.

Where is the journey headed?

Now the train has left the station again, and although we know that there will be no financial derailment for NAWS, we know that the Convention Centre in Dublin will not be a great WCNA, especially from the participants point of view

With the conclusion of the WSC, there are still 2 years and 5 months until Labor Day 2028 in

the US. (Traditionell WCNA weekend)

If we can muster the courage to overcome our lethargy and the "we'll do it right next time" attitude and admit to ourselves that a change is needed, we have the chance to experience a WCNA that lives up to its name.

Facts about: Greater Illinois

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We have no regional committee working as a regular service structure - subcommittee of outreach (Publicity/Communications). Geographic.
 Describe what kind of planning your region and/or its areas utilize.
Area planning tool, new service system, guide for local services, public relations manual and other periodicals.
Through a project developed in 2009 for 10 years, renewed for another 10 years with a budget proposal and divided into 3 phases of execution without a deadline, based on the achievement of goals ranging from the inventory of groups to the geographical boundaries of the ASCs and infrastructure of the region.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Região Grande São Paulo successfully implemented the Journey Continues Podcast, using streaming platforms to expand the scope of our message and strengthen unity. This initiative has transformed itself into a powerful tool for public information and support for members, allowing the message of recovery to be available 24 hours a day in diverse formats. 90.2 mil views and 6,3 mil hours of publication. Our audience covers listeners in 5 countries.**

Audio Platforms (Spotify/Deezer) we reach addicts in 21 countries.

Furthermore, we have an accessibility initiative with the Santo Amaro group in conjunction with the FD committee of FZB/ABNA where we hold virtual and hybrid meetings with emphasis on people with additional auditory needs (deaf addicts) - Current phase - Virtual and hybrid meetings so that deaf addicts in Brazil, still in small numbers, can share together the NA way. People from other countries of Latin America, United States, Canada, Europe and Asia also participate when we offer the service of language interpreters.

O Grupo Santo Amaro successfully held hybrid and virtual meetings - now with a new face-to-face space being inaugurated in March, which has accessibility, and the focus will be hybrid meetings - either local or public, close to the metro and close to the specialized professional contracted to interpret books. The group also holds hybrid service meetings, held also with interpreters of Libras for those who need interaction, "isolated" addicts also participate as women with children and addicts with mobility reduced by diverse causes such as AVC and accidents. It is a recurrent, growing and moving service for the approval and development of the recovery program of NA and the culture of the deaf community.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Região Grande São Paulo adopts a multifaceted strategy of Public Relations, which combines traditional methods of dissemination with an active presence in events of great cultural and scientific relevance. Our actions are divided into four main pillars:

1. Presence at Mass Cultural Events:

Unlike conventional approaches, we leverage local culture to increase NA's visibility., using this platform of visibility to carry the message of NA.

2. fairs and events:

Aligned with the principle that "any addict can stop using", we establish cooperation and set up informative stands in human rights and inclusion events, such as the Diversity Fair and Black Consciousness Day commemorations.

3. Collaboration with the Scientific and Academic Community:

We seek to strengthen our institutional credibility through participation in forums, such as the Latin American Symposium on Drug Policies. In these spaces, we maintain our stand to inform authorities, doctors and legislators about the effectiveness of the Narcóticos Anônimos program as a free and complementary community resource.

4. Grassroots and Community Efforts:

We maintain consistency in fundamental public information activities. (PI), including the fixing of posters in units of health and public transport, pamphlets in strategic locations and the realization of Panels and the Community to present NA.

Has your region hosted CAR workshops? **Yes, initial online event for presentation of motions - online**

3 in-person events at strategic points of geography for full debate, questions, formulation of possible amendments with final vote and regional meeting on the last weekend of March/26

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per area

Does your region discuss the parts of the CAR not related to motions? **Yes, general presentation and meeting in person related to topics not related to motion - theme and increase of literature and realization of workshops (we choose not to do DRT/MAT due to the great distance between our reality of reduction of damage and abuse**

Does your region engage in gathering a conscience for CAT material? **Yes, let's hold a session to present the motions and budget to have a general idea of the position of the Region, but not a formal vote and more an orientation of conscience**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Disruptive and predatory behavior, gender-neutral language and CAR movements

Please describe the most significant challenge your region has faced since WSC 2023.

Lack of continuity and cohesion of services without significant breaks due to discord between members or lack of information and regional service structure, quality and efficiency of communication in general.

What additional information would you like to share with other conference participants?

Our regional H&I is in constant contact and in unidade with the structures of other regions and Spanish-speaking Latin America, exchanging experiences and promoting events in a unit for mutual development, training and study so that they can

adapt/implement some consolidated projects/services that we have here, in their geographical areas - with good communication and coordination with LAZF (some countries involved: Mexico, Costa Rica, Dominican Republic, Peru, Colombia, Venezuela, Nicaragua)

Facts about: Greece

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **1**
 Are any of these meetings hybrid? **yes** How many? **1**
 How many times a year does your RSC meet virtually? **2**
 What committees or workgroups do you have at your RSC?
Conventions/Events Project Based Workgroups Translations Website
 Which of these workgroups/committees are new since WSC 2023?
Project Based Workgroups
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **CBDM is used in our regional service committee to reach decisions through discussion and group conscience. Topics are discussed in rounds until clarity and agreement are reached. When consensus is not achieved, the topic is usually postponed and brought back to the next meeting to allow further reflection and discussion.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Yes. Fellowship development efforts are carried out primarily through Development of Fellowship committees at the area level. These committees organize workshops, learning days, and visits to groups to share experience, provide support, and encourage participation in service. An ongoing project plan also focuses on the development of fellowship in Albania, where NA does not currently exist. This effort is carried out through the cooperation of Area Development of Fellowship committees.

Additionally, new groups are supported by providing free literature and keytags to help them stabilize and grow in their early stages..

Describe what kind of planning your region and/or its areas utilize.

Our region and its areas utilize project-based planning and committee planning to address specific needs and priorities. When needs are identified, relevant committees develop project plans and coordinate activities. An example of this approach is the current project plan for the development of fellowship in Albania, which is carried out through cooperation between Area Development of Fellowship committees. Areas also plan their activities through their service committees based on local needs and available resources.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Our region has successfully utilized technology to improve communication, participation, and training. Online meetings and digital communication platforms have made it easier for trusted servants from different areas to participate in service discussions and planning. CAR workshops and other service workshops have also been conducted online, allowing representatives and members from different areas to participate more easily. Additionally, electronic sharing of reports and service materials has improved coordination between committees and areas.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Public relations efforts in our region include a wide range of activities aimed at increasing awareness of NA as a recovery resource.

Presentations are conducted at universities, multidisciplinary psychological support centers, and to psychiatrists and other addiction professionals. We also provide presentations to local government authorities, as many of our meetings are hosted in municipal facilities, maintaining cooperative relationships at the local level. Our region participates in radio interviews and produces radio and television public service announcements. We also take part in roundtable discussions at conferences alongside other fellowships such as Al-Anon.

Additional outreach efforts include:

Distribution of NA information cards in pharmacies in cooperation with our phone line

Posters displayed on buses

Billboards placed at metro stations

We are planning to approach the Ministry of Justice with the goal of increasing recognition of NA as a program in Greece. Currently, we already maintain cooperation with several correctional facilities across the country.

At the professional level, our region participates once per year in a national addiction-focused event (PPA), where various recovery and treatment organizations exhibit. NA maintains its own informational booth at this event.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **1** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Yes. Our region hosted two online CAR workshops. The areas were divided into two groups, with two areas participating in each workshop. Out of 61 groups in the region, 16 groups were represented in these workshops. These workshops provided an opportunity for discussion, questions, and sharing information about the CAR.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, Yes. In addition to motions, our region discusses the Issue Discussion Topics included in the CAR. These topics are discussed during CAR workshops to encourage sharing, understanding, and fellowship discussion.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Several subjects generated significant interest and discussion in our region during the past conference cycle.

One of the primary topics was communication and the flow of information between the regional service committee, area representatives, and groups. There has been ongoing discussion about improving communication, ensuring that groups are well informed about regional and world service matters, and encouraging greater participation and feedback from groups. Another subject that generated considerable discussion was the translation of NA literature. Our translation committee has completed substantial work, but the approval process for translated materials requires time, and this has been an important topic within the region. The role, responsibility, and accountability of trusted servants was also widely discussed, particularly the importance of consistent service and reliability in trusted servant positions.

Please describe the most significant challenge your region has faced since WSC 2023.

The most significant challenge our region has faced has been a shortage of trusted servants at the regional level. While many members are actively serving within areas, it has been difficult to sustain some regional committees due to limited available members. In some cases, committees have become inactive as a result. This challenge has reinforced the importance of developing new trusted servants and encouraging participation in regional service.

What additional information would you like to share with other conference participants?

Although the region has faced challenges at the regional level, area-level service remains active and productive. Development of Fellowship, Public Relations, and Hospitals and Institutions committees at the area level continue to carry out consistent service and outreach activities. These efforts include cooperation with professionals and institutions, public information activities, and ongoing work to support the growth of NA and carry the message.

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **Yes, The CAT is sent to all GSRs so they can present it to their groups and send their comments, concerns, and questions about the shared material.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

**The 4 Discussion Topics, especially
Reimagining and revitalizing service committees
Problematic and predatory behaviors**

Please describe the most significant challenge your region has faced since WSC 2023.

To achieve regional unity, there are still many groups that are very apathetic, especially their leaders, which affects us in terms of staffing to fill the positions in the service subcommittees.

What additional information would you like to share with other conference participants?

We are a Growing Region. After the 2023 WSC, we managed to update all our legal information. We now have legal status as the Narcotics Anonymous Association of Guatemala. We are up to date with the Tax Administration Superintendency, which facilitated the import of merchandise purchased from WSO. Bank accounts with dual signatures were opened to better control money management. A small space was rented for RSO to operate and store the Region's merchandise and furniture. A special worker

was hired to support us with accounting. Computer and multimedia equipment was acquired to hold virtual and hybrid meetings (1 laptop, 1 projector, 1 hands-free microphone, and 1 small webcam). Growth: Although our region has decreased in membership, after the 2023 WSC, two new groups have been opened. We are a fairly small region, with many financial limitations, but we are making the necessary efforts to function properly and continue supporting the groups in fulfilling their primary purpose. We have 15 in-person groups and 3 virtual groups, of which 11 in-person and 1 virtual groups participate in the RSC. In the RSC, we have vacancies in the sub-coordinations of Public Relations, Magazine, Fellowship Development, and Ad Hoc Committee. In the EC, we have vacancies in the positions of Secretary, Sub-coordinator, and Alternate Regional Delegate. In July 2026, we will hold our next ASR, where we will elect our trusted servants, entrusting this assembly to our PS and asking that the service positions be filled. We are in discussions with the LAZF to support the integration of the Honduras and El Salvador Regions so that they can be integrated and restructured. We will have a space during our 11th Regional Convention to hold a learning day and begin discussions on integrating all the Central American Regions. On behalf of my Region, I want to thank NAWS, WSO, WB, LAZF, and all the NA Fellows from around the world who are here, who have supported and visited us. Even though we are a small region with many limitations, we are part of this great fellowship that is changing lives and making miracles continue to happen. Thank you, thank you very much.

FD/Outreach
 Does your RSC meeting use CBDM to reach decisions? **No**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Several of the ASC's use CBDM for their decisions. The process was challenging to learn for some long time members, but it works well.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The FD Committee is a relatively new position. It's main responsibilities are to reach out to professionals in the community and ensure they're aware of our existence, and coordinate/oversee our annual Learning Days event. These two roles were previously assigned to the RD Team, but they were reassigned in 2024-2025 when FD was approved by the fellowship. Additionally at least two of the ASC's hold their own Learning Days events for on-island members, and one has engaged in their own PR presentations to the local professional community.
 Describe what kind of planning your region and/or its areas utilize.

Hawai'i Region

WSC 2026 Regional Reports

Currently, I am unaware of any ASC's using an official Strategic Planning process. Planning efforts are localized and specific to needs as required. Several of the ASC's have communicated to each other and shared challenges/solutions directly with one another, in addition to challenges/solutions being addressed at RSC meetings. RSC meetings are planned/coordinated by the Chair/Admin, utilizing a standard agenda from the P&G. Regional Convention and Area Gatherings utilize standard planning process as outlined in the specific P&G for those events, or input from previous participants/admin. On the whole, Strategic Planning is a newer concept that hasn't been implemented into the service structure yet. As a member of the APF Zonal, we are aware of its benefit to the APF, as well as to the WSC. Strategic Planning will be discussed at our next RSC meeting and in our Delegate Collab meetings to bring awareness to our members.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. Our quarterly HRSC BOD/Admin meetings were historically F2F the Friday night immediately preceding the RSC meeting on Saturday/Sunday. This has been changed to an all virtual meeting, and the P&G has been changed to reflect this. Our ASC's have had significant change in the adoption of virtual meetings, and last year a new, all virtual ASC and meetings.

As the RD Team, we wanted to increase participation in our efforts to inform our local members of the work we do on their behalf. Last year we started a monthly Delegate Collab meeting, to give interested members a virtual platform to meet with the delegate team, ask questions, provide updates, workshops, CAR presentations, etc.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Each Area (island) has their own local government, and various local offices for state government. As most of these organizations are geographically isolated from one another, they have their own local administrators, and community organizations, i.e. Salvation Army, treatment facilities, etc. Each island supports the various local events catering to mental health/substance abuse/community awareness for both providers and clients/patients. At least one of the islands holds their own PR Event for professionals, and the RSC FD Coordinator facilitates an annual PR event on one island. In the recent past this has been planned around the island hosting the annual Regional Convention of NA. The past few years however have not seen this happen. Several islands have a booth or table at the annual State Fair, which actually travels to all of the islands during the summer months, and this allows the local PR/PI committee to participate in this outreach effort. Most of the ASC's have local members distribute meeting schedules to hospitals, judiciary/parole, mental health and treatment facilities, to ensure our presence is known to those searching for us. Several islands have created PSA's for the local radio stations to broadcast, and our RSC created bus placards to display on the local public transportation. As we are a unique community in that we are an island state, as well as one of the few remaining that still have one state-wide area code, we created a phone

line for the state to allow PR a single point of contact state-wide for professionals to reach them. The initial idea was to have this number as a one-stop point for addicts seeking recovery state-wide to reach a recovering addict, but the outcome changed. This effort was recently readdressed and a workgroup has initiated the process once again to make one, state-wide number available to addicts, visitors, or others seeking a meeting.

Please provide the URLs for the social media that your region is responsible for:

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We've been hosting our monthly Delegate Collab meetings and workshopped the CAR info for interested members. Additionally, we were requested to plan F2F workshops for each of the islands, and were just approved the additional budget for this. We will be holding workshops over the next month in preparation for the initial Straw Poll in April.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by individual members at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **.. Yes, We will workshop these items just like the CAR and allow members to have a voice if they desire.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

- 1. Creation of the new FD Coordinator position**
- 2. Policy and Guidelines review**
- 3. NA unity, understanding/application of principles before personalities.**
- 4. RSC budget and expenses, versus income/contributions**
- 5. Our Zonal Forum and our participation at that body**
- 6. Local Bank of Hawai'i bank account serving the APF Zonal Forum**

Please describe the most significant challenge your region has faced since WSC 2023.

There really wasn't one specific challenge, but several smaller ones that it appress many communities face. The following are some of those struggles: Unity within the fellowship - understanding and application of our principles like "group autonomy", versus boards and committees and their accountability to those they serve, and transparency from said committees/subcommittees. Remembering our primary purpose: to carry the message of recovery to the still suffering addict. Trouble getting and retaining members to be of service at group, area, and subcommittee levels. Follow through with some committees. Disagreeing without being disagreeable. It appears

Hawai'i Region

WSC 2026 Regional Reports

these may be part of the same issue: personal recovery, personal responsibility, understanding and application of our Steps, Traditions and Concepts.

What additional information would you like to share with other conference participants?

It has been a pleasure to serve the Hawai'i NA fellowship these past 5-1/2 years. I look forward to seeing everyone at the WSC. Mahalo for allowing us to be part of the process...

 Comments about how that works: **During our plenary sessions, the coordinator always determines whether there is a consensus regarding the making of a decision; in the absence of a consensus, we proceed in accordance with the manual, conducting a vote requiring either a simple majority or an absolute majority.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Visit in person as areas, realizing um inventory and identifying as existing difficulties and activities realized.
 Describe what kind of planning your region and/or its areas utilize.
Regional calendar planning, financial planning for the presentation and deliberation of the areas on the proposed budget and regional restructuring plan.

HOW Brazil

WSC 2026 Regional Reports

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We don't have.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

1. Production of Institutional Materials aimed at guiding members:

- **GLS Glossary - Attractive material explaining NA acronyms to facilitate understanding of the structure of the service and attract new members of the service. Motions.**

- **Book of Good Practices - Documentation of activities of RP with practical orientations for execution of services.**

- **Manual of Visual Identity - Disclosure and application of directives**
Objective: strengthen NA identity clarity and standardize communication pública.

2. Communication and Digital Presence

- **Social Media Advertising — Regional promotion focused on cities with existing members but where we currently lack groups.**

- **Group Updates — Ongoing communication with ASCs for site validation and maintenance.**

Objective: Increase visibility, facilitate access to meetings and improving a recent experience.

3. Physical Outreach Activities

- **Poster Drives — A designated day for putting up posters; an annual activity designed to strengthen unity and increase local visibility.**

- **"Lixo CAR" Project**

- **Restroom Stickers**

Objective: to reach the addict who still suffers in public and community spaces.

4. Institutional Partnerships and Strategic Coordination

- **FPF - Paulista Football Federation, ARTESP - Regulatory Agency for Public Transportation Services of the State of São Paulo**

- **Meetings with DRS (Regional Departments of Health) - State contact to facilitate meetings and expand cooperation with organizations públicos.**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 4 workshops, with a media of 21 participants. The importance of working together was strongly reinforced.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, The CAR is presented, and all questions that arise are answered to ensure that everyone achieves a full understanding of the subject.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

The central theme of the major debate was the restructuring and sustainability of the region, evolving from a financial crisis to a profound structural change:

- **Division and Creation of a New Region:** The most intense debate around the exit of 6 areas for the formation of a new region. This involved complex discussions about the proportional division of the cash and the service charges that are occupied by servers that will be in the new geographical area. materials Later, the interest migrated to the management of large projects, such as the National Service Conference (CNS) 2027 where it was approved the purchase of a subscription for each regional server and the migration of bank accounts for institutions with better rates (Sicoob). Acronyms in written texts, aimed at facilitating comprehension for new members, as well as forms for completing reports—both for groups and subcommittees.

Please describe the most significant challenge your region has faced since WSC 2023.

The most critical and persistent challenge is the crisis of service renovation (open tasks) called for the complexity of geographical restructuring:

- **Lack of Servers:** The most significant challenge is the permanence of diverse open tasks in our regional structure. Vital functions such as Vice Coordenação, Secretaria, Tesouraria e Conselho Fiscal do not attract volunteers with a necessary frequency. As a result, our servers need to accumulate responsibilities so that the message of NA continues to be lifted, thereby reducing the burden that hinders the expansion of our services. regional coordinators have made available and fomenting meetings with the coordinators of the subcommittees in the areas, there is a difficulty in participating in the representatives of the areas or that it is difficult to develop and to improve the efforts of how to carry a message.

What additional information would you like to share with other conference participants?

- **Investment in Public Information (PR):** The region realized a robust investment (cerca de R\$ 8.600,00) for the production of 150 mil pamphlets, demonstrating a commitment to spreading the fellowship. focus on how to serve better and with more strategy. Regional plenary sessions for accountability reinforce a culture of responsibility and transparency of the region.

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Difficulties getting literature and keytags

Predatory behaviour

Please describe the most significant challenge your region has faced since WSC 2023.

We hosted ECCNA 38 in 2023, not sure it was after the WSC, it was quite a challenge though.

A member who is an addictologist got green light to set up rehabilitation sections in prisons, that means we have the opportunity to set up online and offline NA meetings in Hungarian prisons. Looking for experiences, how is it feasible to setup meetings that inmates hold themselves, without the need of members from outside the prison, how can it be managed without going against traditions if they are under the control of guards, who are not members.

What additional information would you like to share with other conference participants?

Since ECCNA 38 our fellowship is growing, 12 new meetings in 18 months which is a lot, the population in Hungary is 10 million and NA was established here in 1998~.

We have serious problems because literature and key tags are not arriving in time, we would really love to print ourselves as there are many suffering addicts who can't get literature.

Hungary*

WSC 2026 Regional Reports

On the last weekend of August we will hold CENA Central European Convention as we have 7 neighboring countries and we wish to encourage them to come and build relationships, in most of these countries NA is not as established as in Hungary, plenty of room to grow. There will be english and hungarian meetings and speakers will be interpreted in english.

Facts about: Indiana

 Comments about how that works: **It works well.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The Fellowship Development workgroup supports the region by hosting an annual Service Retreat that offers service-focused workshops. FD also provides workshops to areas interested in strengthening their local service efforts.
 Describe what kind of planning your region and/or its areas utilize.
The IRSC conducts a regional inventory by distributing a survey to the areas. The findings are reviewed during a planning session to help set strategic goals and determine the budget for the next fiscal period.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **The IRSC relies primarily on its website as its central**

technology platform. The website communicates meeting information and stores documents for area access. Phoneline services are administered through YAP. Additionally, QR codes and online surveys are used to efficiently collect information from the areas.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

The IRSC PR/PI efforts include distributing business cards featuring the Iowa Region phoneline, website, and QR code; maintaining literature racks in facilities that have contact with addicts; ensuring Narcotics Anonymous literature is available in Iowa libraries; placing public service announcements (PSAs) on Iowa radio stations; hosting informational tables or booths at local events; and providing PR presentations to professionals.

Please provide the URLs for the social media that your region is responsible for:

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, The Iowa Region designated the Plains States Zonal Forum CAR Workshop as the primary CAR workshop and invited area members to participate. Additionally, three supplemental CAR workshops were conducted to support three specific areas. The average attendance was 6.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by RCMs at RSC meeting

Does your region discuss the parts of the CAR not related to motions? **Yes, We review those parts not associated with the motions that are included in the powerpoint for the CAR.**

Does your region engage in gathering a conscience for CAT material? **Yes, The CAT material was discussed at the RSC and areas were asked to provide a conscience to be gathered at the Regional Assembly.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

The Iowa Region held substantial discussions focused on regional trusted servant conduct, along with strengthening mentorship and educational support for newly elected trusted servants.

Please describe the most significant challenge your region has faced since WSC 2023.

The greatest challenges facing the Iowa Region were trusted servant rotation, member participation in service, and ensuring respectful and supportive treatment of trusted servants. Areas also reported difficulties preserving the atmosphere of recovery within meetings, citing a range of contributing factors. The Iowa Region continues to face challenges in reestablishing H&I service in the Iowa State Correctional system and has not been able to resume these meetings since the COVID-19 pandemic began.

Additionally, the Iowa Region has encountered challenges in navigating and clarifying the obligations and responsibilities related to its recently obtained 501(c)(3) status.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We plan to have virtual car workshop if possible**
Which method does your community use to reach a conscience on the CAR?

Delegate decisions to the RD/AD

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Establishing Iran Zone, because it is the best way to make unity in our fellowship and also have a national structure, according concept 1 and tradition 1

Please describe the most significant challenge your region has faced since WSC 2023.

- . **Legal challenges between the Iran Regional structure and two parallel structures formed in Iran, which have negatively affected the fellowship PR effort process and the license renewal process last year, and as a result, consumed most of our resources.**
- . **Confusing for national officials due to the existence of two fellowship with two different names and a single purpose!**
- . **The recovery space of the groups is affected due to the negative effects of sharing in virtual spaces by members related to the structure separated from the Iran Region.**

What additional information would you like to share with other conference participants?

I hope that together we could have an effective conference with the spirit of love and unity.

AS we mention above, from the last conference we decided establishing the Iran zone, here I want to give you an update about this Issue.

We sent out survey forms to our groups on the creation of zonal structure for Iran and are receiving feedback on their opinions, and based on the forms we have received, there is relative consensus on this matter.

We hope these efforts, maintain unity and prevent the Iran fellowship from taking hold apart.

 Comments about how that works: **In Iran, one person dies every 3 hours from drug use. So we are faced with a large number of addicts who are suffering. For 30 years, we were only one region, but in the last few years, we have become 4 regions. Naturally, this change brings with it problems.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The FD Committee of the District Council has a close relationship with the H&I Committee. Most of the activities of this committee are spent on organizing training workshops, organizing training days, recruiting interested young people, sending facilitators to the districts, participating in the FD workshop by EDM, and drafting two

online workshops by the research team. Several workshops were held under the following titles:

Recovery and Relapse for Women

Discipline and Respect

From Despair to Enthusiasm for Newcomers

Describe what kind of planning your region and/or its areas utilize.

Some areas are weak in planning and we try to consider short-term plans. But for the FD committee, we plan to help the FD, the areas, by participating in person in th

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We try to make the most of internet technology, but unfortunately we often have problems with internet outages.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Fortunately, we have an active and experienced PR/PI committee.

The head of this committee lives in the capital and regularly works in establishing coordination between regions and government departments such as governorates, provincial governorates, law enforcement, anti-narcotics headquarters and helping to obtain permits to legalize NA activities in different regions.

Training, harmonization between regions, outreach to courts, treatment centers and camps with the help of the H&I committee, setting up meeting locations in high-traffic areas and selecting the head of this committee as the keynote speaker at government gatherings.

Please provide the URLs for the social media that your region is responsible for:

<https://meeting.nairan.org>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **36** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **No**

Which method does your community use to reach a conscience on the CAR?

Delegate decisions to the RD/AD

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

I have to make an explanation at this point.

Due to the deep challenges that have been found in NA Iran and I know that you are also aware of them, unfortunately we were not active in this part of the conference.

Unfortunately, on the day when the groups had a business meeting to elect servants and wanted to decide which region they would be members of, some big men with knives and dangerous weapons would enter the group and, by creating fear and intimidation, force the group to vote for membership in their region.

If anyone opposed, they would expel them from the meeting and take the vote and then celebrate on virtual pages and announce that this group had joined us!!!!

For a long time, such an atmosphere prevailed in NA Iran.

In such circumstances, during the region, most of our time was wasted on discussions and finding solutions, and during this period we were behind the topics of the conference.

Please describe the most significant challenge your region has faced since WSC 2023.

In the chaotic situation created by the old region, the groups gradually became aware of the facts and the Region 1 was regularly faced with many requests from areas that wanted to join Region 1.

The region worked on the conditions of the merger regularly.

This situation caused Region 1 to suddenly become 28 areas from a 12 areas and we were very busy with such issues.

Most importantly was the illegal action of the old region to print NA publications, which all members spent a lot of time and energy to prevent the continuation of this ugly work.

In addition to all this, there was the problem of obtaining legal permission from the Iranian government, which also has a long story.

Currently, Iran has 4 areas, of which Region 1 has seat in conference and has a seat in EDM and continues with encouragement to carry the message to the addict who is suffering.

The old region has decided to form a national structure and turn Iran into a zone like APF and EDM

What additional information would you like to share with other conference participants?

Greetings and regards

All members of the NA Iran Region 1 would like to express their gratitude and appreciation for the positive vote they gave to our application for membership in the WSC, which solved many of our challenges.

We hope that the Region 1 be an active and useful member.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?

Yes, We are planning and consulting with the Iranian Minister of Health so that we can launch meetings and the message of the association in Iraq.

We have translated the texts and literature available on the World Services website that have not been translated into Persian and made them available to members.

There is a structure in our neighborhood called the NA Independent Main Committee. We have had joint and ongoing projects with them and have implemented the alliance, and the possibility of our joining together is high.

We are running a comprehensive site that will inform all local events in Iran despite all structural divisions, and regularly prepare and upload NA-compatible improvement materials.

We have created an application for meeting addresses and have had deep cooperation with BMLT and have succeeded in uploading all meeting addresses in 4 regions of Iran along with the location. Last year, we visited all the addiction treatment clinics in the province, held an introduction session with the staff, and donated about 700 packs of publications to the center's addicts.

Describe what kind of planning your region and/or its areas utilize.

Usually planning is based on the published World Service booklet.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We are running 13 days and 13 online sessions of live television in Operat.**

Institutions can request an in-person introductory session through the site.

Making clips and teasers and voice messaging are part of the activities of our Instagram page.

Setting up an SMS system for the address of the sessions.

Setting up a life-style program with a digital form.

Providing a digital version of the membership estimate and statistics.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Preparing membership forms.

Introductory sessions for physicians.

Holding a general meeting with the participation of more than 700 members, officials, and families.

Participating in provincial events as NA spokesperson.

Environmental information and posters.

Donating printed copies of the message on the road and meeting address sheets to centers.

Informing religious people.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We had 2 - one online and one in-person. We had 40 attend online and only 8 in person**

Which method does your community use to reach a conscience on the CAR?

Other - We encourage each group to discuss the motions, but not many do. So those who feedback to their Areas who bring the areas conscience to Region.

Does your region discuss the parts of the CAR not related to motions? **Yes, We held discussions about the IDTs in the CAR workshops, there was a lot interest in doing more of these with the wider fellowship**

Does your region engage in gathering a conscience for CAT material? **Yes, We are hosting a CAT workshop online on the 4th of March**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

We have had a few examples of very challenging behavior - linked to disruptive or predatory behavior. Some groups have had very difficult situations.

The DRT / MAT conversation also has a lot of interest

Please describe the most significant challenge your region has faced since WSC 2023.

As above - We have had a few examples of very challenging behavior - linked to disruptive or predatory behavior. Some groups have had very difficult situations. Also, the move to online banking for the Service committees - while maintaining rotation of trusted servants, etc

Finally, we have struggled to fill some important positions, such as H&I and PR at our IRSC. In fact the lack of forthcoming servants in general is a challenge.

What additional information would you like to share with other conference participants?

We are thrilled to welcome you all to Ireland in for WCNA 2028..

 Comments about how that works: **When first introduced it was challenging to come to a consensus, but as time goes by we are getting more familiar and fluent to this modality.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The FD subcommittee consists of 10 members and collaborates with the human resources panel when needed. Throughout the year, it organized and supported numerous seminars, open meetings, and hybrid events, both in person and online, across various regions. Key activities included seminars on predatory behaviours, support for areas and regional conferences; and assistance to multiple local groups through Zoom support, informational materials, and event logistics.

The STC also played a significant role in opening new groups, organizing open meetings, and providing promotional materials. Awareness was raised through emails, printed flyers, videos, and brochures. As a result of these efforts, new groups were established in several areas across Italy. Since the founding of STC FD nearly eight years ago, the number of groups in our region has more than doubled.

Describe what kind of planning your region and/or its areas utilize.

We have recently involved our regional fellowship in a comprehensive planning process designed to establish both our internal and external objectives.

Our planning cycle began in September, and we are now moving into the next phase.

Following our work group sessions in October at our Regional meeting in Hybrid, we have conducted online surveys that will allow us in January, to effectively establish our key priorities and determine a practical roadmap for what we can achieve in the coming year.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Hybrid meetings help our region to be more inclusive and we are also in the process of completing a regional inventory using google forms.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Public information provided in person at the Beck institute in Rome at the national conference of the CBT postgraduate specialization school for training psychotherapists in Cognitive Behavioral Therapy.

- Inclusion in the working group of the Istituto Superiore di Sanità (National Institute of Health) for the restructuring of the National Addiction Hotline.

Does your RSC meeting use CBDM to reach decisions? **Yes**

Do any of your areas use CBDM to reach decisions? **Yes**

Comments about how that works: **Yes. The Narcotics Anonymous Kenya Region RSC uses Consensus-Based Decision Making (CBDM) as its primary method for reaching decisions, and several Areas within the region have also adopted the same approach.**

At the regional level, CBDM has strengthened unity and participation. Rather than relying on simple majority voting, discussions are structured to ensure every trusted servant has an opportunity to be heard. Motions are presented clearly, background information is shared in advance where possible, and members engage in open dialogue guided by the principles of recovery and service. The focus is not on winning an argument but on arriving at a decision the body can support collectively.

When concerns arise, they are addressed respectfully and directly. Members are encouraged to express reservations, and the body works to amend proposals where necessary. This process often leads to stronger, more thoughtful outcomes because decisions reflect broad

input rather than narrow margins. CBDM has also helped build trust among Areas by reinforcing transparency and accountability in regional deliberations.

Within some Areas, CBDM is practiced in Area Service Committee meetings, particularly when handling sensitive matters such as event planning, financial decisions, or service structure adjustments. While levels of familiarity may vary, ongoing orientation and informal mentoring continue to improve understanding of the model. Over time, members have reported increased collaboration, reduced conflict, and clearer ownership of collective decisions.

Overall, CBDM in the NA Kenya Region functions as both a practical decision-making tool and a reflection of spiritual principles such as unity, responsibility, and mutual respect. It supports the region's commitment to service grounded in inclusion and shared conscience.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?

Yes, Yes. Fellowship Development (FD) and outreach efforts are active within the Narcotics Anonymous Kenya Region, with a strong focus on Learning Day events as a primary platform for growth and capacity building.

Fellowship Development Through Learning Days

The region organizes structured Learning Day events at both Regional and Area levels. These gatherings are designed to strengthen service understanding, improve group stability, and support emerging Areas. Sessions typically cover:

The NA service structure and roles of trusted servants

Consensus-Based Decision Making (CBDM)

Financial accountability and reporting

Event planning and convention preparation

Public Relations (PR) and outreach fundamentals

Sponsorship and group sustainability

Learning Days are interactive. Members engage in workshops, small-group discussions, and experience-sharing panels. The emphasis is practical-participants leave with tools they can apply directly in their home groups and Area Service Committees.

Outreach and Area Support

FD efforts also include outreach visits to developing or struggling Areas. Regional trusted servants and experienced members attend local service meetings upon request to offer guidance, share best practices, and mentor newer members in service roles. This support is collaborative rather than directive, respecting group autonomy while promoting unity.

Outreach extends to supporting new meetings in underserved locations and strengthening communication between Areas. When necessary, virtual platforms are used to reach members in distant regions to ensure inclusion.

FD/Outreach Structure

The region coordinates these efforts through an FD-focused function within the regional service structure. While not always a standalone committee, Fellowship Development is integrated into the Regional Service Committee's priorities, with designated trusted servants helping plan Learning Days and outreach visits.

Overall, FD and outreach within NA Kenya are grounded in the principle that strong groups build a strong region. Learning Day events have become a consistent and effective method for equipping members, nurturing leadership, and ensuring sustainable growth across the fellowship.

Describe what kind of planning your region and/or its areas utilize.

The Narcotics Anonymous Kenya Region utilizes structured, principle-based planning at both Regional and Area levels to guide service delivery. Planning is intentional, collaborative, and aligned with the fellowship's primary purpose.

1. Annual Regional Planning

At the beginning of each service year, the Regional Service Committee (RSC) develops a simple but focused annual plan. This includes:

Key priorities such as Fellowship Development (FD), Public Relations (PR), and event coordination

Budget projections aligned with planned activities

Timelines for major events such as conventions, Learning Days, and Speaker Jams

Defined responsibilities for subcommittees and trusted servants

This plan acts as a roadmap rather than a rigid document. It is reviewed regularly and adjusted based on emerging needs.

2. Event-Based Planning

For major regional activities such as conventions and fundraisers, ad hoc planning committees are formed. These committees work with clear task allocations, timelines, and reporting structures. Planning typically includes:

Budget estimation and financial tracking

Venue identification and logistics coordination

Registration systems and merchandise planning

Program drafting with defined roles and timeframes

Regular progress updates are presented at RSC meetings to ensure accountability and transparency.

3. Area-Level Planning

Areas conduct their own service planning through Area Service Committees (ASCs).

Planning focuses on:

Supporting group stability

Outreach to new or struggling meetings

Local Learning Days

Public Relations efforts within their communities

Some Areas are gradually adopting more structured planning models, including quarterly reviews and goal-setting discussions.

4. Consensus and Reporting

Planning decisions are guided by Consensus-Based Decision Making (CBDM), encouraging broad participation and collective ownership. Financial planning is accompanied by clear reporting, including income, expenses, and projected needs.

Best Practice Approach

The region emphasizes:

Clarity of purpose before activity

Financial prudence

Open communication

Regular reporting and review

Mentorship of newer trusted servants

Overall, NA Kenya's planning model balances structure with flexibility. It ensures that service delivery remains focused, transparent, and responsive to the needs of the fellowship while upholding unity and accountability.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Yes. The Narcotics Anonymous Kenya Region has experienced meaningful progress in utilizing technology to strengthen service delivery, communication, and fellowship growth.**

1. Virtual Meetings and Hybrid Access

One of the region's most significant successes has been the expansion of virtual NA meetings. These meetings increased accessibility for members in remote counties and for those unable to attend physical meetings. Virtual platforms have also supported continuity during times when physical gatherings were limited.

Some Areas have adopted hybrid formats, allowing members to participate both physically and online. This has improved inclusion and strengthened connection between geographically distant members.

2. Monthly Regional Virtual Service Meetings

The region utilizes online platforms for Regional Service Committee (RSC) and Fellowship Development (FD) meetings. This has:

Reduced travel costs

Increased participation from distant Areas

Allowed consistent monthly engagement

Strengthened coordination across counties

Virtual service spaces have proven especially helpful in mentoring new trusted servants and maintaining structured communication.

3. Online Registration and Event Coordination

For regional events such as conventions and Speaker Jam fundraisers, the region has introduced digital registration forms and online communication channels. This has improved efficiency in tracking participants, managing data, and coordinating logistics. Digital tools have also supported merchandise tracking, program drafts, and structured document sharing among planning committees.

4. Communication Platforms

The use of structured messaging groups and shared digital documents has improved transparency and information flow between Areas and the region. Meeting minutes, financial reports, and updates are now circulated more consistently and in a timely manner.

5. Learning Days and FD Expansion

Technology has enabled virtual Learning Day events, making Fellowship Development more accessible. Members from multiple Areas can participate without geographical limitations, increasing exposure to service knowledge and experience-sharing.

Overall Impact

Technology has strengthened unity, increased accessibility, reduced operational costs, and improved communication. While the region continues to refine digital systems and build digital literacy among members, the experience in NA Kenya demonstrates that technology, when guided by spiritual principles, can enhance rather than replace the human connection central to recovery.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

The Narcotics Anonymous Kenya Region carries out Public Relations (PR) and Public Information (PI) efforts aimed at increasing awareness of NA's message while preserving anonymity and adhering to the Twelve Traditions. These efforts are coordinated at both Regional and Area levels, depending on capacity and local needs.

1. Institutional Outreach

The region engages institutions that interact directly with people affected by addiction. These include:

Hospitals and treatment centers

Rehabilitation facilities

Correctional institutions

Community-based organizations

PR representatives provide NA information materials, explain how NA works, and clarify referral pathways. In some cases, presentations are conducted to professional staff to ensure they understand NA's non-professional, peer-led model.

2. Learning Days and Community Awareness

Learning Day events sometimes incorporate PR-focused sessions that educate members on how to present NA responsibly in the community. These sessions strengthen members' understanding of the Traditions, especially regarding anonymity and cooperation without affiliation.

In certain Areas, community awareness activities are conducted through informational visits and dialogue with local leaders.

3. Printed and Digital Materials

The region distributes NA literature, meeting schedules, and informational leaflets. Where possible, meeting information is shared digitally through structured communication channels to ensure accessibility and accuracy.

Efforts have also included collaboration with Local Translation Committees to make literature more accessible to local language speakers.

4. Media and Digital Presence

NA Kenya utilizes digital platforms to share:

Meeting information

Event announcements

Convention updates

General information about NA

All communication is carefully aligned with NA principles, avoiding personal promotion and maintaining anonymity at the level of press, radio, and online platforms.

5. Collaboration Without Affiliation

The region engages with other service-oriented organizations to explain NA's role and primary purpose. These interactions focus on cooperation rather than endorsement, ensuring NA remains independent while building professional awareness.

Overall Approach

Public Relations efforts in NA Kenya are guided by clarity of purpose: to make NA known and available to addicts who may not yet know recovery is possible. PR/PI activities are steadily developing, with increasing structure, improved documentation, and growing member participation across Areas.

Please provide the URLs for the social media that your region is responsible for:

WWW.NAKENYA.COM

Here are the known online presences and social media hubs associated with Narcotics Anonymous Kenya Region and NA activity in Kenya - the places people go to find meetings, events, and information:

Websites and Online Meeting Info

- • <https://www.na-kenya.org>
- this site is used to share meeting listings and NA information specific to Kenya.
- <https://www.nakenya.com>
- another portal connected with NA Kenya meeting schedules and contact info.

Facebook Presence (Community/Group)

- <https://www.facebook.com/groups/412168054538976>
- a community group where NA Kenya meeting info and recovery support details are posted.

Event and Convention Posts (Facebook)

- <https://www.facebook.com/jaymo.maxila/posts/>

... - example of a public Facebook post announcing the Kenya Regional Convention of Narcotics Anonymous.

Because NA's approach to anonymity varies by service body and platform, it's important for groups to ensure that contact details and meeting links are verified locally. If you're unsure whether an account is official, check with your Area Service Committee before relying on it.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **No**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by GSRs at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, Yes. The Narcotics Anonymous Kenya Region does discuss the sections of the Conference Agenda Report (CAR) that are not related to motions.**

Beyond motions, the region gives attention to issue discussions, reports, project updates, and fellowship-wide topics contained in the CAR. These sections are often explored during Regional Service Committee (RSC) meetings, Learning Day events, and special workshops organized to help members understand broader world service matters.

The purpose of these discussions is educational rather than procedural. Members review background material, reflect on how global service initiatives may affect developing regions, and consider how shared challenges compare to the local context in Kenya. This process strengthens awareness of the connection between regional service and world service.

In many cases, breakout discussions are used to encourage participation from group representatives and newer trusted servants. This allows members to express perspectives, ask clarifying questions, and deepen their understanding of NA's global direction.

Discussing non-motion sections of the CAR has helped the region:

Improve service literacy

Encourage informed participation at the world level

Strengthen unity by aligning local understanding with global fellowship efforts

Overall, engagement with the full CAR-not only motions-reflects NA Kenya's commitment to informed, responsible participation in the worldwide fellowship.

Does your region engage in gathering a conscience for CAT material? **Yes, The Narcotics Anonymous Kenya Region actively engages in gathering a conscience for Conference Approval Track (CAT) material.**

This process mirrors the fellowship's approach to CAR discussions and is treated with careful attention to both inclusivity and principle. The RSC, along with Area Service Committees, reviews CAT material to understand proposed projects, literature drafts, and service initiatives before providing input. Learning Day events and regional meetings are often used as platforms to present the material to group representatives, explain the context, and facilitate discussion.

Members are encouraged to share their perspectives based on experience, local needs, and understanding of NA principles. The feedback process is structured to ensure that all voices are heard, concerns are addressed, and a unified regional conscience can be conveyed. Trusted servants collect input systematically, often using discussion summaries or digital forms, to reflect the collective view of the fellowship.

Engaging in CAT conscience-gathering has helped NA Kenya:

Strengthen members' understanding of proposed worldwide initiatives

Build experience in structured discussion and consensus-based feedback

Ensure that regional perspectives are represented responsibly at the world level

Overall, this process demonstrates NA Kenya's commitment to thoughtful, informed participation in worldwide fellowship decisions while maintaining transparency, inclusion, and adherence to the Twelve Traditions.

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Within the Narcotics Anonymous Kenya Region, the subject that generated the most interest and sustained discussion over the past conference cycle has been service structure and decision-making effectiveness, particularly the implementation of Consensus-Based Decision Making (CBDM).

1. Understanding and Applying CBDM

As the region continues to grow, many Areas have been navigating how to move from majority voting to a more consensus-driven model. This shift prompted meaningful dialogue about participation, accountability, and the spiritual principles behind collective conscience. Members engaged deeply in understanding how CBDM works in practice-especially when disagreements arise or when urgent decisions are required. Learning Days and regional meetings dedicated time to clarifying roles, improving facilitation skills, and strengthening group conscience processes.

2. Regional Growth and Structural Stability

Rapid expansion across counties also sparked discussions about how to maintain unity while supporting developing Areas. Questions included:

How to mentor new trusted servants effectively

How to balance autonomy with regional guidance

How to ensure financial sustainability as activities increase

These conversations reflected a shared concern about building a structure strong enough to support long-term growth.

3. Financial Sustainability

Financial development was another closely related topic. Members discussed prudent budgeting, transparent reporting, and ways to strengthen contributions without placing pressure on groups.

Overall Reflection

The most active discussions were not about controversy, but about responsibility. As NA Kenya grows, members are increasingly focused on improving how decisions are made, how service is delivered, and how unity is preserved. The tone of these discussions has been constructive, centered on strengthening the region's capacity to carry the message effectively and sustainably.

Please describe the most significant challenge your region has faced since WSC 2023.

The most significant challenge faced by the Narcotics Anonymous Kenya Region since the World Service Conference 2023 has been balancing rapid regional growth with limited financial and service capacity.

1. Growth Outpacing Structure

Since 2023, NA Kenya has experienced steady expansion in meetings across multiple counties. While this growth is encouraging, it has placed pressure on the existing service structure. New groups require mentorship, service orientation, and administrative support. In several Areas, there has been a shortage of experienced trusted servants to fully support emerging needs.

2. Financial Constraints

Financial sustainability remains a major challenge. Travel across counties is costly, and in-person service delivery, outreach visits, and event coordination require consistent funding. While members contribute faithfully, economic realities in the region sometimes limit contributions, affecting the scale and frequency of regional initiatives.

3. Service Experience and Continuity

As leadership transitions occur, maintaining continuity and institutional memory has required intentional effort. Some Areas are still developing familiarity with structured service models such as Consensus-Based Decision Making (CBDM) and formal planning processes. Continuous Fellowship Development has been necessary to stabilize service delivery.

4. Public Relations Capacity

Although PR efforts are expanding, limited human resources and logistical capacity have slowed outreach to institutions in some regions. Building strong, consistent PR structures across all Areas remains a work in progress.

5. Technology Adaptation

While virtual platforms have strengthened communication, not all members have equal access to reliable internet or digital tools. Bridging this digital gap continues to require creative solutions.

Overall Reflection

The core challenge has not been a lack of willingness, but capacity. The region is growing in both numbers and responsibility. Strengthening financial stability, deepening service training, and building sustainable structures remain ongoing priorities. Despite these challenges, unity, commitment, and steady Fellowship Development efforts continue to move NA Kenya forward.

What additional information would you like to share with other conference participants?

The Narcotics Anonymous Kenya Region would like to share a few reflections that may be meaningful to other conference participants.

1. Growth Rooted in Simplicity

NA in Kenya continues to grow steadily across multiple counties. Many meetings operate in modest community spaces with limited resources, yet attendance and member commitment remain strong. The message of recovery is carrying further each year because members are willing to serve consistently, even when conditions are not ideal.

2. Strong Focus on Fellowship Development

The region has placed intentional emphasis on Learning Day events and service mentorship. These efforts have helped stabilize newer Areas and strengthen understanding of NA principles, service structure, and Consensus-Based Decision Making. Capacity-building remains a central priority.

3. Youth and Emerging Membership

Kenya has a relatively young population, and many new members are young adults. This presents both opportunity and responsibility. The region is learning how to balance enthusiasm with structured guidance, ensuring sustainability while preserving unity.

4. Commitment to Translation and Accessibility

Efforts toward local language accessibility are ongoing, with collaboration in translation work to make literature more widely understood. This is an important step in ensuring NA remains culturally accessible without compromising the integrity of the message.

5. Willingness to Collaborate

NA Kenya values connection with other regions and zones. Experience-sharing, mentorship, and participation in zonal and world-level discussions have strengthened local service. The region remains open to learning, partnership, and shared growth.

Closing Reflection

NA Kenya is still developing in many ways, but the foundation is strong: unity, willingness, and a clear focus on carrying the message. The region approaches the broader conference space with humility, gratitude, and readiness to contribute where possible while continuing to learn from the global fellowship.

Facts about: Kyrgyzstan*

Name of Regional Delegate **Aidar Oruzbaev**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the 2023 WSC? Interim 2025 WSC? **No**

 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works:

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, There was a mission of fellowship development taken place in mid May 2023 from Russia. About 7-8 fellows came from Russia to Bishkek, Kyrgyzstan for 3 days. However, at that time the local NA community was not quite ready for the FD.
 Describe what kind of planning your region and/or its areas utilize.
We plan to have a FD from Russia this year in May 2026. The exact dates will be available soon.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **N/A**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **No**

Which method does your community use to reach a conscience on the CAR?

Does your region discuss the parts of the CAR not related to motions?

Does your region engage in gathering a conscience for CAT material?

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

We want to initiate work with pharmacies, because some substances can be bought at pharmacies without prescription.

Please describe the most significant challenge your region has faced since WSC 2023.

No service structure is available at the moment. Also, only three active groups are in Bishkek (capital city), Kyrgyzstan. However, there are at least 3 other big cities where there are no offline (in person) NA meetings at all. Lack of Russian literature. No literature available in Kyrgyz language at all.

What additional information would you like to share with other conference participants?

How can we open new groups?

 Which of these workgroups/committees are new since WSC 2023?
Conventions/Events FD/Outreach Website
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **From the beginning, we felt more aligned with that proposal, and it's included in our procedural guide. We prioritize discussion in areas where groups leave their consciences so that the RCM can take the matter to the region for a decision. If there's no consensus, we postpone it until one is reached. We've been using this approach for three years, and it has truly been a source of spiritual growth.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No, The structures (Areas) carry out this task with the Outreach subcommittee, visiting the groups to resolve all kinds of concerns or conflicts that may impede their growth and development.
 Describe what kind of planning your region and/or its areas utilize.

Service tasks are planned by the different subcommittees and brought to the attention of the GSRs at the monthly Area meetings, for their approval and subsequent execution.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Basically, through the website, informing members and the community in general, as well as projecting our message on digital screens located in strategic locations throughout the city.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Weekly radio programs (Radio PSAs), every Sunday for over 15 years.

 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **At RSC, when the decision is the Region's responsibility, CBDM is generally used. Otherwise, Robert's Rules of Order is used.**
I cannot say how CBDM is used in the one area that applies.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Our FD peeps take care of the state/regional phone line which includes ties to the area phone line systems. They also take care of a state/regional meeting list. FD maintains the Regional website (LARNA.ORG), and PR activities which includes Facebook ads.
 Describe what kind of planning your region and/or its areas utilize.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We have spent a good deal of money on PR activities**

(Billboards, Posters, Facebook ads, etc), but there has been no metric to gauge the success or lack of with those efforts.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Our FD comm. supports the areas through PR presentations and maintaining the regional meeting list and phone line. They also have been engaged in developing Facebook ads and videos to be used on social media platforms.

Please provide the URLs for the social media that your region is responsible for:

LARNA.ORG

<https://www.facebook.com/LRSCNA>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **6** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, The RSC held 1 CAR workshop. That workshop was conducted by the RD team, done face-to-face, on zoom, and recorded so that members of the region would all have the same basic information to begin their discussions and decision making processes.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per Area

Does your region discuss the parts of the CAR not related to motions? **Yes, We provided an overview of the discussion topics during our recorded CAR workshop and have asked for groups to submit "talking points" from their own discussions about these topics.**

Does your region engage in gathering a conscience for CAT material? **Yes, Yes but... Due to the later publication date of the CAT, that material was not included in the recorded workshop. However, we have publicized the CAT and asked that groups include their votes and comments on that material**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

In our region the overarching concern has been the lack of growth of NA home groups. I/we believe that the shrinking pool of NA members is the #1 factor in the shrinking pool of people involved in service work, and many other issues today in NA.

Please describe the most significant challenge your region has faced since WSC 2023.

The shrinking pool of NA members. We think this is driven by treatment center's preference for AA. There has also been concern that NA is essentially shooting itself in the foot by "catering" to specific groups instead of simply maintaining its own central identity. For example, people are being encouraged, directly or indirectly, to "filter" their sharing so as to not offend certain groups and in so doing, they are no longer genuinely sharing their own experience in the way that other addicts can identify with.

What additional information would you like to share with other conference participants?

Facts about: Malta*

Name of Regional Delegate **Matthew**
 Have you attended an in-person WSC before? How many? **No**

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Two hybrid CAR workshops at the Michigan Service Office with 5-10 attendees.**

Weekly virtual CAR workshops January thru April with 1-5 attendees.

Couple of Area workshops with 3-10 attendees.

Which method does your community use to reach a conscience on the CAR?

Other - We tally our vote based on the number of Group Conscience Collection Sheets submitted.

Does your region discuss the parts of the CAR not related to motions? **Yes, A variety of NAWS and fellowship concerns as they occur each conference cycle.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Lack of participation in service

Please describe the most significant challenge your region has faced since WSC 2023.

Lack of service members

What additional information would you like to share with other conference participants?

We'd like to share more on DRT/MAT, Gender Specific Language, and Service Work

Facts about: MEXICO

Name of Regional Delegate**María Mireya Aguilera**
 Have you attended an in-person WSC before? How many? **Yes, 1**
 Did you attend the 2023 WSC? **Yes** Interim 2025 WSC? **Yes**
 Name of Alternate Delegate **Yoseck**

WSC 2026 Regional Reports

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Virtual meetings are welcome. We have special women's groups with different schedules, three times a day, and they are well-received. These include workshops, step work, and speakers' meetings.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

The goal is to deliver the message to areas that don't yet have a service structure. When it's an in-person meeting, this committee arrives two days prior to provide support to the host area with workshops. The same applies to area and regional conventions. We visit correctional facilities to offer support and hold informational meetings for professionals and the public at universities and schools.

Please provide the URLs for the social media that your region is responsible for:

<https://narcóticos.anónimos.org.mx>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **3** How many were virtual events? **1**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We gave an in-person workshop at the regional meeting and have one scheduled for March during the regional convention.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by RCMs at RSC meeting

Does your region discuss the parts of the CAR not related to motions? **Yes, I actually have two amendments. The areas that arose**

Does your region engage in gathering a conscience for CAT material? **Yes, We also see it in a virtual workshop and we will see it at the convention through a workshop.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

The one about inclusion and the DRT and MAT

Please describe the most significant challenge your region has faced since WSC 2023.

None of it, on the contrary, we grew; some new areas were integrated. And the five regions of Mexico are working to create a Mexican zonal forum. We have doubled our efforts in service.

What additional information would you like to share with other conference participants?

Let's continue working together to keep learning, conducting workshops, and spreading the message of recovery to places where we don't yet have groups.

Facts about: Michigan

Name of Regional Delegate **Bob J**
 Have you attended an in-person WSC before? How many? **Yes, 1**
 Did you attend the 2023 WSC? **Yes** Interim 2025 WSC? **Yes**
 Name of Alternate Delegate **Sally S**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the virtual 2023 or interim 2025 WSC? **Yes**
 How many areas are in the region? **15**
 Are any of these areas composed entirely of virtual groups? **No** How many?
 How many meetings take place each week in the region? **407**
 How many are in person? **371** How many are virtual? **36** How many are hybrid? **16**
 How many H&I panels each week in the region:
 How many are in person? **25** How many are virtual? **0** How many are hybrid? **0**
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Growing**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **6**
 Are any of these meetings hybrid? **yes** How many? **2**
 How many times a year does your RSC meet virtually? **4**
 What committees or workgroups do you have at your RSC?
Conventions/Events PR/PI
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Many ideas are not presented with a clear proposal and intent so it is difficult to understand what decision is being asked. Sometimes facilitation is not effective and we end discussion and send incomplete ideas back to areas to vote. We are planning a CBDM workshop to help members be more effective in service.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No
 Describe what kind of planning your region and/or its areas utilize.
We did budget planning for the last 6 years but our guidelines committee decided to remove it so now there is no planning at all.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them.
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We sent Basic Texts to every prison in the Michigan Department of Corrections. We attend several conferences with treatment professionals.

Please provide the URLs for the social media that your region is responsible for:

www.michigan-na.org

(This is a shared service with Metro Detroit Region)

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **5** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 4 workshops hosted by areas, attendance was 20-30 at each**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per member

Does your region discuss the parts of the CAR not related to motions? **Yes, We discussed the surveys and encouraged members and service bodies to respond to both the NA WSC survey and a locally developed Google form survey. We discussed the DRT/MAT and Gender Inclusive Language issues as a group. We discussed literature pricing and direct contributions from members and service bodies other than the traditional member - group - area - region - world fund flow model.**

Does your region engage in gathering a conscience for CAT material? **Yes, CAT motions were added to our Google form survey. A four-page summary of the draft strategic plan was handed out to help understand the basis for the project plans.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

A small group chose to rewrite our regional guidelines and excluded trusted servants and members with experience from participation. The result does not align with the 12 Concepts.

Please describe the most significant challenge your region has faced since WSC 2023.

Gossip and infighting between different factions within the region. Several cancelled in-person committee meetings made it more challenging to build trust and work together.

What additional information would you like to share with other conference participants?

We changed our guidelines to align our RD/AD terms to the conference cycle and encourage a rotation of service each conference cycle. The current recommendation is for one term in each role for a total commitment of 6 years. We have not identified candidates for the next AD but hope to generate some interest over the next 3 months before elections in June.

 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works: **We are in the process of making a decision based on Consensus.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?

No

Describe what kind of planning your region and/or its areas utilize.

Structured and Periodic Planning:

a. Decisions and follow-up are made in regular meetings (quarterly, monthly, etc.) with pre-defined guidelines and schedules.

b. Working Groups (WGs) are used to focus on specific topics, such as a review of manuals and financial questions.

2. Financial Planning:

- a. Based on an annual Budget Proposal to guide spending.
- b. The system depends on periodic financial transfers from the areas (ASCs) to the region (RSC).
- c. Important financial decisions, such as the use of balance sheets and fund management, are formalized through motions. This empowers members and strengthens services (Public Information, Hospitals, and Institutions). Operational:
 - a. Constant revision and updating of manuals and procedures to guarantee clarity and consistency.
 - b. Management of positions and responsibilities, with the holding of elections to fill vacant positions.
 - c. Planning the format of meetings (face-to-face, virtual, or hybrid) to maximize participation and efficiency.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. • **100% Virtual Services: The Literature Review and Translation Subcommittee (SRTL) operates 100% virtually. This allowed for greater reach, inclusion, and flexibility, distinguishing the Minas Region as one of the four most active in Brazil. A motion was approved for the accountability of this committee to also be done virtually, formalizing the success of this model.**

- **Virtual Workshops: A "Personal Stories Workshop" was requested and conducted virtually, serving different areas and overcoming geographical barriers.**

2. Modernization of Communication and Management

- **Adoption of the 132 Service: The ASCs successfully adopted the 132 extension system, a more centralized and professional technological solution for customer service.**
- **Use of Digital Reports: The ASCs are using digital reports. Although there is still a need for adherence, the initial implementation was an important step to modernize data collection.**
- **Centralization of Documents in Cloud: The complete reports of the servers are available through links to Google Drive ("cloud links on drive"). This ensures that all members have easy and centralized access to information before meetings, optimizing discussion time.**

3. Online Support and Structure

- **Webmaster Support: The Webmaster offers ongoing support to the region and committees, assisting with access to the official NA website in Brazil, manuals, bulletins, and minutes. A WhatsApp group was created to share useful links and facilitate access to these resources.**
- **Online Calendar: It was mentioned that there is already an official calendar of meetings on the RSCMinas website, avoiding the need to create new calendars and centralizing information.**

These examples demonstrate that technology has not been a fundamental tool to increase inclusion, optimize communication, modernize management, and expand the reach of services in the Minas Region.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

1. Partnerships and High-Visibility Initiatives:

- **Football Stadium Initiative:** Execution of a campaign at Arena Independência, featuring a field-side banner, promotion on the giant screen, and distribution of flyers.
- **Collaboration with the Court of Justice:** Meeting with a judge and his secretary to present the program of NA, regional data and available services, searching collaboration.

2. Community and Visual Outreach:

- **Installation of Plaques:** NA Outreach Signage in public places, like roundabouts, in the cities of Entre Folhas, Vargem Alegre and Caratinga. Lagoons.
- **Use of Visual Identity:** Constant encouragement for groups and areas to use NA's official visual identity in their activities.

3. Digital Presence:

- **Social Media Advertising:** Utilization of paid advertisements ("Meta Sponsored") to increase the digital reach of the message.

4. Training and Internal Collaboration:

- **Development of a "PR Book":** Creation of a customized guide for the region, containing guidelines on how to organize PR meetings and conduct specific training sessions (such as those held at stadiums).
- **Fortnightly Subcommittee Meetings:** Regular meetings via Zoom to study NA principles and align PR strategies.
- **Collaboration with other regions:** Exchange of experiences with the Rio Grande do Sul Region (for action and stage) and participation of members of other regions (Mato Grosso do Sul, Campinas) and the national structure (ABNA) in important meetings to share knowledge and experience exchange.

Please provide the URLs for the social media that your region is responsible for:

<https://abna.na.org.br/csr-minas/>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events? **1**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 4 workshops and 2 focused meetings to present CAR, we created a podcast to support CAR motions.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per area

Does your region discuss the parts of the CAR not related to motions? **Yes, We had 4 workshops related to research and topics shared by World Services.**

Does your region engage in gathering a conscience for CAT material? **..Yes, We will probably hold a workshop to communicate the CAT material to the NA communities.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

WCNA 38

The central point of discussion is the loss of \$956,129 recorded in the financial report of WCNA 38, finalized in March 2025. This negative result contrasts strongly with the expectation of a profit of almost a million dollars (\$995,897), representing a negative variation of 196% in relation to the budget.

This significant loss, added to the decision of 2023 to suspend WCNA's rotation policy outside of North America after 2024, intensifying debates on sustainability and the future model of our biggest event. As conversations in our region revolved around the need to reevaluate the format, the costs and the revenue sources of the convention to guarantee that it continues to be a beacon of hope and celebration of recovery for the newly arrived and long-term members, without compromising the financial stability of Narcóticos Anonymous as a whole, and of our world convention.

Please describe the most significant challenge your region has faced since WSC 2023.

critical point raised was the inadequate management of the hybrid/virtual platform (HI). In summary, the most significant challenge for our region since WSC 2023 has been dealing with the unintended consequences of accelerated and disordered adoption of the hybrid model. The lack of a support structure, standardized training and guidelines based on collective consciousness transformed a promising tool into a great obstacle for unity and effective transmission of our message of recovery. Heated debates about how panels could be managed in the hybrid model, and the interaction between present and virtual participants, and the migration of servers from other areas and regions for our virtual service panel, without any consultation, endorsement or direction of the local structure to which the server physically belongs. This unilateral practice not only disregarded the autonomy and conscience of the areas of origin, but also overburdened our regional structure with responsibilities for which we were unprepared. The arrival of members of other communities" in our virtual environment, without a process of integration or communication between structures, symbolized the crisis, evidencing that the challenge of the Hybrid/Virtual transcended the sphere of the group and became a geographical and unifying problem.

What additional information would you like to share with other conference participants?

As we reflect on recent challenges, such as the financial results of WCNA 38 and the troubled implementation of hybrid technologies, the fundamental truth becomes clear: our brotherhood is stronger when we walk together. Therefore, the most crucial information that I would like to share today is not a new problem, but a sincere appeal for a collaborative solution.

I would like to propose that we, as a conference, formally encourage our World Services to consult with the Regions and their Regional Delegates (DRs) more frequently and in depth, especially on sensitive and high-impact issues.

This applies directly to two critical areas:

- 1. The Future of the World Convention (WCNA):** Decisions on the format, location, budget and sustainability of the WCNA should not be taken in isolation. The Regions have a valuable view on what is "possible and practical" in their communities. A more robust consultation can foresee financial, logistical and cultural challenges, guaranteeing that our world convention continues to be a unifying celebration event, and not a source of financial concern. Concepts need to be revisited with the decisions of the World Framework
- 2. An implementation of Technology Services:** A crisis with hybrid platforms demonstrates that the implementation of new technologies without a constant dialogue with bases can generate chaos, disunite groups and compromise our traditions. World Services, in partnership with Regions, should lead the creation of good practice guidelines, training programs and clear guidelines. As Regions, on the other hand, we can provide feedback in real time on what works, the challenges faced and the specific needs of their communities, avoiding the most ineffective or prejudicial solutions. It is a practical application of our Second Concept, which affirms that the final responsibility is the authority for the services of NA repousam and conscience of brotherhood. Our Regional Delegates are the vital link in this chain. Utilizing them in a more proactive manner in strategic decisions will guarantee that the World Services will truly act as a reflex of the collective conscience that we represent.

Facts about: Minnesota

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We have done 3 CAR Workshops in Areas and one for the Region that will take place at the Spring Assembly on March 21st. The average attendance is 5-8 so far.**

Which method does your community use to reach a conscience on the CAR?

Other - The main method has been to tally all of the votes during the Spring Assembly. Our regional meeting is the next day where the collection from RCMs will take place. We have also highly encouraged people to do the CAR Survey online.

Does your region discuss the parts of the CAR not related to motions? **Yes, We have gone over the IDTs, Literature Pricing, and the Gender-Neutral and Inclusive Language and DRT/MAT in NA.**

Does your region engage in gathering a conscience for CAT material? **...Yes, That will be done at the Spring Assembly on March 21st. We will gather the conscience at that time.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Disruptive and Predatory Behavior, CBDM and how it works, and Gender-Neutral and Inclusive Language.

Please describe the most significant challenge your region has faced since WSC 2023.

Keeping Old Timers engaged; Establishing Virtual groups; Disruptive and Predatory behavior.

 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **It seems to work well, although it tends to end up being a hybridization of CBDM and Robert's Rules of Order.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We provide reading sets and support in organizing and setting up meetings. We try to make sure new meetings are known about. We have had struggles having a trusted servant stay in the FD position, so it is a struggle sometimes.
 Describe what kind of planning your region and/or its areas utilize.
We have time for subcommittees to meet and plan prior to our regional business meeting. Some groups and areas conduct group and service body inventories.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We have had good results using Owl video conferencing systems for hybrid regional business meetings and conducting workshops.**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We conduct PR for professionals presentations, have materials for tables at events such as the state fair, conferences, etc. Our regional phoneline is headed up by the PR committee. Areas in the region reach out locally to provide pull tab flyers, bus bench advertisements, and phoneline info on city busses.

Please provide the URLs for the social media that your region is responsible for:

Our region only utilizes a website: www.nebraskana.org

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **1** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, For the interim conference, we presented 3 CAR workshops in the region. They had varied attendance ranging from 3 to about 10. For the 2026 WSC, we have done 2 workshops thus far. Attendance at the first one was about 20 members. The second had approximately 40 members in attendance.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per member

Does your region discuss the parts of the CAR not related to motions? **Yes, The delegate team always attempts to engage members in discussions about IDTs and other pieces of the CAR, especially the input and survey opportunities. These efforts are met with sometimes meaningful conversation. Sometimes there is not much enthusiasm.**

Does your region engage in gathering a conscience for CAT material? **. Yes, We do much the same as for CAR motions. We offer individual members, groups, and areas chances to vote and give input. We also ask for input from the regional service body, especially when no clear consensus is found on motions.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Gender neutral and inclusive language seems to be a divisive issue. There have also been quite a few questions about the financial impact of the WCNA in DC. There also seems to be quite a bit of interest in what is happening to get NA literature to incarcerated folks, whether by tablet or hard copy books. There are also questions about the financial operations of NAWS and wondering if literature profit is used in the most responsible ways. Our region also cares greatly about H&I and the resources available to do good work in that area.

Please describe the most significant challenge your region has faced since WSC 2023.

Getting members to step up and take service positions. We also had our largest area split into two separate areas, which is not a bad thing, but does change some dynamics. Some areas have expressed having trouble having members who sponsor newcomers. Specifically, they feel there is a lack of females with significant clean time willing to sponsor.

What additional information would you like to share with other conference participants?

Our region's participation in the Plains States Zonal Forum has been wonderful. It seems that our regional service committee has really seen the benefit of zonal support. We do a great job of sharing resources and making sure members get a chance to learn about and serve on the zonal level. This has been done through financial support of the delegate team to attend zonal meetings, contributing financially to zone, education about what the zone does, and participating in opportunities to give input towards the NAWS strategic plan.

Project Based Workgroups Translations Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Yes, some of our areas use consensus-based decision making (CBDM) to reach decisions. Proposals are discussed openly; concerns are addressed and general agreement sought before decisions are finalized. This process ensures inclusivity, transparency, and that outcomes reflect the collective conscience of the members.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Yes, we have only FD and Women FD committees our structure. These efforts include supporting new and existing areas, sharing information within local communities, and providing guidance to areas on service structure and recovery resources. Our region has an FD committee that coordinates these activities. Communicate with areas and assists in establishing new groups and area to ensure the growth and accessibility of Narcotics Anonymous.

Nepal Region

WSC 2026 Regional Reports

Describe what kind of planning your region and/or its areas utilize.

Our region and its areas utilize structured service planning to support recovery and fellowship growth. Planning typically includes setting annual goals, reviewing group and area needs, prioritizing activities such as workshops, FD efforts, and service projects, and coordinating resources to achieve these goals. Regular meetings allow members to evaluate progress, adjust plans as needed, and ensure alignment with the region's overall service objectives.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **no**

Please describe the different types of public relations efforts (PR/PI) carried out in your region. **no**

Please provide the URLs for the social media that your region is responsible for:

<https://www.facebook.com/NaNepalRegion>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Yes, our region conducts CAR workshops to inform members about the Conference Agenda Report and upcoming motions.**

Typically, we conduct 1-2 CAR workshops per conference cycle. The average attendance ranges from 100 to 150 members, including GSRs, trusted servants, and interested members. These workshops provide an opportunity for discussion, clarification, and informed group conscience prior to the World Service Conference.

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by GSRs at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material?**No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

virtual NA meeting

Please describe the most significant challenge your region has faced since WSC 2023.

na.org sites is blocked by Nepal Government .

What additional information would you like to share with other conference participants?

Our region is currently discussing an increase in local literature prices in order to generate additional funds and strengthen our financial sustainability. For many years, we have gratefully received free literature support, and we are now working toward greater self-support and increased contribution to NA World Services. This step reflects our commitment to financial responsibility and participation in the worldwide fellowship.

 How many times a year does your RSC meet virtually? **3**
 What committees or workgroups do you have at your RSC?
Conventions/Events FD/Outreach H&I Phonenumber PR/PI Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Our region has recently begun exploring new approaches to practicing Consensus-Based Decision-Making (CBDM). As with any transition, we are experiencing some early growing pains as members adapt to new processes and ways of working together. While progress has taken a bit longer than we initially anticipated, we remain hopeful and encouraged. We recognize that this learning period is helping us build a stronger foundation for collaboration, communication, and spiritual decision-making moving forward.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The New England Region Narcotics Anonymous (NERNA) Fellowship Development (FD) Committee supports the growth, unity, and effectiveness of NA service across the region. The committee focuses on helping areas and groups strengthen their local service efforts by providing resources, training, and collaboration

opportunities. FD often works on projects such as outreach to emerging or struggling communities, supporting new meetings or areas, sharing best practices, coordinating workshops, and helping trusted servants develop skills to better serve the fellowship. Its work is guided by spiritual principles, regional priorities, and the goal of carrying the NA message more effectively throughout the region.

Describe what kind of planning your region and/or its areas utilize.

We are exploring strategic planning and are excited for our first session in July.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We have been working to establish a hybrid option for our regional assembly and other service meetings, and we hope to extend this to our RSC in the near future.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

In NERNA, Public Relations (PR) typically includes several service efforts that help carry the NA message to the public and professional communities. In most cycles, this work is organized around areas such as:

Phoneline / Helpline support - maintaining regional call and text access to meeting information and support.

Website & meeting search - managing regional web content, calendars, and links to area resources.

Professional & community outreach - presentations to treatment providers, schools, courts, healthcare, and community partners.

Public information materials - literature racks, posters, event tables, and resource distribution.

Media & digital presence - social media guidance, event announcements, and public-facing communication (where applicable).

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We support our member areas and have hosted five local CAR workshops so far, with plans for more. Average attendance is approximately 20 members. We also held a Regional Assembly and had an attendance of about 35. We are workshopping the CAR Survey, two discussion questions, and the "Central Question."**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

New England

WSC 2026 Regional Reports

Does your region discuss the parts of the CAR not related to motions? **Yes, We hosted multiple workshops and facilitated discussions focused on the survey, discussion questions, literature pricing, and preparation for the 2029-2032 planning cycle. These sessions encouraged member participation, shared understanding, and thoughtful input to help inform future planning and service delivery.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Over the last three years, the subjects generating the most interest and discussion at the regional level have centered on fellowship development and participation, public relations, and conventions. Many Areas noted strong engagement around Informational Discussion Topics (IDTs), presentations from Region to Areas, and questions about how to better support local service bodies. Additional topics that sparked discussion included Medication-Assisted Treatment (MAT), shortages of trusted servants, Area Service Committee scheduling and accessibility, and concerns about maintaining fidelity to NA's message in language and graphics. Financial matters-particularly spending plans, travel costs, and accommodations-also generated significant discussion, reflecting broader concerns about sustainability and participation in service.

Please describe the most significant challenge your region has faced since WSC 2023.

The most significant challenge faced by Areas over the last three years has been declining participation in service, particularly at the Area Service Committee and subcommittee levels. Many Areas reported difficulty engaging trusted servants, low GSR attendance, and a lack of mentorship to support members stepping into service roles. These challenges have been compounded by post-COVID shifts toward online meetings, reduced in-person attendance, and the need to balance accessibility with effective service delivery. Several Areas also identified financial and treasury transitions, convention-related challenges, and maintaining an atmosphere of recovery at the group level as ongoing concerns. Despite these difficulties, many Areas expressed cautious optimism, noting gradual improvement in participation and a renewed focus on rebuilding strong, supportive service structures.

What additional information would you like to share with other conference participants?

Our region remains committed to strengthening unity, improving service delivery, and embracing thoughtful innovation to better support our fellowship. We are grateful for the opportunity to serve, to learn from other regions, and to collaborate in carrying the NA message more effectively together.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **4** How many were virtual events? **3**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We created the CAR Office together with the Brazilian Region and we had 25 servers**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per area

Does your region discuss the parts of the CAR not related to motions? **Yes, We ask that all the ASCs look for the topics of discussion proposed, so that at the next meeting, we can know how our community observes each issue.**

Does your region engage in gathering a conscience for CAT material? **..Yes, The CAT workshop will be realized as areas after the transmission of the Regional Report: We held the CAT Workshop for delegates on the 24th; consequently, there was insufficient time to replicate the training for the respective areas.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

As a delegate, I still say regarding the direction of the Region's group consciousness, what has caught my attention most is the desire, exemplified more clearly in the Drug Substitution Program and in the Damage Reduction Program

Please describe the most significant challenge your region has faced since WSC 2023.

The greatest challenge faced since the last convention was keeping services active and unified, as the most developed community in the region established a new region.

What additional information would you like to share with other conference participants?

The greatest challenge faced since the last convention was keeping services active and unified, as the most developed community in the region established a new region.

 How many times a year does your RSC meet virtually? **0**
 What committees or workgroups do you have at your RSC?
Phoneline PR/PI Project Based Workgroups Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **No**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Our newest area operates using a project-based structure and CBDM. It has been working well for them so far, they are about to begin their first full strategic planning process for the next service year.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No
 Describe what kind of planning your region and/or its areas utilize.
Our region does not actively engage in planning beyond budgeting. Some of our areas utilize a strategic planning process spread across multiple special area meetings.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We have been quite successful utilizing our hybrid format at RSC meetings to increase attendance from more distant areas.**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Our PR subcommittee attends local conferences, is working to do presentations for a large organization that provides crisis intervention team officers, and has made strides to have NA information presented to correctional/reintegration systems as well as including relevant materials in release information packets. Our region is also working with the Southeastern Zonal Forum on rolling out a PR newsletter that will be regularly distributed to interested professionals.

Please provide the URLs for the social media that your region is responsible for:

n/a

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We have hosted 4 virtual CAR workshops and 1 in person workshop. The determination for most workshops about in person or virtual is made by a hosting ASC, with 2 workshops being hosted virtually by the RSC. We have had good participation relative to overall regional interest with varying attendance.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, All of our CAR workshops included time for the discussion questions and any additional information not already captured in IDT workshops will be submitted to World Services.**

Does your region engage in gathering a conscience for CAT material? **Yes, We typically have one virtual assembly to go over CAT motions and then gather a group tally on those motions. All of our groups vote via a Google form for both CAR and CAT motions, making voting easy and accessible to all groups statewide.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

The IDTs on gender-neutral language and DRT/MAT both generated a lot of discussion in our areas over the last cycle. There has also been increased interest in filling open service positions with varying success.

Please describe the most significant challenge your region has faced since WSC 2023.

We spent several months developing a new format of budget for the region and have made multiple overdue updates to our policy manual. Keeping participation us and consistent efforts towards projects has been a major challenge for us.

What additional information would you like to share with other conference participants?

We are grateful to be a part of the worldwide fellowship and for the continued opportunity to be of service and help carry the NA message.

 Which of these workgroups/committees are new since WSC 2023?
Other
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **It works quite well. We mix a little bit of Robert's Rules in to help maintain some semblance of structure.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We respond to travel requests from our Areas for presentations and workshops on a variety of subjects
 Describe what kind of planning your region and/or its areas utilize.
we base our annual strategic plans on our inventory results. Those inventories happen annually
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them.
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Our Regional PI attends any and all Professional events it can. The Regional committee provides a sharing forum in conjunction with H&I virtually with the Area committees every other month

Please provide the URLs for the social media that your region is responsible for:

Facebook by invitation only

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **3** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, we have a total of four workshops and allow and encourage our RCMs to be knowledgeable enough to hold workshops at their ASC. Attendance varies from a high of 60 or so down to 20**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per member

Does your region discuss the parts of the CAR not related to motions? **Yes, We discuss the CAR in general at the RSC when it comes out**

Does your region engage in gathering a conscience for CAT material?**No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

DRT/MAT and gender neutral seem to be the hot topics

Please describe the most significant challenge your region has faced since WSC 2023.

I feel the most significant challenge is getting members with service experience involved again. There seems to be an element of "service immaturity" that could be alleviated by older members getting involved again

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 4 workshops, 15 attendance**

Which method does your community use to reach a conscience on the CAR?

Other tally - RCMs collect votes - one per group before voting at the RSC meeting

Does your region discuss the parts of the CAR not related to motions? **Yes, The RD holds webinars and workshops at the RSC meeting**

Does your region engage in gathering a conscience for CAT material? **Yes, RCMs are asked to discuss material and bring conscience to the RSC**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Dealing with disruptive and predatory behavior

Please describe the most significant challenge your region has faced since WSC 2023.

The biggest and oldest area decided to join another Region. It was one of the areas in the Metropolis that has their Region. By this they united with other areas in the Metropolis, so it was good for NA as a whole. But our Region lost a huge source of donations (funds) and human resources.

What additional information would you like to share with other conference participants?

The distance between the most distant groups is more than 2000 km, part of the groups are in the far north part of the region, in another country in Europe (Estonia). All this creates certain problems, this is the specifics of the service - expensive delivery of literature, low budgets, subsidized areas. But at the same time, we have the best FD in the world.

Facts about: Norway

Name of Regional Delegate **Dag T**
 Have you attended an in-person WSC before? How many? **Yes, 1**

 Does your RSC meeting use CBDM to reach decisions? **No**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Fairly well, sometimes with heated discussions.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We have used Fellowship Development to assist groups with needs and help them with Traditions. In the past the Outreach sub-committee in one of our member areas has sponsored "Meeting of the Month" complete with service panel and pizza party. At this time, they are visiting meetings that are struggling to participate with area and pushing "Banner Wars" (capture the flag) to encourage intergroup participation. Several areas have held or are planning to hold "Learning Day" events directed at new GSR's.
 Describe what kind of planning your region and/or its areas utilize.
Planning happens on an as-needed basis and is typically conducted by ad hoc committees. At least one area has a Local Services Committee (LSC) that meets

separately from ASC that includes their H&I, PR, Outreach, Flyers, Phoneline, and Website coordinators. The LSC chair reports to the area.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Our RSC and some of our ASC's are meeting hybrid, although in-person participants are not always able to see those attending virtually. We've also had success in conducting H&I panels over Zoom. This has enabled us to seek help from members who live in other jurisdictions.**

Also, our region is looking into the use of technology to significantly reduce the cost associated with phone line services for both the region and its areas.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

PR conducts poster drives and works with community service organizations & outside agencies. Our region and some of our areas have professionally made signage, both table-top and stand-alone, and attend a number of resource and health fairs and overdose/addiction awareness events. We provide meeting schedules to local service providers and are exploring other ways of providing meeting information to them such as the use of signage with a QR code, directing users to local area websites, in lieu of printed meeting schedules.

Please provide the URLs for the social media that your region is responsible for:

naohio.org

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **3** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Our region conducted a brief CAR workshop as part of our last RSC meeting with app.**

25-30 members from 13 areas in attendance. Some areas have hosted their own local workshops - some at ASC meetings and some as separate events with varying levels of attendance.

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per Area

Does your region discuss the parts of the CAR not related to motions? **Yes, We allowed members to join Zoom and review Motions and Tally sheets to take back to their home groups and bring them to our area meeting the month before our regional meeting.**

Does your region engage in gathering a conscience for CAT material? **.. Yes, We plan to discuss CAT material at our next RSC meeting.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

There is always a lot of discussion about DRT/MAT. Many wish the World Board would take a position and state that our Fellowship's policy is that members who are

taking non-essential, mood-altering, addictive drugs are not "clean". They are members and welcome to attend, but some forms of service, speaking, and sponsoring are reserved for our members who are "clean".

Please describe the most significant challenge your region has faced since WSC 2023.

Probably the most significant challenge facing our region has been the rising cost of services - in particular, providing liability insurance coverage for NA meetings & events throughout the region and operation of our regional "helpline" phone service. Our region is looking into the use of technology to significantly reduce the cost associated with phone line services for both the region and its areas.

The most significant challenge faced by one area is handling the large number of newcomers from treatment facilities & recovery houses at meetings - averaging 100-200 people at many meetings. This area has lost the use of several venues because of the impact these numbers have on the facilities. When they've attempted to place a limit on the number of attendees (as directed by the venues fire code capacity), the meetings end up primarily newcomers arriving early in the treatment vans, leaving experienced members unable to attend.

Another area had an apex predator attending meetings. This individual single-handedly did more damage than anything they had ever experienced - selling drugs in meetings and roping newcomers into human trafficking. Local treatment centers stopped bringing their clients to NA because of this individual's presence. Meetings that used to average 45-50 people are now down to 2-5 attendees. When our founding member set our policy that we don't exclude or ban anyone from our meetings, they could not have imagined what our society has devolved into. The time has come to re-examine our policy that everyone is welcome. It's one of the beautiful things about virtual meetings. If people enter a meeting for the purpose of disrupting it, we throw them out.

Another challenge is that many banks seem baffled by our annual turnover of trusted servants and how to manage changing signatories.

What additional information would you like to share with other conference participants?

We were very glad to see the information pamphlet, "Staying Clean in Isolation" updated. We would like to see other existing IP's updated as it's embarrassing to hold literature study meetings and have outdated information in the IP's.

Many do not want our Worldwide Fellowship to alter our literature to pacify populations who comprise a very small percentage of our membership, such as LGBTQ or atheist/agnostic members. Perhaps an IP or booklet could be written to address the concerns of such members, but we do not want to see our existing, foundational recovery literature altered.

 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **For our regional service body, it has worked well for many years.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The OK Region has a standing FD Committee which meets 6 times a year, during the morning of the regular RSC meeting, Current efforts include: 1) Supplying, monitoring and stocking literature racks in all State/Region wide pardon & parole offices, 2) Hosting a weekly virtual recovery meeting, Oklahoma Connection, which also has a "secondary purpose" of attempting to reach and serve members and meeting in rural, isolated and underserved communities. 3) over the past few years our FD committee has attended a Re-entry fair at state prisons and has manned a booth and provided IPs and meeting lists, however this will like end with very few others showing up now that you cannot bring paper in. 4) we did a PR for professionals presentation

before a plains state zonal meeting in Oklahoma City and garnered good feedback and some participation from counselors and state corrections staff.

Describe what kind of planning your region and/or its areas utilize.

The OK Region underwent an inventory this past cycle which led several improvements on communication and us to start the virtual Oklahoma Connection meeting. Much of our planning involves committees for the 4 events that we host each year. They are our Regional Convention, OKRCNA, the Clean & Crazy Campout, the Fall Spiritual Retreat and the General Service Assembly.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **While not necessarily new or cutting edge, we do utilize technology to provide virtual & hybrid RSC meetings, and two of our three Areas have hybrid ASC meetings.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Services are provided as stated above through our FD committee.

Please provide the URLs for the social media that your region is responsible for:

<https://www.facebook.com/profile.php?id=61562975710938>

We also have an Instagram, but I do not have the URL.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We recently held our General Service Assembly, to which each Group in the OK Region receives one free registration, with additional registrations costing \$35.00. Registrations include 5 meals and two nights lodging at a retreat facility. This year the event was held January 30 - February 1 with the Delegate Team presenting all of the CAR ppt presentations and also providing an overview of the CAT since it was available earlier than expected. Due to weather concerns, attendance was less than the last several years. Forty-one members attended, including representative from 23 different groups. We also provide synopsis handouts with QR code links to the complete CAR, CAT and an easy-to-use survey/form which can be used to submit votes in lieu of the tally sheet if they like,**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, This cycle we have discussed all of the ppt presentations, including the discussions regarding gender-neutral language in NA literature and DRT/MAT.**

Does your region engage in gathering a conscience for CAT material?**Yes, With generally only minimal response to the CAT, during follow-ups with members and groups, the Delegate Team encourages voting on both CAR & CAT motions, We also make ourselves available to provide in-person or virtual workshops of the material upon requ**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

DRT/MAT

Please describe the most significant challenge your region has faced since WSC 2023.

No major challenges but filling service positions continues to be a challenge.

What additional information would you like to share with other conference participants?

Although we have a slight dip in number of meetings, the number of addicts in the meetings is growing.

Facts about: Ontario

Name of Regional Delegate **Genina Artuso**
 Have you attended an in-person WSC before? How many? **Yes, 6**
 Did you attend the 2023 WSC? **No** Interim 2025 WSC? **No**
 Name of Alternate Delegate **Dean Ward**
 Have you attended an in-person WSC before? How many? **Yes, 2**
 Did you attend the virtual 2023 or interim 2025 WSC? **Yes Yes**
 How many areas are in the region? **19**
 Are any of these areas composed entirely of virtual groups? **No** How many?

 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions?
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **It is being introduced very slowly in areas by having a CBDM workshop. It's being used for making minor decisions.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We have a FD structure that has trickled down to the areas PR & HI. Our workshops are very AdHoc, nimble in that when there is a request, we assist with materials and facilitators.
PR has initiated bringing all areas' PR Chairs together to share different initiatives and presentations that are used in respective areas.
The H&I regional committee has not been used successfully as a workgroup, as each Area attends to and organizes its own H&I (36) facilities that it visits.

Regional Newcomer Meeting continues to host a 30-minute newcomer meeting each Monday at 7 PM, which consists of an intro to the basics of NA, 2 speakers and a Q&A session.

Regional Helpline Wkgrp responds to calls from addicts and the general public.

Regional Accessibility Advisory Wkgrp has heightened awareness for accessibility for handicapped members, which has been implemented across all our areas' meeting spaces, conventions and events. We have a CI table with Barille Keytags and BT with 1-2 tables sitting at the table to answer questions at conventions.

Regional PR Social Media Wkgrp is responsible for monitoring and updating the FB account.

Mentorship database volunteer wkgrp continues to provide service mentorship to newer members.

Area PR day online

Describe what kind of planning your region and/or its areas utilize.

The region holds one weekend planning meeting a year, which takes place at our July rotating regional meeting, in a different area each year.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We now use Google Workspace. Every area, trusted servant, and committee has its own Gmail address, and all data is centralized in our**

Google space. We just switched to Google Meet instead of keeping the Zoom platform.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Reaching out to governmental agencies, and continuing to reach out to the medical profession, therapists, social workers, psychologists and Nurse Health program (Nurse Practitioner)

Please provide the URLs for the social media that your region is responsible for:

Regional website: <https://orscna.org>

Convention: <https://www.orcna.ca>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **3** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 3 CAR workshops - they were very well attended, totalling approx 100,**

A big Thank You!! The partnership and collaborations with the CP, WB, and NAWs staff did such an excellent presentation of the CAR videos and ppt, that it wasn't necessary to attend all in-person area meetings, as our region did in the past. Virtual helped a lot, and we were always available as a resource

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per Area

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material?**No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Gender-Neutral and Inclusive Language

DRT/MAT in NA

Please describe the most significant challenge your region has faced since WSC 2023.

Lack of proper communication via email makes it difficult to connect immediately and get a quick response. We haven't implemented the use of a chat app, as it would be easier to keep connected and more easily communicate with requests, new info, ideas etc.

Some short-term commitments, 1 yr, where a member leaves when the term is up, and there's no follow-up contact info on how to reach out to any other member in that area, because no one is responding to the emails.

What additional information would you like to share with other conference participants?

Our Region voted to split the RD position into two separate positions because of the heavy workload.

We split the duties and believe it will be a more attractive position for a future member be interested in. It was hard for people to take on the time commitment, plus the length of service.

We are now on a 3-year cycle for both of these service positions.

New Positions: CANA REP/ALT CANA REP team to attend all the virtual and in-person Zonal meetings of the Canadian Assembly Zone.

The RD team will attend all the virtual and in-person WSC meetings.

Facts about: Panama Region

 Which of these workgroups/committees are new since WSC 2023?
Project Based Workgroups
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **We try to set an example during RSC meetings. Areas follow the example of the Region. It works very well.**
H&I panels take place:
86 is the whole number of the panels. Some of them take place weekly (in big cities) some twice a month. There are also few that are held monthly.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The FD is responsible for organising workshops for groups. It supports both the groups and the committees by preparing workshops and providing materials and knowledge about the NA Fellowship.
 Describe what kind of planning your region and/or its areas utilize.

Our region follows an annual event schedule, which is established at the beginning of each year by the Coordinating Committee. Once a year, in November, we determine the budget for the upcoming year. The regional committees operate based on established plans, which are regularly updated during their ongoing meetings.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **This year, for the first time, we are streaming the workshops from the Group Assembly. We also use AI to translate CAR motions and other English-language materials, which significantly shortens the processing time and makes the committee's work easier.**

We are also working on developing a nationwide database of professionals, with AI supporting this process as well. Some of our PI/PR presentations are conducted online, which helps us reach remote and hard-to-access locations.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Our region has been present at numerous music festivals and events, including Pol'and'Rock Festival, Slot Art Festival, and the Antoniów Festival. We also conducted presentations for professionals, including a session at the University of Warsaw for psychology students, as well as trainings for court probation officers in Toruń and Kraków. Additionally, we cooperated with the Polish Armed Forces - specifically the Military Police - by delivering a presentation at their invitation.

We organised presentations for secondary school students, hosted a booth at a tournament for people staying in homeless shelters, and delivered two presentations in correctional facilities. We also took part in Sobriety Days in Częstochowa and Licheń, and prepared numerous presentations for professionals at the areas level.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Regional Delegates organized online workshops for Area Delegates. Later, we ran the same workshop during the Groups Assembly (GA). The GA is an event focused on service, where we hold many workshops. Everyone is welcome, especially Group Delegates.**

average attendance on online was 20 participants

in person workshops gathered around 100 people

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by GSRs at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes,**

Does your region engage in gathering a conscience for CAT material?**Yes, Regional Delegates organized online workshops for Area Delegates. Later, we ran the same workshop**

during the Groups Assembly (GA). The GA is an event focused on service, where we hold many workshops. Everyone is welcome, especially Group Delegates.

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

At the last conference, one of the main topics was funding. We faced administrative issues with the financial reporting of the foundation's activities. These problems forced us to seek assistance from professionals, which cost our region a significant amount of money. This initiated a discussion about where to obtain financial resources, where to look for savings, and how to manage the budget more effectively.

Another topic that came up at one of the regional service conferences was the organisation of an LGBTQ+ gathering in Paris and participation in the march during the Pride Parade.

Please describe the most significant challenge your region has faced since WSC 2023.

At the last conference, one of the main topics was funding. We faced administrative issues related to the financial reporting of the foundation's activities. These problems forced us to seek help from professionals, which cost our region a significant amount of money. This initiated a broader discussion about where to obtain financial resources, where to look for savings, and how to manage the budget more effectively.

What additional information would you like to share with other conference participants?

Our region is developing very dynamically. We operate mainly in Poland, but also in the UK and Western Europe. Over the past year, we have filled all service positions in the region. We also maintain regular contact with our sponsoring region - Sweden, whose representatives visited us during the Group Assembly.

Our region also strives to support the Czech and Slovak Region through workshops and online meetings, during which we share our experience, strength, and hope.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 1 recent workshop with an influx of 41 members**

Which method does your community use to reach a conscience on the CAR?

Other - It lies at the delegate's discretion, though there is a strong regional consensus regarding the motions. The delegate's freedom is confined to matters of procedure during the conference.

Does your region discuss the parts of the CAR not related to motions? **Yes, The questions were presented for informational purposes and to gauge general trends.**

Does your region engage in gathering a conscience for CAT material? **Yes, It is being prepared for the coming weeks, in the same format as the previous one—that is, online—with questionnaires designed to gather trends.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

A language neutral in terms of gender, because it is a very sensitive subject that the Region accredits to be a loss of time, even though there are other priorities.

Please describe the most significant challenge your region has faced since WSC 2023.

The regional inventory we conducted in Cabo last December had high participation, and involved enough members to identify improvement points and provide very useful information

 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Our region, like the vast majority of RSCs, now operates by consensus. Since adopting this participatory approach, we find it difficult to envision reverting to a decision-making model based on the 50 + 1 principle under Robert's Rules of Order. We see consensus as a more spiritual and inclusive process, one that is better aligned with our values.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?

Yes, Context:

In 2020, a working group dedicated to the fellowship development was established.

Very quickly, the group focused on development activities without first establishing a clear operating method, which led to several difficulties. After approximately two years,

and in the absence of established guidelines, we decided to attach the RFD to the Regional Public Relations Subcommittee (RPRS).

However, due to its growth, the RPRS requested after a few months that development no longer fall under its mandate. Trust in the development team was already fragile, notably because the individuals in office had repeatedly violated regional guidelines. The lack of a precise framework, the instability of the fellowship development's position within the service structure, and the novelty of the mandate all contributed to diminishing the RSC's confidence in the individuals.

As a result, a consensus was reached: development will become a fully-fledged subcommittee, reporting directly to the CSR.

In 2023-2024, the Regional Fellowship Development Subcommittee (RFDS) went through a period of reflection and reassessment, marked by a need for clarity regarding its vision,

its purpose, and its practices, as well as by the absence of fully defined guiding principles and guidelines. A clarification and realignment process has just been completed.

The adoption of a vision, a mission, values, guiding principles and guidelines is one of the cornerstones of this process!

Here is the vision that was adopted:

All efforts of Narcotics Anonymous are inspired by the primary purpose of our groups. On this common ground, we remain committed.

Our vision is that one day all members will have access to the knowledge, values, and experiences of the Fellowship, in order to foster, strengthen, and anchor a deep sense of belonging. We pool our resources and strengths so that as many of us as possible may be inspired by our primary purpose and by the power of unity in Narcotics Anonymous. The RFDS vision is directly inspired by our First Tradition, which reminds us that unity and our sense of belonging are essential to our personal and collective recovery. It seeks to ensure that every member has access to what nurtures connection to the WE: the knowledge, values, experiences, and understanding of the service structure - the very force that has enabled Narcotics Anonymous to grow throughout the world.

With this vision, a mission as well as values and guiding principles were adopted.

During the reorganization process, the Development Subcommittee was temporarily suspended, and since the completion of the work last November, the officer positions of this subcommittee have remained vacant.

Describe what kind of planning your region and/or its areas utilize.

At the regional level, every 3 years we organize a strategic planning day where all members are invited to participate, and everyone has the opportunity to speak during the workshops.

The three priorities of our last regional strategic plan were:

1. Strengthening unity and fostering a welcoming atmosphere
2. Making service more attractive and engaging
3. Realigning and reactivating the Fellowship Development Subcommittee, putting it back on track with a clearer direction

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Our Technology Subcommittee has developed tutorials to support members in using technology in their service roles. It is also responsible for maintaining the regional website, which was recently redesigned. In addition, the committee manages service email accounts and system updates, and provides technical support to trusted servants.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

A picture is worth a thousand words. Here is a short video (in French) that powerfully reflects the passion and commitment of the Public Relations Subcommittee in Quebec.
<https://www.youtube.com/watch?v=N7jmJt3sthg>

In 2025, the regional Public Relations committee carried out projects totaling several hundred thousand dollars, with an annual budget of \$30,000. These accomplishments were made possible through the dedication of our trusted servants, who generously contribute human, spiritual, and financial resources. When combined in service of our regional vision, these shared strengths are truly invaluable.

We are very proud to present an overview of our 2025 achievements.

Beyond the images, the work of the Public Relations Subcommittee unfolds in close collaboration with all ASCs in the region - many of which have their own local subcommittees. We work collaboratively with all NA service bodies that are open to dialogue and partnership.

Among the significant milestones of the past year:

- **The production of official stamps for NA groups that issue attendance verifications to justice-involved individuals, helping strengthen NA's credibility and consistency in both public and judicial settings.**
- **The installation of promotional banners in the largest cities across Quebec.**
- **The creation of a 24-page professional brochure designed for frontline workers and institutional stakeholders who work with individuals struggling with addiction.**
- **Securing digital billboard visibility in the six largest cities in Canada - a coast-to-coast presence that was shared with the various regions of the Canadian Assembly.**
- **Television advertisements and other strategic media placements.**

These initiatives clearly reflect our commitment to increasing public understanding of Narcotics Anonymous and supporting groups in carrying the message of hope.

Furthermore, these actions inspire other subcommittees to step forward, contribute, and help broaden awareness of Narcotics Anonymous.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **6** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, one CAR workshops (50-60 persons) and one workshops on MAT to come for ASC delegates.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by RCMs at RSC meeting

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Disruptive and Predatory behaviors within our meetings. The lack of clarity regarding The vision and mission, The guidelines and The instability of our Fellowship Development subcommittee, which resulted in a loss of trust and confidence as well as challenges related to its realignment and repositioning.

Please describe the most significant challenge your region has faced since WSC 2023.

The lack of clarity regarding the vision and mission, the guidelines and the instability of our Fellowship Development subcommittee, which resulted in a loss of trust and confidence as well as challenges related to its realignment and repositioning.

"A lack of clear and consistent information, combined with a communication gap with NAWS, as well as a connection to CANA's mission that is poorly felt and misunderstood."

What additional information would you like to share with other conference participants?

The Unity Days 2025-2026, held continuously for 11-12 days, 24 hours a day, celebrated "Carrying a Message of Hope". From the December 23 to January 3 th Participants from France, Switzerland, Belgium, Indian Ocean, Ireland, Dominican Republic, Costa Rica, Cuba, Great Britain, United States, Vietnam, Bahamas, Israel, Latvia, Netherlands, Japan, and Canada joined. The event welcomed 80 newcomers, featured 117 speakers, and included 272 hours of meetings and activities. Key committees involved were H&I Quebec, the NA Helpline, and the Regional Service Committee, addressing service structure, consensus processes, and conduct issues.

QUEBEC REGION

WSC 2026 Regional Reports

The Gifts of Service Roundtable, held in 2025, aimed to inspire enthusiasm for service, encourage replication across Areas, and foster a renewed appreciation and perception of service. The one-day event brought together 40-50 members representing four decades of service, at both group and regional levels, who shared personal and collective experiences through small-group workshops and large-group feedback sessions. Based on insights from the roundtable, the QRSCNA is developing practical tools to make service more appealing. Overall, the roundtable strengthened participation, reignited service enthusiasm, and highlighted the vital role of service in individual recovery, spiritual growth, group health, and the vitality of the Fellowship.

Facts about: Quisqueyana (Dominican Republic)

Name of Regional Delegate **Rafael Martín Pereyra**
 Have you attended an in-person WSC before? How many? **Yes, 2**
 Did you attend the 2023 WSC? **Yes** Interim 2025 WSC? **Yes**
 Name of Alternate Delegate **José Luis Abreu**
 Have you attended an in-person WSC before? How many? **Yes, 1**
 Did you attend the virtual 2023 or interim 2025 WSC? **No No**
 How many areas are in the region? **6**
 Are any of these areas composed entirely of virtual groups? **No** How many?
 How many meetings take place each week in the region? **190**
 How many are in person? **146** How many are virtual? **44** How many are hybrid? **0**
 How many H&I panels each week in the region:
 How many are in person? **11** How many are virtual? **0** How many are hybrid? **0**
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Staying the same**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **12**

Has your region hosted CAR workshops? **No**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by RCMs at RSC meeting

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? ...**Yes, Motions concerning the development of new literature.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Instruct the World Board to develop a project plan, to be submitted for consideration at the next WSC (World Service Conference), to investigate changes and/or additional wording in NA literature, moving from gender-distinctive language to neutral and inclusive language.

Please describe the most significant challenge your region has faced since WSC 2023.

There is a constant need to strengthen the Public Information (PI) and Hospitals and Institutions (H and I) subcommittees so that Dominican society and health institutions recognize NA as a viable resource, distinct from other programs, thus confronting the social stigma surrounding addiction in the country. The main challenge is revitalizing local service to ensure that, despite technological and economic changes, addicts still suffering in any corner of the Dominican Republic can find open meetings and available literature. There is difficulty in funding delegate participation in zonal forums or the WSC. Regional subcommittees (PI, H and I) in some areas are operating at half capacity or are inactive. Area Service Meetings (ASCs) have low attendance, weakening communication with the Region.

What additional information would you like to share with other conference participants?

disconnect has developed where groups operate in isolation. As the flow of money and volunteers to the Region decreases, the group focuses only on its own survival (paying rent, coffee). When groups fail to attract new members to service, the burden falls on the same "long-standing volunteers." Older volunteers burn out and retire; new members see service as a heavy and stressful burden rather than a vital part of their recovery. This creates a leadership vacuum that hinders turnover (the 4th Tradition at risk). There is a

real difficulty in conveying that service is a tool for developing the fellowship. Without service training, new members don't feel called to get involved in regional subcommittees (like PI or H and I), which reduces NA's visibility in Dominican society and, consequently, results in fewer new members joining the groups. The Quisqueyan Region faces the challenge today of re-engaging members with service. It's not just about money; it's the lack of "willingness" to take the message beyond the group's doorstep. If new members don't join the groups, the message becomes recycled.

Facts about: Red River Region*

Name of Regional Delegate **Billy Foster**

 Which of these workgroups/committees are new since WSC 2023?
Website
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **First we ask if there are any objections, if there are none then the motion is passed. If there are objections, then we discuss it and if all objections are answered then we move on, but if the discussion continues with no clear consensus, then the item is usually tabled until the next meeting to give time for the body to continue the discussion to try and reach a true conscience of the body, either for or against.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We have a single point of accountability the visits all the groups in the Area/Region helped by a workgroup. They keep all the groups feeling connected and also provide IP's, key tags, and literature to the groups if they are in need.
 Describe what kind of planning your region and/or its areas utilize.

We try to follow the Basic Planning Tool and rely on project work groups to get the job done.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We are just starting to utilize technology, but we are seeing already the positive effects of its use in meetings.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We are primarily setting up booths at local events and some flyer posting days.

Please provide the URLs for the social media that your region is responsible for:

WWW.RedRiverNA.com, but the transition is not yet complete.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Since our Region only has one area it's usually done at our committee meeting with options for the groups have one if they want us to do a presentation.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per member

Does your region discuss the parts of the CAR not related to motions? **Yes, It's done along with the motions. We discuss everything all together.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

I think how often to have the world convention.

Please describe the most significant challenge your region has faced since WSC 2023.

The collapse of two of our areas. We weren't doing a good enough job at keeping in contact with the groups in those areas and began to make them feel alienated when they couldn't make it to Area and Regional committee meetings in person. We should have been more open to technology to alleviate all the travel expenses and travel time.

What additional information would you like to share with other conference participants?

Our slow transition to the use of technology has hindered our ability stay connected and with that loss of connection groups start to feel isolated and alone then they stop participating and just like an addict alone is in bad company, a Group alone usually doesn't survive. We are now starting to embrace technology and are being more inviting and reaching out to these isolated meetings in our region and it's starting to pay off with the addition of 3 new groups. The next step is reforming the Areas that we used to exist.

Facts about: Region 10 Brazil*

Name of Regional Delegate **Jonas L.**
 Have you attended an in-person WSC before? How many? **Yes, 1**
 Did you attend the 2023 WSC? **Yes** Interim 2025 WSC? **Yes**
 Name of Alternate Delegate **Lucas B.**
 Have you attended an in-person WSC before? How many? **No**

 What committees or workgroups do you have at your RSC?
Conventions/Events FD/Outreach H&I Phonenumber PR/PI Regional Service Office Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **We adopt a culture of searching for consensus in our assumptions, and we open for voting only as attempts are exhausted.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Our region has a long effective reach with participation in all areas to understand the reality and difficulty of each person and to help in the best way. The Regional Outreach Planning Committee participates in meetings with Area Subcommittees to provide support. We participate in Local Action Forums, which assist in the development of the fellowship within the Areas.

Describe what kind of planning your region and/or its areas utilize.

We use regional planning of the cycle between RSC and ASCs with calendar of meetings defined and budget financial do cycle. This plan includes all service efforts and regional events, such as the Regional Services Forum and the Regional Convention. Furthermore, we are also looking for support in the areas of planning events and service efforts to better convey the message to the addict who is still suffering.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Yes, we have success with the use of some technologies to improve communication and efficiency of our services. We use a communication group via WhatsApp to facilitate rapid and direct contact between servers at all levels of service. In addition, we maintain an annual subscription to the Zoom platform, which allows us to hold virtual meetings consistently and maintain effective communication, regardless of geographic distances within our region, and we maintain all of our meeting records and reports available on the National website <https://abna.na.org.br/csr-10-brasil>.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

In our region, the efforts of Public Relations (RP) are varied and we seek to coordinate them in the best possible way. Solicitamos que as áreas nos informem sobre as atividades realizadas eo uso desse desse material, para que pomosmos acompanhar e apair o processo. We also have a manual of visual identity that helps us to maintain a standard in all of our arts, guaranteeing consistency and communication. We realize Regional Service Forums (in 2021 and 2023) and Regional Subcommittee Meetings (previously Local Action Forums), where we encourage the study of manuals, such as the Help Line, to strengthen our services. We develop specific projects, such as contact with health secretaries in some municipalities to better understand the local reality, subsequently delegating the follow-up to the respective departments. We also seek contact with authorities from diverse sectors, always with the support of local subcommittees. All of our areas actively participate in the World PR Weeks, performing diverse activities such as meetings of information or public, panels in forums and secretaries of health, pamphlets and collages of posters. Also, we are part of a state committee of PR together with other neighboring regions (HOW and Grande São Paulo), collaborating in state level services.

<https://abna.na.org.br/csr-10-brasil>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **10** How many were virtual events? **4**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We brought together interested members and group representatives for three in-person meetings, offering a learning opportunity while covering expenses for accommodation and meals.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, We study the CAR in full.**

Does your region engage in gathering a conscience for CAT material? **Yes, Yes, our region is striving to build a consensus regarding the CAT material. We try to explain everything in detail, and the process is facilitated by the use of documents translated by our Literature Translation Committee. We also receive and use a PowerPoint presentation translated from CAR/CAT to support our studies and discussions about these materials.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Matters related to the collaborative strategic plan.

Please describe the most significant challenge your region has faced since WSC 2023.

The challenges continue to maintain meetings of NA in distant communities and with low population density, many times we encounter challenges in maintaining the members interested in the issues that affect NA as a whole.

What additional information would you like to share with other conference participants?

We successfully met our proposed budget.

We fully executed our schedule of activities.

We were represented at all Nationalis events.

We successfully established communication with all regions of Brazil, as well as with the countries bordering our region — Bolivia and Paraguay.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Mapping the groups and areas of the region.
Outreach Development Meetings to identify needs and propose improvements.
Support to ASCs with presentations and rounds of conversation about service and strengthening of the structure.
Accessibility Project, with accessible meetings and discussion of the inclusion of an interpreter in the regional budget.
Incentive to update the data of groups on NA.org and BMLT.
Study of materials such as the Outreach Guide and IP 26 (Accessibility).
There is no separate committee of FD, but the activities are developed within Outreach.
Monthly meetings of Outreach for strategic planning.

Data collection from ASCs and BMLT to support decisions.

Discussions and presentations in regional meetings.

Planning based on the needs identified by the areas.

Integration of the regional budget.

Describe what kind of planning your region and/or its areas utilize.

A biennial plan for routine services and projects, subject to approval of the Budget Plan for the respective biennium. In our region, planning is understood as a spiritual and practical tool to fulfill our primordial purpose with responsibility and vision of the future. These encounters allow us to reflect, evaluate priorities and act in a coordinated way, avoiding isolated or improvised responses. This process helps us to understand the reality of the groups, their distribution, frequency and challenges, strengthening decision-making based on facts and not just perceptions. In this way, we ensure that the planning process is participatory and reflects the voice of the various departments.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **The promotion of paid content via Meta Business (Facebook and Instagram) has significantly increased public contacts in our LDA (only in 2025 we had more calls than in the 2023-2024 year).**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Actions for organizational strengthening and internal articulation: support for the 19 areas that make up the Region, support for the regional structure and the subcommittees, World Day of Service, Day of Unity, Semana Mundial de RP, support and implementation of the IP Digital Relatório, bimonthly regional meetings of the IP coordinators and leaders of the areas, "PI Caravan" for stimulation or service in the areas;
*** Efforts for public positioning, interinstitutional integration and strengthening of the image of the brotherhood: presentation of IP in public and private institutions, interviews on TV and radio, public meetings, Local Integration Forum (FIL) in unity with all the subcommittees that make up the Region; Fellowship Outreach: NA in Transit Project 2025-2026 (teles in transports, in elevators of commercial buildings, in lottery houses, outdoors, plaques on highways and roads, LED panels in strategic streets); e**

*** Digital Media: The Regional PR Subcommittee has a Media GS., responsible for the impulsion of content via Meta Business (Facebook and Instagram), production of graphic materials, creation of institutional videos - always integrated to the official site and to the visual identity manual.**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Since the announcement on December 3, 2025, we have scheduled—starting from that day— 06/12, 07 online meetings during the months of December 25 and January 26. We are invited for more 03 meetings in ASCs, being 02 in person and 01 online with two ASCs together. In addition to the motions that will be presented procedurally at the bimonthly ordinary meeting held on the final third of the week of January 2026, we will prepare the ASCs' votes at the same ordinary meeting held in March of 2026.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per area

Does your region discuss the parts of the CAR not related to motions? **Yes, Dasa 7 meetings that we realized online, we did 3 on days of the week that we addressed only as motions, and 4 on Saturdays in which we talked about all the issues of CAR, inclusive also with motions.**

Does your region engage in gathering a conscience for CAT material?**Yes, Considering that the CAT still wouldn't have been translated in a reasonable time by the previous WSCs, this time after the voting of the CAR in our ordinary meeting on March 26, we propose in this same ordinary meeting that we realize some online meetings to present and listen to the awareness of the servers of the region.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Gender-Neutral Language and Disturbing and Predatory Behavior

Please describe the most significant challenge your region has faced since WSC 2023.

Attract new servants to the region and area committees.

What additional information would you like to share with other conference participants?

May the motions regarding CAR and CAT be governed by a more effective framework—one that fosters greater convergence in their regulation, guided by Concepts 2 and 3. Furthermore, may the deliberation concerning the amendment to Tradition 11 be better regulated, independently of the research process.

Facts about: Rio Grande do Sul

 How many are in person? **6** How many are virtual? **0** How many are hybrid? **0**
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Growing**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **2**
 Are any of these meetings hybrid? **No** How many?
 How many times a year does your RSC meet virtually? **2**
 What committees or workgroups do you have at your RSC?
Conventions/Events H&I Phonenumber PR/PI Project Based Workgroups
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **No**
 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works:

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, We operate under an "umbrella" system in which all subcommittees function within the Regional Planning structure; through service forums, these subcommittees work toward the development of the Fellowship within our region.
 Describe what kind of planning your region and/or its areas utilize.
Planning for the entire three-year term—covering finances, services, and promotional materials.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Yes, the reach achieved with a low investment on Instagram and Facebook yields significant results. Paid Traffic.**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.

PR efforts: Disclosure in electronic panels, metro lines, buses, book fairs, football stadiums, radios, PI panels and universities. Days of learning, efforts of LA and border with Uruguay. Social media drives messaging and following addicts to support group meetings. An effective help line. The ASCs conduct the H&I panels. The RSC provides services and pamphlets to the ASCs and produces a list of regional groups.

Please provide the URLs for the social media that your region is responsible for:

<https://www.instagram.com/narcoticosanonimosrs/>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **1** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We conducted three workshops with the various departments.**

Additionally, we consistently hold the CAR workshop with all interested members — typically averaging between 60 and 80 participants.

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by individual members at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, The discussion topics for the cycle were amply debated within our community, alongside the literature reviews.**

Does your region engage in gathering a conscience for CAT material?**Yes, Specific meeting**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Discussion topics of the cycle

Please describe the most significant challenge your region has faced since WSC 2023.

The challenges were in all areas because it is our first wsc with direct access, but we managed to overcome all of them through many exchanges of experiences

What additional information would you like to share with other conference participants?

We believe that when we leave our ego outside and think only and exclusively with the Brotherhood, our growth is very accelerated.

 Which of these workgroups/committees are new since WSC 2023?
Other
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Not perfectly, but it works!**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Our Delegate Resource Team functions as FD, providing support to any group or area within the region. We also create service materials for our Region. We have an Outreach subcommittee that reaches out to the struggling groups/areas within our region and rallies support.
 Describe what kind of planning your region and/or its areas utilize.
We utilize the Planning Basics with an inventory and strategic planning.

Rio Grande Region

WSC 2026 Regional Reports

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We've been using technology to stretch across our geographically large region since 2015.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Our PR efforts are still slim, but they're here. We share best practices across areas and support in whatever ways we can.

Please provide the URLs for the social media that your region is responsible for:

<https://www.facebook.com/riogranderegionna>

<https://www.facebook.com/RGRCNA>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Average attendance is 5. We held 4 CAR workshops and will hold 4 more CAR/CAT workshops and 3 CAT workshops.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per member

Does your region discuss the parts of the CAR not related to motions? **Yes, We go through the entire CAR.**

Does your region engage in gathering a conscience for CAT material? **.Yes, We go through the entire CAT**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Gender Neutral language and Disruptive Behavior

Please describe the most significant challenge your region has faced since WSC 2023.

Lack of trusted servants to fill service positions.

What additional information would you like to share with other conference participants?

We have a truly bilingual convention (English/Spanish) and ASL - so we are trilingual!

Facts about: Romania*

Name of Regional Delegate **Botond**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the 2023 WSC? Interim 2025 WSC? **No**

 How many times a year does your RSC meet virtually? **0**
 What committees or workgroups do you have at your RSC?
Conventions/Events **Translations Website**
 Which of these workgroups/committees are new since WSC 2023?
Conventions/Events **Translations Website**
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works: **We don't have an area yet. The service structure is groups - regional delegate seated at the EDM Zonal Forum.**
We are on the process of building on our existing groups so those can elect and send GSRs which will form an Area.
We meet with people interested in service (which are not necessarily GSRs) only when we have to discuss issues which affect the whole fellowship.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, These efforts are provided by the EDM FD, we don't have our own committee to do this.
We do ongoing work with a task team provided by these people since 2022.
Lately they visited 2 of our cities and did service work together.

Describe what kind of planning your region and/or its areas utilize.

Dont have an area

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We updated our webpage to provide more information.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

PR workshops and additional help is provided by the EDM PR and FD committees. We don't have our own PR/PI committee yet.

Please provide the URLs for the social media that your region is responsible for:

narcoticii-anonimi.ro

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **1** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **No**

Which method does your community use to reach a conscience on the CAR?

Does your region discuss the parts of the CAR not related to motions?

Does your region engage in gathering a conscience for CAT material?

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Building our service structure

Hosting the Winter EDM Conference.

Translating the Basic Text into Romanian.

Please describe the most significant challenge your region has faced since WSC 2023.

Not having enough members to serve.

What additional information would you like to share with other conference participants?

We love them

Facts about: Rwanda*

Name of Regional Delegate **Makambira Coppens**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the 2023 WSC? Interim 2025 WSC? **No**
 Name of Alternate Delegate **Kasasa Ayubu**
 Have you attended an in-person WSC before? How many? **Yes, 1**
 Did you attend the virtual 2023 or interim 2025 WSC? **No No**
 How many areas are in the region? **1**
 Are any of these areas composed entirely of virtual groups? **No** How many?

 How many are in person? **1** How many are virtual? **0** How many are hybrid? **0**
 How many H&I panels each week in the region:
 How many are in person? **0** How many are virtual? **0** How many are hybrid? **0**
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Shrinking**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **1**
 Are any of these meetings hybrid? **no** How many?
 How many times a year does your RSC meet virtually? **0**
 What committees or workgroups do you have at your RSC?
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **So far our region has One area located in the capital city of Kigali and is made up of Two regular members and it is these Two members that reach decisions using Consensus Based Decision making process.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No, None are provided and they are badly needed by our region
 Describe what kind of planning your region and/or its areas utilize.
During our weekly meeting the RD and ARD discuss strategies to reach the addict that still suffers. So far the main achievement has been securing a reliable and permanent meeting venue. We are in the process of reaching out to fellow addicts and informing them about the weekly meetings.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We are in the process of getting help to establish an online Zoom meeting. Not yet succeeded at this.**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.

None so far.

Please provide the URLs for the social media that your region is responsible for:

None so far.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **0** How many were virtual events?

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **No**

Which method does your community use to reach a conscience on the CAR?

Delegate decisions to the RD/AD

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

A desperate need for FD workshop.

Please describe the most significant challenge your region has faced since WSC 2023.

lack of meeting meeting venue but this was eventually overcome and the other is a desperate need for FD workshop

What additional information would you like to share with other conference participants?

Our region has struggled and stagnated for a long time and simply needs some help in the for FD workshops.

Facts about: San Diego Imperial Counties

 Comments about how that works:

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Currently, Fellowship Development (FD) and Outreach are carried out through the Strategic Development Plan (SDP) of the SOSONA-India. The aim is to carry the message of hope by:
 1. **Reaching out to communities**
 2. **Connecting with loner groups and organizations**
 3. **Conveying the message of NA to governing heads of state and central departments, as well as NGOs, as part of Public Relations efforts**
India is geographically divided into four zones: North, East, West, and South. Each zone conducts one or two FD projects at a time, and the duration of a single FD project is typically 6 to 8 months. Through these initiatives, members and communities can

directly benefit from SOSONA-supported FD activities such as workshops, learning days, interactive sessions, LTC, LDS, entertainment programs, events, Public Relations (PR), Hospitals & Institutions (H&I), media outreach, and phonline services.

At present, we are also developing a Fellowship Development Guideline for our region. The purpose is to help carry out FD efforts in a more strategic, structured, and accountable manner.

Describe what kind of planning your region and/or its areas utilize.

The Fellowship Development Plan/Service Request is invited from different areas.

Based on the proposals received, along with a bidding process and the availability of funds, we select 2-4 FD requests every six months. The selected areas are then supported and followed up during the following six months.

Funds are allocated to the respective areas to carry out their Fellowship Development efforts, and guidance is provided throughout the process. This approach allows members at the area level to directly participate in and gain practical experience with Fellowship Development initiatives.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **One of our areas has recently started using AI technology to assist with literature translation into Hindi. This initiative is helping members translate recovery literature more efficiently while maintaining clarity and accessibility for Hindi-speaking members.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Some of the common PR efforts carried out in our region include:

1. Outreach to Treatment Centers and Institutions

Members coordinate with rehabilitation centers, hospitals, and other facilities to introduce NA and provide information about meetings and recovery support. This is often done in cooperation with H&I services.

2. Interaction with Government and Public Bodies

PR trusted servants sometimes communicate with state and central government departments, social welfare offices, and local authorities to share information about NA and how it supports recovery in the community.

3. Collaboration with NGOs and Community Organizations

We engage with NGOs and community-based organizations working in addiction recovery, health, and social welfare. These interactions help build understanding about the NA program and encourage referrals to NA meetings.

4. Public Awareness Activities

Areas and regions organize public awareness programs such as information stalls, open meetings, recovery workshops, learning days, and seminars to explain the NA program and how people can access help.

5. Media and Digital Communication

Some areas use local media, social media platforms, and phonenumber services to provide accurate information about NA meetings and recovery resources. These platforms help addicts and their families find support more easily.

6. Posters, Banners, and Helpline Visibility

Many areas also carry out poster and banner campaigns in public places such as hospitals, police stations, community centers, and other visible locations. These materials usually display the NA helpline number and basic information so that addicts or their families can easily reach out for help.

7. Community-Based Events

PR committees sometimes participate in health awareness events, recovery-related gatherings, or community programs where NA information can be shared respectfully and in line with NA traditions.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **6** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, By online meeting with 15-16 area representatives.**
Which method does your community use to reach a conscience on the CAR?

Discussion and vote by RCMs at RSC meeting

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

In the SOSONA - India region, the most interest and discussion during the past conference cycle centered around fellowship development, service structure, and unity within the fellowship.

Much of the discussion focused on strengthening area-level participation in service, improving communication between groups, areas, and the regional body, and encouraging members to become more involved in service responsibilities. There was also considerable interest in developing clearer processes and guidelines for Fellowship Development (FD) initiatives so that projects can be carried out more strategically and with better accountability.

Please describe the most significant challenge your region has faced since WSC 2023.

One of the most significant challenges faced since the World Service Conference 2023 has been maintaining unity and effective communication across a geographically large and diverse fellowship.

Our region includes multiple areas with different levels of service experience, resources, and local challenges. Because of this diversity, maintaining consistent participation in regional service, ensuring transparent communication, and supporting developing areas has sometimes been difficult. Some areas are still building strong service structures and trusted servant participation, which can slow decision making and implementation of regional initiatives.

Another challenge has been the process of area splitting and restructuring as the fellowship continues to grow in different parts of the region. While this growth is positive, it sometimes brings questions related to service boundaries, participation, and maintaining cooperation between newly formed and existing areas.

Additionally, there have been discussions regarding seating requests and representation at regional meetings, as areas grow and more members become involved in service.

Ensuring fair participation and maintaining an effective decision-making process has required ongoing dialogue and adjustments within the service structure.

What additional information would you like to share with other conference participants?

No as such

Facts about: SOUTH AFRICA

Name of Regional Delegate **VAUGHAN**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the 2023 WSC? Interim 2025 WSC? **Yes**

How many times a year does your RSC meet face-to-face? **1**
 Are any of these meetings hybrid? **yes** How many? **1**
 How many times a year does your RSC meet virtually? **12**
 What committees or workgroups do you have at your RSC?
Conventions/Events FD/Outreach H&I Phonenumber PR/PI Project Based Workgroups
Translations Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **It is positive and allows RSC to practice Tradition 2 and helps with a productive way of carrying the message to the still suffering**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, From October 2024 to October 2025, the FD Sub-Committee concentrated on strengthening fellowship structures, supporting struggling meetings, and assisting the growth of new groups.
This included the opening of 8 new in-person NA meetings, while also assisting 4 online groups as they moved towards becoming self-supporting and autonomous NA groups.
Progress was made on finalizing the Online ASC, providing ongoing guidance through the FD WhatsApp group, and rebuilding structures in regions such as the Eastern Cape.

Policy development was also prioritized, with FD drafting a proposal to amend the Members Safety and Wellbeing policy under Unity Ad Hoc.

The sub-committee helped coordinate the online streaming of SARCNA 2025 as well as serving as the Health & Safety Chair, while also contributing to the online H&I project.

FD also coordinated several online NA speaker jams and workshops.

The remote sponsorship project continued to grow steadily, linking members in outlying areas with sponsors, and FD has encouraged greater support from groups and service representatives to help build a bigger NA footprint in outlying and rural cities, as well as digitally online.

Collectively, these efforts highlight FD's active involvement in policy shaping, meeting support and carrying the message across both established and developing communities.

Describe what kind of planning your region and/or its areas utilize.

1. Helping new Narcotics Anonymous groups open new meetings in outlying and rural cities and towns.
2. Helping struggling Narcotics Anonymous groups keep the doors open and outlying and rural cities and towns.
3. Assisting with the development of Area Service Committees both in person and online and other service structures.
4. Remote sponsorship project - assisting members who request with a remote sponsor where they are unable to find anywhere they live.
5. Quality of the NA message - helping NA group's with traditions workshops and service committees with NA concepts workshops.
6. Making service in NA attractive - look at ways to make service in fellowship development specifically but broader in narcotics Anonymous more attractive.
7. Developing and maintaining an information pack for the South African region. More specifically creating an up-to-date list of meetings across the region as well as in the rural and outlying cities in town. Basically, so that we can measure the growth or decline of narcotics Anonymous groups and meetings year on year.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We launched the new website**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

1. Content Planning

✿ Content to be 200-600 characters per post for Facebook

✿ At the end of every post the following details must be included:

o Phonenumber (with the rates)

o WhatsApp number (if region gets its own number)

o Blurb about anonymity

Regional Blurb:

NA Phoneline - +27 861 006 962 (free minutes do not apply, R2.85 per minute)

NA WhatsApp Line - If and when we get a national one

*** Anonymity is the spiritual foundation of all our Traditions, please think before tagging anyone in this post

✿ When sharing literature that is public information:

- o Always link back to the page on the NA world website, or the local SA NA website

- o Take pieces of information that you feel is relevant to share out of that and share that piece only, with text at the bottom - read the full IP/Post/Etc. here (with link

✿ When sharing personal experiences (audios, text or videos)

- o Add disclaimer that these are personal views of members, and not the opinion of NA as a whole

- o When in another language state the language of the share at the beginning of the post "Narcotics Anonymous Zulu" etc.

✿ Images

- o Images need to have little to no text as Facebook penalizes ads for having too much text. The general rule is less than 25% of the image may contain text. Review your images here ✿ https://www.facebook.com/ads/tools/text_overlay

2. Ads

Social media is a pay to play arena, if you aren't paying you aren't playing. Your page's posts won't be seen by the people who need it most unless you pay for ads. Even when your page has 10,000

likes less than 5% of your audience will see your post people will see the posts unless you promote them. Social media algorithms do this so that we have to pay for ads.

Region should allocate a budget of R500.00-R1000.00 per month to Facebook ads, this can be adjusted according to the time of year, and more can be used over the three month period

surrounding Drug Awareness Month, as well the period surround December Holidays and January.

o Targeting

- o When setting up ads for your region keep in mind that everyone has the potential to be an addict or know an addict, so we don't have to fine tune target the audience beyond the area.

- o Region should only target areas that have an existing fellowship, and exclude areas that don't have any real base there, UNLESS there has been a request for help to grow meetings in the area.

- o Region should target everyone in these areas between the ages of 18 and 65 - this could reach the still suffering addict, as well as friends and family members, key community members, and department members who we are trying to build relationships with. If they see the brand, it becomes recognizable and the first form of contact from us doesn't have to feel unfamiliar, they could know about us because of social media

- o As well as people who like specific music linked to the party lifestyle, and any other targeting criteria who might help us reach the still suffering addict directly
- o Choose your areas and see is the reach to far or not far enough on the map and adjust accordingly
- o Promoting Posts
- o Posts should all be promoted for a minimum of 4 days at R100 per post. Some posts may be promoted for longer with higher budgets
- o Promoting the Page
- o Likes aren't as important as how many people we reach, so promoting the page isn't as important as promoting the content and the website. If your budget doesn't allow for it then don't worry about it. Who likes your page can also break anonymity so we should rather work at promoting posts
- o Promoting the Website
- o When promoting the website, as our number one goal is to get people to a meeting, using the meeting URL. This will obviously be changed according to the area we are promoting when it is not a national ad or promotion
- o Promoting meetings in an area
- o We promote meetings this week in add area here. This is something that we don't target at the whole of South Africa area, we downscale it to a smaller area within an Area, such as Soweto or Roodepoort in Johannesburg.

3. Protecting Anonymity

We can't disable tagging because that interferes with our reach, and often people might tag someone who is working on something that requires the assistance of NA. But what we can do is hide all public comments made by members to protect their anonymity, this means only their friends will see their comments. No images of members will ever be shared, and no members posts will be shared to the page.

4. NA Events

No NA events should be shared on a public social media platform of any kind, no online Zoom meeting links with video shares available. This is to protect anonymity.

5. Answering Messages

We do not give advice, we rather suggest people attend their nearest meeting and share a link to the meetings in that area. When it comes to anything which is not in the public information umbrella of NA

we need to reaffirm that we are only here to offer direction to the nearest meeting and cannot give any medical or personal advice. Always direct them to the phoneline or WhatsApp line for more assistance.

 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Much better than RRO! Gives those who are against decisions the chance to speak more openly.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, The region doesn't have anyone in this position at the moment so works together, along with the RD & any areas in need. We have QR code cards that take members to the website where they can find meetings & events. They can also ask for lit if they do not live close to any town/cities with meetings.
 Describe what kind of planning your region and/or its areas utilize.
Due to not having anyone in this position, we basically just deal with planning on an as needed basis.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Our web servant is amazing & has moved us forward SO much! We now have a Facebook page that actually gets more usage than our webpage.**

Members are also able to donate through the webpage & they can also register/pay for our state convention.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We do a PR panel before each convention & since the convention also moves each year, info is getting out to different areas each year. We also do our best to get our QR codes out to any referral agencies.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, So far 2. Attendance was around 10ish members.**

We will be doing one over zoom soon to hopefully, get more attendance.

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per member

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **Yes, I've made a "ballot" for members to use to get me their votes anonymously. We also are getting it put onto our webpage through a google forum.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

DRT/MAT & Gender-neutral language

Please describe the most significant challenge your region has faced since WSC 2023.

The fact that South Dakota is so spread out. Most meetings seem to happen either on the west side or the east side but we are under populated centrally as far as meetings go.

We also struggle with 1% doing 100% of the work.

What additional information would you like to share with other conference participants?

 Does your RSC meeting use CBDM to reach decisions? **No**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **The Areas that employ CBDM seem to be happy with it.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, As a part of our initial strategic plan, we created a project based fellowship development team that visited more than half of our constituent Areas, with a goal to visit the others this year. Since this was a new project, we primarily endeavored to make Regional trusted servants visible and available. We met with some success in that Area trusted servants felt seen and heard, and appreciated our outreach efforts.
 Describe what kind of planning your region and/or its areas utilize.
Last year, we initiated strategic planning for the first time. We used a model that begins with scanning, where information is gathered through reports, surveys, and data

collected at our Regional Assembly. Participants then brainstormed what is working, what is not working, and challenges exist. Similar concerns were grouped and prioritized into a small number of key issues. Thereafter, the group developed one clear, SMART goal per issue, defining the desired outcome rather than the steps to achieve it. Next, detailed action plans were created that outlined specific deliverables, responsible leaders, timelines, budgets, and evaluation points. Progress was then monitored regularly, results were evaluated, and they have been fed back into the RSC.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Although our RSC is technically "in-person", it is actually hybrid and most participants attend virtually. Last year, we operated a pilot program for YAP in one of our outlying Areas that lacked a subcommittee to support a phone line. This project went well, and we are considering implementing YAP for use with the Region itself.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Our Regional PR Committee does tabling at public events and booth sittings at professional conferences. These include the Evolution of Psychotherapy, and other conferences of medical professional and mental health professionals. We also conduct virtual parole presentation/meetings twice per week, attended by about 100 parolees at each meeting. In addition to the Parole Department, we also maintain and nurture relationships with L.A. County offices, such as the Department of Children and Family Services, the District Attorney's Office, the Office of the Public Defender, etc. We are just now initiating a project to expand our profile in social media.

Please provide the URLs for the social media that your region is responsible for:

We do not yet have any URLs to share regarding our Region's social media profile.

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **7** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We held one (1) Regional Assembly in early February, 2026 that was attended by about 100 people, including RCMs, GSRs, and members at large. We discussed the five (5) motions, as well as gender-neutral language in NA literature and DRT/MAT in NA. We also stressed the importance of the CAR Survey.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per Area

Does your region discuss the parts of the CAR not related to motions? **Yes, We discussed gender-neutral and inclusive language in NA literature and DRT/MAT in NA. These were lively discussions with participation by a diverse representation of the Fellowship.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Both gender-neutral and inclusive language in NA literature, and strategic planning/fellowship development

Please describe the most significant challenge your region has faced since WSC 2023.

ensuring a successful Regional convention

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **3** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, one workshop at this time for GSRs around the region. 30 in attendance, 10 virtually. "General Assembly is held 3rd weekend in February.**

No decisions were made. Information to be taken back to home groups. Home groups to bring group tally sheets to March areas. RCMs to bring that to quarterly RSC third weekend in April. Right before first straw poll!!

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **No**

Does your region engage in gathering a conscience for CAT material? **Yes, we're working on that. Utilized the PPT during General Assembly last weekend**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

fairly equal over the IDTs. Different members had their particular focuses. More Home Group Discussions than prior years, I feel.

Please describe the most significant challenge your region has faced since WSC 2023.

Coming out of covid there seemed to be a more internal/group focus versus zonal/world outreach. Consequently, one RD w/o AD.

What additional information would you like to share with other conference participants?

I am really looking forward to the experience, again.

 Have you attended an in-person WSC before? How many?
 Did you attend the virtual 2023 or interim 2025 WSC?
 How many areas are in the region? **13**
 Are any of these areas composed entirely of virtual groups? **Yes** How many? **1**
 How many meetings take place each week in the region? **523**
 How many are in person? **442** How many are virtual? **81** How many are hybrid? **4**
 How many H&I panels each week in the region:
 How many are in person? **25** How many are virtual? **0** How many are hybrid? **0**
 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Growing**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **2**
 Are any of these meetings hybrid? **yes** How many? **2**
 How many times a year does your RSC meet virtually? **2**
 What committees or workgroups do you have at your RSC?
Conventions/Events FD/Outreach H&I Literature Distribution Phoneline PR/PI Project Based Workgroups Translations Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Areas and RSC have been using CBDM for over two decades, Groups are slowly implementing.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Outreach to isolated areas or groups.
Task teams.
Workshops when required.
 Describe what kind of planning your region and/or its areas utilize.
Year ahead strategic planning.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Improving streaming for RSC meetings and other regional events.**
Have implemented BMLT.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

PR presentations.

Awareness campaigns on streets, buses, radios, hospitals, etc.

Awareness and call to action campaigns in Social Media

Please provide the URLs for the social media that your region is responsible for:

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **3** How many were virtual events? **1**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Regional Assembly over a weekend: 84 GSR, 9 RCM, RD**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by GSRs at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, Our Regional Assembly addressed the IDTs during the cycle and this years' Assembly also workshopped "Pricing our Litterature" and New or revised Literature or Service material.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Inclusive and gender neutral language. "Latin rooted languages" are not easy languages to adjust to inclusive language and this issue has been terribly politicized in the past years. Discussions have sometimes created a bit of friction.

Please describe the most significant challenge your region has faced since WSC 2023.

Creating unity between In person and Virtual realities.

Also addressing sexual predation.

Improving communication within our service structure.

Implementing strategic planning.

What additional information would you like to share with other conference participants?

Facts about: St. Petersburg and Leningradskaya Oblast*

Name of Regional Delegate**Andrey**

 Does your RSC meeting use CBDM to reach decisions?**No**
 Do any of your areas use CBDM to reach decisions?**No**
 Comments about how that works: **Vote by majority**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, It conducts missions focused on development, as well as the study of the Steps and Traditions.
 Describe what kind of planning your region and/or its areas utilize.
We are planning our budget and development initiatives; we are planning the procurement of literature and the printing of informational materials (display boards, business cards, etc.) to support the establishment of the BU; and we are planning our publicity and promotional activities.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We participate in anti-drug commissions across all districts of the city and disseminate information in the subway and various free publications.

Please provide the URLs for the social media that your region is responsible for:

<https://na-russia.org/sankt-peterburg>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **10** How many were virtual events? **10**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, Held 2 times, meetings with RCMs about CAR and CAT.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by individual members at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, Indeed, the Delegate is heavily involved in the work.**

Does your region engage in gathering a conscience for CAT material? **Yes, We will conduct a poll or discuss it at the meetings of MCO**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Gender-neutral language, MAKAN 38, printing on a 3-year cycle

Please describe the most significant challenge your region has faced since WSC 2023.

What additional information would you like to share with other conference participants?

St. Petersburg is a single administrative region—a city-region. I particularly enjoyed four things about the city.

Facts about: Sweden

Name of Regional Delegate **Nils Z**
 Have you attended an in-person WSC before? How many? **Yes, 1**

 Are any of these meetings hybrid? **no** How many?
 How many times a year does your RSC meet virtually? **4**
 What committees or workgroups do you have at your RSC?
Conventions/Events H&I Human Resources Literature Distribution Phoneline PR/PI
Project Based Workgroups Regional Service Office Translations Website
 Which of these workgroups/committees are new since WSC 2023?
Conventions/Events Other
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Decision through Discussion**
After a motion is presented, it's important to allow time for questions and discussion so everyone can understand and engage.
RSC uses different discussion formats, from small group talks to more structured discussions with the whole group.
If a shared opinion isn't reached through discussions or if opinions need to be turned into numbers, a vote will be held. The goal is to make decisions in relaxed discussions. If there's significant disagreement, the discussion time should be extended instead of rushing into a vote.
Decision through Voting
When a decision is made through voting, the process becomes more formal. It's important to remember that all decisions are based on NA's 12 Steps, 12 Traditions, and 12 Concepts.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?

No

Describe what kind of planning your region and/or its areas utilize.

Yearly planning, prioritized by the groups in the region so the committees can plan and make a budget.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **NO and yes, we are using a new platform with Microsoft 365 but we are still adapting to it.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Jails, Prisons, Rehabs, Police academy, Social worker university, Detox centers, Schools, psych wards, hospitals.

 Do any of your areas use CBDM to reach decisions? **No**
 Comments about how that works:

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
No
 Describe what kind of planning your region and/or its areas utilize.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Some areas in our region have begun using online payment systems (Venmo, CashApp, PayPal, etc.) to collect 7th tradition donations; these areas have reported approximately 30% increase in donations as a result.**
 Please describe the different types of public relations efforts (PR/PI) carried out in your region.
Specifically, Tri-State has recently been working to revitalize PI, H&I, and outreach. One project we are focused on right now includes placing signage for Narcotics Anonymous on public transit (on/in public buses and bus stations). We have also

recently audited our phone line procedures and effectiveness, and have begun developing in-service workshops for professionals, institutions, and other organizations for education on NA.

Please provide the URLs for the social media that your region is responsible for:

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **2** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, RD has traveled in-person around the Tri-State Region to hold workshops with Areas that have requested this service; RD has also provided virtual CAR workshops. By the end of March 2026, RD will have completed 7 scheduled workshops (1 virtual), and will have assisted the Buckeye Region with CAR information as well. Average attendance has been approximately 20 participants. Some Areas have strongly requested each home group send a GSR or other group rep.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, Tri-State has extensively discussed the Strategic Planning Process, as well as history related to NA included in the CAR. IDTs were also highly discussed.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Tri-State has appeared most concerned with use of NA funds at World level, particularly concerning increasing literature prices and convention planning. Tri-State has also voiced concerns regarding the preservation of global diversity and access to literature and events, as well as NA's response to current global sociopolitical issues.

Please describe the most significant challenge your region has faced since WSC 2023.

Tri-State has been most concerned with our fiscal position, as many of our Areas are reporting fewer donations and increased financial pressure as a result of increasing literature prices. Our Region has also struggled in some Areas with respect to an increase in members utilizing Medical Marijuana.

 Comments about how that works:

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Working in conjunction with other Subcommittee o Di developing projects to support groups through long-range actions, learning day, server formation and opening of new groups
 Describe what kind of planning your region and/or its areas utilize.
It starts with RSC meetings every ninety days, and the period between RSC meetings is that they happen in a different area, such as our large geographical area, and one of them is present even when we do not open actions in a specific area.
 If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Yes, today through digital operations, we got to reach places where we still can't be present in person**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

With everything we have seen that the best action in this area to develop a brotherhood and FAL forum of action Local, when we decide to do during all the time that we prepare the event are several actions of PR of all types, in prefectures, hospitals, radio, CTS, TV, bands, banner presentation of PR spoken in various structures and different cities

???

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **20** How many were virtual events? **3**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, For our first experience as a region handling this service, we are conducting virtual workshops.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per area

Does your region discuss the parts of the CAR not related to motions? **Yes, During the virtual workshops, all topics covered in the CAR will be discussed.**

Does your region engage in gathering a conscience for CAT material? **Yes, It will also be done in virtual offices**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

All these activities are new to us; as a region, we have only been in existence for three years.

Please describe the most significant challenge your region has faced since WSC 2023.

The major challenge is to resist as a region like everything is new, clearly we have good servers working with many ideas, but at the same time the major challenge is being a better contact and closer to the national structure ABNA this has been our major challenge, seek support to develop our region

What additional information would you like to share with other conference participants?

would like to highlight our work as a region considering that our geographical area corresponds to approximately 190,000 km², our state Minas Gerais has 586,000 km², our region corresponds to 33% of its territory, just to measure this, we are a larger area than some countries like Uruguay or Greece, and we are made up of only four areas that total 31 groups, including 3 institutional groups, and we are in 21 municipalities.

Facts about: UK

Name of Regional Delegate **Sam J**
 Have you attended an in-person WSC before? How many? **No**
 Did you attend the 2023 WSC? Interim 2025 WSC? **Yes**
 Name of Alternate Delegate **Neil P**
 Have you attended an in-person WSC before? How many? **No**

 Does it seem as though the Fellowship in your region has been growing, shrinking, or staying the same since WSC 2020? **Growing**

Your Regional Service Structure

How many times a year does your RSC meet face-to-face? **6**
 Are any of these meetings hybrid? **yes** How many? **6**
 How many times a year does your RSC meet virtually? **0**
 What committees or workgroups do you have at your RSC?
Conventions/Events FD/Outreach H&I Phonenumber PR/PI Project Based Workgroups
Regional Service Office Website
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Generally it works fine but we find that when straw polls are taken at the beginning of the CBDM process, often the body is asked if anyone is against i.e. the absence of an opposition. We believe that the process will be more spiritual and fair if the presence of agreement is sought and not the absence of a disagreement. i.e. the straw poll should ask how many people are in support of the decision and not is anyone against.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Providing guidance, workshops and practical support to ASCs including the facilitation of inventory taking workshops, delivering CBDM, Service Structure etc workshops.
Supporting newly formed and struggling NA groups/ASCs.

Offering tools such as Environmental Scans and Service Volunteer matching through facilitation of service days.

Describe what kind of planning your region and/or its areas utilize.

UKPI and UK H&I work from their own 5 year plan which is approved by Region with an annual update provided each January.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Yes. UKPI recently completed the Audio version of the 6th edition of the basic text, read out by British members.**

UKH&I's Visionable platform which streams recovery meetings into multiple prisons simultaneously, currently hosts meetings in 20 prisons and is working on expanding this into another 36 prisons.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

A broad range of initiatives at both Area level (local presentations, poster drops etc) and at Regional level, attending government committees, presenting to Members of British Parliament, large national and international profile events from medical to government and criminal justice.

Please provide the URLs for the social media that your region is responsible for:

N/A

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **20** How many were virtual events? **6**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, 4 Regional workshops hosted by the Delegates, 5 Area workshops, including UK Farsi Speaking ASC which included Farsi Translation of Materials by our RD, Average attendance 20**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per Area

Does your region discuss the parts of the CAR not related to motions? **Yes, We discussed the IDTs and the literature pricing details.**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

World Convention has been a prominent one.

The Gender Neutral language and DRT/MAT topics

Please describe the most significant challenge your region has faced since WSC 2023.

This challenge has been around for a number of years but has recently got worse.

Out of 39 ASCs who are members of our RSC only around 12 regularly attend Region (i.e. around 30%) and the feed back we are getting from Areas, suggest that only around 20% of GSRs regularly attend ASCs. This suggests that only 6% of the groups are in contact with Region and regularly receive information from it.

This suggests that over 90% of our groups are not properly connected to the rest of NA structure.

We have brought the above to the body and have asked for creative ideas to improve this situation.

What additional information would you like to share with other conference participants?

When we first started the Basic Text Audio (6th Edition UK Readers Version) it's stated intention was to be used within the UK prison system. We have now had multiple correspondence from members with different types of disability and also those who can not read, who have shared how beneficial the audio literature have been to their recovery. These include members with ADHD, Autism and similar disadvantage.

Facts about: Ukraine

Conventions/Events FD/Outreach H&I Literature Distribution Literature Review
Phoneline PR/PI Project Based Workgroups Regional Service Office Translations
Website OtherVirtual Area Service Committee which consists of virtual H&I and FD
sub-committee.
We have a regional service so called "Tradition keeper" - the person who searches in
internet whether our 12 traditions where violated. If so, the person tries to contact the
violators and ask them to stop.
 Which of these workgroups/committees are new since WSC 2023?
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **It doesn't always work smooth, sometimes we use the**
majority to make decisions

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, FD
„Flag" project:

The Flag project continues to support unity between local areas through shared use of regional materials.

"Representatives School" project:

The Representatives School remains active as a platform for experience sharing between group, local, and regional service representatives.

"Neighbors" project:

The Neighbors project supports nearby cities by assisting with group development and the creation of new NA groups.

Workshops and fellowship development:

Educational workshops are being conducted, including the newly developed workshop "Talking About Ourselves", as well as virtual Fellowship Development (FD)-focused workshops.

Ukrainian FDC is also responsible for organizing and conducting annual Ukrainian Assembly of Representatives former GSRs Assembly

FDC is also responsible for organizing and conducting annual FD Assembly

Describe what kind of planning your region and/or its areas utilize.

We plan future activities for trusted servants and committees of our region as well as their financing during our in-person regional meeting, which is held 2 times a year. So, on the regional level we plan our business for 6 months forward. Each regional committee plans their inner activities themselves. Our areas, mostly, plan their activities and financing during monthly Area Service Meetings as well as during Annual Area Service Meeting. This process differs just with goals (short/long termed)

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We have trained an AI model to help us with translations**

We utilize Telegram to conduct our recovery and business meetings there. Its much convenient and easier comparing to utilizing Zoom. We also trained special Telegram-bots to avoid different kinds of spam during online meetings

We use Canva to create informational posters and pamphlets

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Ministry of Health of Ukraine: "Narcotics Anonymous" has been officially included in the Ministry of Health registry.

Conventions/Events FD/Outreach H&I Literature distribution Phoneline PR/IP
Regional Service Office Website Other1) Subcommittee on Magazines, Bulletins and
Publications of the NA Venezuela RSC.
2) Working Group for the Review and Update of the NA Venezuela Service Guidelines,
of the NA Venezuela RSC.
3) Working Group on the History of NA Venezuela, of the NA Venezuela Service
Guidelines, of the NA Venezuela RSC.
3) Working Group on the History of NA Venezuela, of the NA Venezuela RSC.
However, most of the coordination positions in each of our subcommittees and working
groups are currently vacant.
 Which of these workgroups/committees are new since WSC 2023?
Regional Service Office Other
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **We are learning everything related to this process, according**
to the NA World Services Basic Guide to Consensus Decision Making. We always try to
ensure that all voices are heard and that a decision is made whether or not it is supported by
80% of the participants with voting rights present, when a vote is required.

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?

Yes, The coordination of this subcommittee is currently vacant. However, some RSC staff members have recently begun providing these services—albeit very few—in various parts of the region. This service had been discontinued due to a lack of staff and financial resources.

Describe what kind of planning your region and/or its areas utilize.

We are learning to work and serve using the planning and budgeting process. It has been very difficult. The low participation of members and groups on this topic has resulted in deficiencies, compounded by the serious economic situation in Venezuela. However, we always manage to complete almost 100% of our annual activity schedules, programs, and so on for the RSC.

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **Yes, we have. The NA Venezuela website is frequently reviewed and updated. We have a new informational Facebook page and a new Instagram account. Paying for advertising on these social media platforms has helped us spread our NA message more widely through these channels. And there's an area of our RSC that is successfully replicating much of this.**

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Flyers, sticker and poster distribution, mural painting, radio interviews, television channel information, presentations and public information meetings in schools, colleges or high schools, universities, government entities, etc., in addition to other types of public relations services - public information, panels and meetings of hospitals and institutions, telephone line, Internet and website services, fraternity development, literature, events and conventions, and many more, which are done daily in our region.

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, There are two sessions: one in-person or hybrid, and one virtual or online. In-person or hybrid sessions are attended by 10 to 15 members, and virtual sessions by 5 to 10.**

Which method does your community use to reach a conscience on the CAR?

Discussion and vote by individual members at regional workshop/assembly

Does your region discuss the parts of the CAR not related to motions? **Yes, Information is shared about everything related to the CAR, CAT, Conference Report, etc., however, member participation is very low and interest in these matters is only from a small number of members.**

Does your region engage in gathering a conscience for CAT material?**Yes, Information about the CAR, CAT, Conference Report, etc. is always shared at regional meetings, workshops, and activities; however, it is observed that there is much less interest in the CAT than in the CAR, which is also very little, on the part of the members, groups, and areas of the region.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

The issue of inclusive and gender-neutral language in our literature.

Please describe the most significant challenge your region has faced since WSC 2023.

1) Lack of unity and harmony, 2) Lack of servants, and 3) Lack of money.

What additional information would you like to share with other conference participants?

For the time being, none.

Facts about: Volunteer

Name of Regional Delegate **Greg Vogelsang**

Conventions/Events FD/Outreach Phonenumber PR/PI Website
 Which of these workgroups/committees are new since WSC 2023?
FD/Outreach
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **It helps by practicing open mindedness and giving individuals a chance to express their ideas or comments.**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Our outreach program is recently starting up in just the past year, the chair person has personally went to each of they areas to see what their needs or requests might be. The same workgroup has also been getting in touch with the Department of Corrections to initialize an organized program available to residents of these facilities.
 Describe what kind of planning your region and/or its areas utilize.
Minimal amount of planning is done. We look ahead to see what is coming up, but no real strategic planning is done. We've tried in the past to do a Regional Inventory to see what we can improve.

Volunteer

WSC 2026 Regional Reports

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We have successfully used virtual training for areas and groups, in PR.**

Our Region also started doing a quarterly newsletter.

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

We do training for groups and areas. We've held Professional training days. Currently working to set up a Regional booth at several major events. We have supported Areas with billboard and bus campaigns.

FD/Outreach H&I Literature Distribution Phoneline PR/PI Project Based Workgroups
Regional Service Office Website OtherIT subcommittee
 Which of these workgroups/committees are new since WSC 2023?
Project Based Workgroups Other
 Does your RSC meeting use CBDM to reach decisions? **Yes**
 Do any of your areas use CBDM to reach decisions? **Yes**
 Comments about how that works: **Areas uses short procedure of CBDM. And often finish procedure of decision making with a formal voting due to issues during discussion for reaching consensus**

Service Delivery & Best Practices

Are fellowship development (FD) or outreach efforts provided within your region?
Yes, Most of area have FD committee. All of them provide information and services learning events; day of newcomers; unity days and provide outreach efforts
Regional FD collect experience, provide experience exchange meetings, conduct regional Sponsorship and service days, and provide annual meeting about FD service only. Also for new or problematic areas regional FD conduct event mission of development. It is

about two days filled with information and practices about group service and service structure as ASC and GSR or RCM service

Describe what kind of planning your region and/or its areas utilize.

RSC performs one time in two years strategic planning sessions and create each half year prospects and budget. Areas also perform strategic planning sessions and budgeting with a various periods

If you have had any particular successes with utilizing technology in new ways within your region and/or areas, please share them. **We are providing targeted advertisement efforts. Our IT committee performed transfer from one e-mail system to another.**

Some areas make efforts to improve visabilty of NA social media pages

Please describe the different types of public relations efforts (PR/PI) carried out in your region.

Social media, billboards, radio advertisement , newspaper and transport advertisement , social advertisement, providing our literature in libraries

Please provide the URLs for the social media that your region is responsible for:

<https://vk.ru/regionwesternrussia>

How many professional conferences per year do the PR/PI committees in your region and areas participate in/exhibit at: **36** How many were virtual events? **0**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We perform it on regional monthly meetings for RCM but every person who wants could come. And if area make request we are providing workshop virtually for area. Also we make records and share it**

Which method does your community use to reach a conscience on the CAR?

Other - Tally-one vote per area

Discussion and vote by RCMs at RSC meeting

Delegate decisions to the RD/AD

Each area chooses methods depends from their conscience.

We faced with issue that members prefer to discuss area decision against motion decision and we have little interest for global fellowship deals within members on areas

Does your region discuss the parts of the CAR not related to motions? **Yes, We are discussing IDT, strategic plans sessions and introduce budget and how is working WSC**

Does your region engage in gathering a conscience for CAT material? **No**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

Topics about refreshing of service structure, finding ways to involve people in service, mentoring and rotation practices. Young people involve jn service

Please describe the most significant challenge your region has faced since WSC 2023.

We have encountered a problem with delivering literature to foreign countries. Our region includes several foreign states. With some of them, Russia has simplified customs procedures, making the delivery of literature unproblematic. However, three other countries present more challenges. Essentially, shipping goods to these countries requires customs formalities. In two of these countries-Uzbekistan and Azerbaijan-there is also a risk during customs clearance that the authorities may inspect the literature and prohibit its importation because they are particularly sensitive about references to religious and related topics.

Delivery to Georgia is complicated by high transportation costs.

At this moment, intermediary companies have been found which deliver literature using their connections, but this does not constitute official shipments.

Another point concerns servicing these countries as well. Not all parts of Georgia belong to our region. There are actually Georgian and Russian groups there. The Russians joined one of our local areas. There is complex interaction between the dependent Russian-speaking population and the local Georgian community.

Furthermore, Uzbekistan and Azerbaijan will need either future deliveries or nearby production of literature in their own languages. Shipping from Europe appears very expensive, while producing literature within the RFZ territory in another language could also be challenging.

What additional information would you like to share with other conference participants?

Information described above about literature challenges. And information about targeted advertisement

Facts about: Wisconsin

Name of Regional Delegate **Joe D**
 Have you attended an in-person WSC before? How many? **Yes, 1**

Reaching Decisions on WSC Issues

Has your region hosted CAR workshops? **Yes, We have put on two workshops this cycle. The average attendance was 15-20 members.**

Which method does your community use to reach a conscience on the CAR?

Tally-one vote per group

Does your region discuss the parts of the CAR not related to motions? **Yes, At our RSC meeting, we allocate time to discuss the IDTs and other issues.**

Does your region engage in gathering a conscience for CAT material? **. Yes, Our final workshop will be going over the CAR and CAT. We will be asking for a group conscience to be brought back to our March RSC meeting.**

Innovations and Challenges

What subject generated the most interest and discussion in your region this cycle?

There were a number of topics that generated discussion during the past cycle. A few of those were H&I (how to get back into facilities after the pandemic), putting on functions (getting members excited about recovery and service) and the Wisconsin regions history (forming a committee to gather archives and pieces of our history).

Please describe the most significant challenge your region has faced since WSC 2023.

Getting and keeping members involved in service. Cultivating the interest in members to get involved in service.

What additional information would you like to share with other conference participants?

The Wisconsin region has donated \$2,170.63 to each NAWS and the MZF.
