New Project:

Revising *The Group Booklet*, IP #2, and *A Guide to Local Services*

The Group Booklet, IP #2 *The Group*, and *A Guide to Local Services* help groups and local service bodies to carry the message to the addict who still suffers. However, these resources were written for a model of NA service that doesn't fully reflect our experience in NA today. Groups have evolved in many ways, utilizing wisdom and technology that were not available 30 years ago, when these materials were last updated.

The 2026 World Service Conference approved a project plan for new and revised service tools. The first focus will be group tools: replacing the group section of *A Guide to Local Services* and updating *The Group Booklet* and IP #2 *The Group*, to reflect current best practices for groups in NA.

Fellowship input is essential to our work and we invite you to share yours. It's especially important when we're looking at local service. Ideas for the revisions will be collected using focus groups, surveys, Issue Discussion Topic (IDT) workshops, and webinars. Communities are welcome to share the project input form and to host local IDT workshops. Forward any workshop results to adam@na.org.

What can you do?
